DOCKET NO. 20250029-GU

PETITION FOR RATE INCREASE  
BY PEOPLES GAS SYSTEM, INC.

REBUTTAL TESTIMONY AND EXHIBIT  
OF  
LUKE BUZARD

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

REBUTTAL TESTIMONY

OF

LUKE BUZARD

1  
2  
3  
4  
5  
6 Q. Please state your name, address, occupation and employer.

7  
8 A. My name is Luke Buzard. My business address is 3600 Midtown  
9 Drive, Tampa, FL 33607. I am employed by Peoples Gas System,  
10 Inc. ("Peoples" or the "company") as the Vice President of  
11 Regulatory and External Affairs, and interim Vice President  
12 of Finance.

13  
14 Q. Are you the same Luke Buzard who filed direct testimony in  
15 this proceeding?

16  
17 A. Yes, I am.

18  
19 Q. What are the purposes of your rebuttal testimony?

20  
21 A. My rebuttal testimony has two parts. The purpose of part one  
22 is to address the intervenor and Staff testimony.  
23 Specifically, I rebut issues raised in the direct testimony  
24 of Office of Public Counsel ("OPC") witness Lane Kollen  
25 related to (1) the company's development of the 2026 test

1 year capital and operations and maintenance ("O&M") budgets,  
2 and (2) Off-System Sales revenues. Additionally, in part one,  
3 I respond to the testimony of Commission Staff witness Angela  
4 Calhoun.

5  
6 The purpose of the second part of my rebuttal testimony is to  
7 provide updates related to (1) Peoples' plans to recover  
8 facilities relocation costs under Rule 25-7.150, Florida  
9 Administrative Code, (2) the company's customer and public  
10 notices regarding this rate case proceeding, and (3) updates  
11 related to Tariff Sheet Nos. 5.201, 5.401, and 5.501.

12  
13 **Q.** Have you prepared an exhibit supporting your rebuttal  
14 testimony?

15  
16 **A.** Yes. Exhibit No. LB-2, entitled "Rebuttal Exhibit of Luke  
17 Buzard", was prepared by me or under my direction and  
18 supervision. The contents of this exhibit were derived from  
19 the business records of the company and are true and correct  
20 to the best of my information and belief. My exhibit consists  
21 of the following two documents:

22  
23 Document No. 1 Composite Notice

24 Document No. 2 Updated Tariff Sheets  
25

1 Q. If you do not address an issue or state a position in your  
2 testimony, does that indicate you agree with the intervenors  
3 on that point?

4  
5 A. No. I have not attempted to respond to every argument made by  
6 the intervenor witnesses. The fact that I may not have  
7 responded to any specific argument or statement does not  
8 indicate my agreement with that argument or statement.

9  
10 **I. OPC WITNESS KOLLEN'S PROPOSED ADJUSTMENTS**

11 DEVELOPMENT OF THE COMPANY'S 2026 TEST YEAR CAPITAL BUDGET

12 Q. Do you agree with Mr. Kollen's suggestion that the company  
13 prepared a "rate case" budget for its 2026 test year?

14  
15 A. No. The company adjusted the timing of our 2026 budget  
16 development as a practical necessity to prepare the financial  
17 data for using a projected test year in this proceeding.  
18 However, Peoples developed the 2026 budget using its normal  
19 budgeting process with the same level of rigor and  
20 accountability. Additionally, the company's Board of  
21 Directors approved the budget before the filing of our  
22 petition in this docket on March 31, 2025.

23  
24 The assumptions in the company's 2026 budget properly reflect  
25 our assessment of the resources required to provide safe and

1 reliable gas distribution services sustainably for our  
2 customers and to meet future demand for natural gas across  
3 Florida. Additionally, the company followed generally the  
4 same process in our last three rate cases, which also used a  
5 projected test year.

6  
7 **Q.** Did the company follow the requirements for a projected test  
8 year base rate case in petitioning the Florida Public Service  
9 Commission ("Commission") for rate relief in this docket?

10  
11 **A.** Yes. On January 30, 2025, in accordance with Rule 25-7.140,  
12 Florida Administrative Code, the company provided its test  
13 year notification to the Commission, advising that Peoples  
14 selected a projected test year ending December 31, 2026.

15  
16 The company's projected test year is based on detailed  
17 projections of load, customer numbers, planned capital  
18 projects, expenses, and other factors relevant to the request  
19 for a base rate increase. Suggesting that the budget is biased  
20 or inadequate overlooks the rigor and detail included in the  
21 company's submission for a base rate increase.

