Hello

My name is John Keller and Julie watts we own 9400 Placida road -K-4 .

We are totally allowed to being forced to a new less competent sewer. We were told by legal authorities that we would not be required to hook into a different sewer system. Ours handles everything beautifully and we are very happy with what we have. If y'all change things, we were not given suitable time to fight it, please do the right thing and do not require us to hook up to a different sewer. If you do we will be out of commission our entire property for a very long timethat would be inconceivable and heartless after what we have gone through with three hurricanes.
