RE: Docket No. 20220001-EI, Confidential Filing 02277-2022

Pursuant to Administrative Procedures Manual 11.04.C.7, please be advised that a CD containing a copy of confidential Document No. 02277-2022 in Docket No. 20220001-EI is missing. As described in Order No. PSC-2022-0167-CFO-EI approving confidentiality, issued on May 2, 2022, the document consists of the unredacted version of Anthony Salvarezza's direct testimony and Exhibits AS-1 through AS-3. The confidential material is associated with the March 2020 outage of Bartow Unit 4, and includes a root cause analysis of the event along with explanations of the actions taken to correct and prevent further events at the plant.

The responsible staff person, Orlando Wooten, was preparing to return the confidential document to the Clerk's Office on October 22, 2024, when he realized the CD was not within the confidential folder. He immediately notified ENG management regarding the situation and began a thorough search of his office for the missing CD, but was unsuccessful in locating it. The CD was last observed during the quarterly inventory of confidential documents, conducted on October 10, 2024. Mr. Wooten believes the CD was within a stack of papers on his desk that were subsequently discarded on October 14, 2024.
