RE: DOCKET NO. 20240108-SU

APPLICATION FOR INCREASE IN WASTEWATER RATES IN
MONROE COUNTY BY K W RESORT UTILITIES CORP.

DATED: March 17, 2025

BACKGROUND

K W Resort Utilities Corp. (the “Utility”) is a wastewater utility whose corporate offices are located at 6630 Front Street, Key West, Florida 33040. The Utility’s wastewater facilities are located in Monroe County, Florida.

On December 13, 2024, the Utility filed an application with the Florida Public Service Commission (the “Commission”) for increased wastewater rates for its customers in Monroe County based on a historical test year ending June 30, 2024, for final rates. The application is assigned Docket No. 20240108-SU and January 24, 2025, was established as the official date of filing.

The Utility is requesting a rate increase because the existing rates do not provide sufficient revenues to cover the required expenses of operations on a going-forward basis and an opportunity to earn a fair return on the Utility’s investment in used and useful property for the public use. The Utility has incurred substantial additional operating costs and capital investment. The Utility has requested a permanent revenue increase of \$913,747 (23.3%). The requested increase would produce annual revenues of \$4,834,389. The Utility has not requested that the Commission approve interim rates. The rate of return on equity requested in this proceeding is 10.05%. The overall rate of return requested is 8.06%. The Company’s last rate proceeding before the Commission was in Docket No. 20170141-SU, utilizing a test year ending June 30, 2017, which resulted in the issuance of Order No. PSC-2018-0446-FOF-SU on September 4, 2018.

Copies of the MFRs, the Rate Case Synopsis, and the Utility’s application are available for inspection on the Florida Public Service Commission website at: <https://www.psc.state.fl.us/clerks-office-dockets-level2?DocketNo=20240108&TabNumber=5>

RATES

The current wastewater rates and the Utility’s requested final wastewater rates are set forth at the end of this notice. The final wastewater rates are subject to change based on information gathered

at the customer meeting, further staff review, and the final decision made by the Commission. The test period for setting rates is the historical average thirteen-month period ended June 30, 2024.

SERVICE AVAILABILITY CHARGES

The Utility is not requesting any changes to its service availability charges. Even though not requested to do so, the Commission may review and adjust service availability charges.

AFUDC CHARGE

The Utility is requesting an allowance for funds used during construction charge at an annual rate of 8.06%

MISCELLANEOUS SERVICE CHARGES

The Utility is not requesting changes to some of its miscellaneous service charges as set forth at the end of this notice.
