Subject: Latest FPL rate increases

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello,

I heard on the news that Florida power and light was asking for a rate increase for the next three years. I personally feel FPL is taking advantage of its customers and the public service commission. The customers of Florida are paying too much as it is. We wasn't paying no where near what we are now when the Southern Company had north west FL. Ever since FPL bought our area, the prices have skyrocketed and the customers are tired of their rate increases. Enough is enough. I was in the military and can recognize when someone is making a turd shine and this is one of those times. They are spending/wasting money on TV and radio advertising, it's not like I have a choice where I get my power from. If FPL keeps needing ridiculous increases, or increases often, sounds like whoever is running that company is irresponsible. NO TO RATE INCREASE.

V/R Timothy Godwin
