Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes, of which I am one, who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

As I drive thru our city, there are far too many tree's that are hanging over power lines, with no activity on FPL's part to trim away. In addition, we have multiple power outages on just Thunderstorms, let alone all the Hurricanes that we now get, along with the week long

outages that come with them. How about they put the profit towards reliability! Now they are trying to get you to sign up for protection plans on services they used to cover at no cost. That shows that the profit margin is the narrative.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Eric Christensen 410 Sandy Ln Deltona FL, 32738-8654 echriste3@hotmail.com
