We have been owners on LGI for 20 years and are against this central sewer system as it won't be any better for our island, it needs way more frequent service so more traffic on island by big trucks, we have many power outages on island so this will interfere with that new system so this central sewage system won't be any good for this island and we

will be better of with the septic system we have now so please do NOT allow this to get through as it will do more harm to our island!

Regards
Danielle Charmes
