**Subject:** FPL Surcharge Request jan-Dec 2025

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please do not approve this request. FPL constantly grants themselves increases and this is just ridiculous.

What happened to putting power lines underground in disaster prone areas? Instead we have these monstrous concrete poles PLUS wooden poles because the telephone/cable people havent put the lines on the concrete poles for who knows what reason. Or maybe use solar cells on the sides of houses instead of panels on the roof.

So many better ways to deliver energy that FPL wont consider since consumers have no choice and they keep getting their increases.