22  
23 **Q.** Do you agree with witness Kollen's argument that any  
24 adjustments to the budget after the rate case outcome  
25 demonstrate the lack of rigor in developing the 2026 test

1 year budget in this rate proceeding?

2

3 **A.** No. The company developed its 2026 projected test year budget  
4 in accordance with its stringent business practices and  
5 normal budgeting process, prioritizing safe and reliable  
6 service while meeting system growth demands.

7

8 **Q.** Should the Commission limit or reduce the company's 2026  
9 capital budget/rate base as proposed by OPC?

10

11 **A.** No. As explained in Peoples' witness Christian Richard's  
12 rebuttal testimony, witness Kollen's proposed capital budget  
13 reduction in the company's 2026 revenue requirement should be  
14 rejected because it is overly simplistic, does not address  
15 the individual projects that make up the 2026 budget, and  
16 does not address the factors influencing the capital budget  
17 increase from 2025 to 2026.

18

19 DEVELOPMENT OF THE COMPANY'S 2026 TEST YEAR O&M BUDGET

20 **Q.** Mr. Kollen contends that the company's requested team member  
21 increase should be reduced to no more than 40 team members  
22 because the additions are predominantly discretionary, not  
23 justified by business requirements, nor by customer growth.  
24 What is your response to this recommendation?

25

1   **A.**   The company demonstrated through testimony and discovery that  
2       the need for additional team members is based on both (1)  
3       business requirements and (2) customer growth. For example,  
4       as explained in the company's answer to Staff's Fifth Set of  
5       Interrogatories, No. 36, the Fleet Sr. Analyst position,  
6       which involves the management of the company's fleet of  
7       vehicles and 14 facilities is related to customer growth while  
8       the SAP Systems Analyst position is not related to growth and  
9       will provide SAP support of the company's Work and Asset  
10      Management ("WAM") solution. Additionally, 46 of the 80  
11      positions in 2025 are replacement positions, as explained in  
12      the direct testimony of Peoples witness Donna Bluestone.  
13      Thus, Mr. Kollen's recommendation of 40 additions for 2025  
14      and 2026 would not even "cover" the company's replacement  
15      positions for 2025.

16  
17      Witness Kollen suggests that the company's team member  
18      additions are not due to growth because the company's  
19      forecasted customer growth in 2025 and 2026 is notably below  
20      the forecasted team member growth from the end of 2024 to the  
21      beginning of the test year. Again, as explained above, the  
22      team member additions are related to both business needs and  
23      customer growth. Further, the contention that customer growth  
24      and team member count are not directly or indirectly  
25      correlated disregards the impact of the type of customer that

1 joins our system. For example, a large customer can affect  
2 the work activities of both customer-facing and non-customer-  
3 facing team members.

4  
5 As a local distribution company and an essential service  
6 provider, we are committed to carrying out the crucial work  
7 activities necessary to meet both state and federal safety  
8 and compliance requirements. This responsibility is not just  
9 a requirement; it's a commitment to the communities we serve,  
10 ensuring that we uphold the highest standards of safety and  
11 reliability in all our operations. Additionally, the natural  
12 gas industry remains very much a manual industry, and many of  
13 these activities are performed via human labor and not through  
14 technology.

15  
16 **Q.** Mr. Kollen claims on page 27 that while the investments in  
17 WAM have generated efficiencies and cost reductions, there  
18 have been no savings in the number of team members. What is  
19 your response to this criticism?

20  
21 **A.** The WAM platform went into service in September 2023, and as  
22 explained in the direct testimony of Peoples' witness Timothy  
23 O'Connor, it provides the company with a centralized  
24 technology platform to track all aspects of our system's asset  
25 life cycle. WAM's infrastructure streamlines the assigning,

1 scheduling, and deployment of team members across our system,  
2 while collecting data on a scale previously not possible. Mr.  
3 Kollen's criticism overlooks that (1) the company is still  
4 acclimating to the WAM system placed in service almost two  
5 years ago, and (2) WAM was not implemented to reduce team  
6 members but rather as a means of centralizing work in one  
7 system. Over time, as the company continues to gain insights  
8 from our use of WAM, we will identify opportunities to  
9 optimize resources. It is possible that such opportunities  
10 could include a reduction in future hiring needs.

11  
12 **Q.** Mr. Kollen suggests that the company is already staffed for  
13 continued growth in customers and related infrastructure,  
14 such that employees devoted to new construction are  
15 sufficient if growth remains relatively constant. Do you  
16 agree with his contention?

