Thank you for your time in advance.

I am writing today in opposition to the recent proposed Teco rate increase. Rate increases are supposed to be fair and reasonable. Your commission is the oversight of that. This increase is not fair or reasonable. The utility received funds during the pandemic to burn more dirty coal and used those funds and the cheaper coal. That was taxpayer money.

We are in the belief that you should limit this rate increase to be reasonable. Alternatives are part of the answer and Teco should have been expanding on them.

We look forward to your reply.
