CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I object to the huge rate hike of 9 billion by [FPL.it](http://FPL.it) is an egregious amount for Floridians to shoulder - especially the senior communities. We rely on the PSC to monitor and provide reliable and affordable utilities and the rate hike requested is outrageous. I understand they are requesting the largest rate hike in US history, with a midpoint profit of 11.9% which in this case is well above the national average. This would raise monthly costs that would additionally include even more hikes in the hidden fees they are so fond of as well as hikes for solar and battery facilities it constructs.

This proposal is usury, plain and simple and needs to be thwarted by you, our PUBLIC Service Commission.

Sincerely,

Nina Leonard
