CUSTOMER COMMENTS

- 1) Duke Energy should not raise the rates again, and to 4% over 2025 - 2027, putting an unfair burden on the rate payers from a high, fixed base rate to ^{the} poor return to sober customers, while amassing a large profit for lobbying + donations to the democratic party.
- 2) The commission is made up of DeSantis political appointees. (Will they (you) rubber stamp the raising of rates?)
- 3) Duke is very quick to cut off power + slow to reconnect, mostly due to poor communication between the company + the line workers, according to my friends, who had a late bill recently.
