COMPLAINT INFORMATION

Complaint: Other Complaints against Tampa Electric Company
Details:
Public Service Commission,

I say that lightly because it seems you are nothing but a rubber stamp for the power companies to continue to enrich themselves with profit at the expense of the Floridian customers they are FORCED to contract with in a monopoly for electrical service.

You need to tamp down the profits of TECO. They're building a \$10M new office tower in Mid-Town for their executives to have cushy offices instead of cutting rates for the citizens they serve.

You the commission seem to think it's your job to be the Profit Surely Commission- you just approved anything they ask for, you should be ashamed of yourselves.

It is also personally disgusting to me that a foreign company, even a Canadian one, is even legally allowed to own a United States local utility.

Do your job, protect the public that you are supposed to serve instead of surely assuring the monopolies that they're going to continue with a 20% EBITDA profit every year for their foreign owners.

It makes me want to spit, stand up, grow a backbone or resign.

Work FOR THE PEOPLE.

Regards,
Matt Gibson, Tampa FL
