Subject: Duke Energy

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Commissioners,

Duke Engery gross profits for 2024
\$20.346 billion dollars
Duke Engery gross profit for 2023
\$19.381 Billion dollars
Duke Energy gross profits for 2022
\$18.71 Billion Dollars

Duke Energy is coming to you to increase our electric bill \$21.00 a month so they can collect \$1.1 billion dollars due to the hurricanes outages to pay for the help from other states and Canada.

It is Duke Energy responsibility to keep our lights on. If Duke would bury our lines then there should be any outages, it would be more cost effective. Our roads are always torn up, they could easily bury the wires.

People are struggling to make ends meet as it is, with homeowners insurance, flood insurance, property taxes, flood, gas now this.

I as many retirees are on a fixed income, my income is \$31,500 a year, how are we suppose to afford this? Granted it only \$21.00 a month, but that can by food or gas.

Please don't allow this increase, think of the residences financial situation. Duke can use their profits to cover the cost. This is nothing but Greed and taking advantage of us with \$20.346 billions in profits.

Sincerely,

Sandie Selvaggio
Palm Harbor, FL
