Subject: RE: Docket #20240032-SU Dear Commissioners,

Good Morning Ann Evans,

We will be placing your comments below in consumer correspondence in Docket No. 20240032-SU, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you.

Jenae Thornberry

Commission Deputy Clerk I
Florida Public Service Commission
2540 Shumard Oak Blvd
Tallahassee, FL 32399

Subject: Docket #20240032-SU Dear Commissioners,

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As an owner on the beautiful bridgeless barrier island, Little Gasparilla Island, I'm troubled and extremely wary of the proposal for our island concerning the central sewer system proposed by Environmental Utilities. Our island has a delicate ecosystem and although it is possible that eventually a more advanced system may be needed on our island, the system by EU is not what we need. This company is concerned for profits for itself and not care of the environment or the needs of the island owners. Their proposal is an onerous financial burden on our home owners. Research into other island communities clearly show ways a system can be brought to an island safely and economically to taxpayers. We on LGI already pay one if not the highest water rates in Florida -- brought to us by this same company! Environmental Utilities must not be allowed to do this sewer project. They have no proven expertise to attempt such an important project with the potential for severe ecological and financial repercussions.

Thank you for your time and listening to my concerns.

Ann Evans
LGI property owner