17  
18 **A.** No. The company has justified the business need for each team  
19 member in this case and Mr. Kollen has not challenged any  
20 specific proposed team member addition within Engineering,  
21 Construction and Technology.

22  
23 **Q.** On page 28, Mr. Kollen criticizes the company for the low  
24 number of team members insourced in comparison to the total  
25 number of team member additions. Do you agree with this

1           characterization?

2

3   **A.**   No. As explained in the company's answer to OPC's First Set  
4           of Interrogatories, No. 7, the company routinely examines and  
5           balances outside contractor expenses with the need to  
6           maintain a flexible and responsive workforce. There are work  
7           activities for which insourcing is not advantageous from an  
8           operational level. Additionally, certain work activities  
9           require a specialized skill set, which makes insourcing more  
10          challenging for these positions. The insourced positions  
11          included in this case are a direct result of the company's  
12          deliberate decision to decrease the use of outside services  
13          where it makes sense to do so.

14

15   **Q.**   How do you respond to Mr. Kollen's claim on page 28 of his  
16          testimony that the company has pursued relentless growth in  
17          the number of team members in its "rate case" budgets and  
18          then added team members, albeit typically fewer than  
19          reflected in rate case budgets?

20

21   **A.**   As outlined in Peoples' witness Helen Wesley's direct  
22          testimony beginning on page 30, the company adjusted its 2024  
23          hiring plans to address unforeseen expenses and revenue  
24          effects. This included moderating our team member hiring. To  
25          ensure the system operates safely and reliably while

1 maintaining a high standard of customer service and financial  
2 performance, Peoples made certain difficult decisions.  
3 Throughout the company's direct testimony and discovery and  
4 as further discussed in my rebuttal testimony, the company  
5 provides justification for the necessity of each position.  
6 The Commission's authorization of these positions should be  
7 based on the business need of the position, not a penalty for  
8 making sound decisions based on new information.  
9

10 **Q.** Do you agree with Mr. Kollen's argument that the Commission  
11 should disallow costs applied for related to hiring so that  
12 the company can "rein in" its rate case forecast?  
13

14 **A.** No. The Commission should evaluate the business need provided  
15 for each team member addition and consider the prudence of  
16 the cost considering the company's ongoing commitment to  
17 safety, reliability, customer service and the incredible  
18 demand for natural gas. The company's testimony and discovery  
19 have demonstrated that customers recognize the company's  
20 excellent customer service history and that we have an  
21 industry-leading safety record.  
22

23 **Q.** Should the Commission limit or reduce the company's 2026  
24 employee count/operations & maintenance ("O&M") expense as  
25 proposed by OPC?

1 **A.** No. Witness Kollen's proposed employee count/O&M expense  
2 reduction in the company's 2026 revenue requirement should be  
3 rejected. The company provided the business justification for  
4 each of its new and replacement positions requested in this  
5 case in response to OPC's First Set of Interrogatories, No.  
6 12. Witness Kollen's recommendation to reduce the company's  
7 team member additions from 144 to no more than 40 by January  
8 1, 2026, is not supported or based on an examination of  
9 specific work activities or a position-by-position analysis.  
10 Rather, his adjustment is broad based and arbitrary.

11  
12 Through my direct testimony and the direct testimonies of  
13 witnesses Wesley, O'Connor, Richard, and Peoples' witness  
14 Bluestone, the company justified its forecasted staffing  
15 increases for 2025 and 2026. Additionally, the company  
16 demonstrated the need for the increases in its discovery  
17 responses, including but not limited to: OPC's First Set of  
18 Interrogatories, Nos. 7 through 17; OPC's Second Request for  
19 Production of Documents, No. 46; OPC's Second Set of  
20 Interrogatories, No. 110; OPC's Fourth Set of  
21 Interrogatories, No. 129; OPC's Fifth Set of Interrogatories,  
22 No. 138; Staff's Fourth Set of Interrogatories No. 24; and  
23 Staff's Fifth Set of Interrogatories Nos. 36, 37, 38, 39, and  
24 45. Further, as explained in the direct testimony of witness  
25 Bluestone, the team member additions will support both (1)

1 customer growth and (2) the company's commitment to safety  
2 and operational efficiency.

3  
4 The company asserts it has proven the need for its forecasted  
5 new team members based on the growth of its system and  
6 increased work activity, the majority of which is non-  
7 discretionary. Therefore, witness Kollen's proposed staffing  
8 adjustment to randomly remove 104 positions in 2025 and 2026  
9 should be rejected.

10  
11 OFF-SYSTEM SALES REVENUES

12 **Q.** Do you agree with OPC's proposal to increase test year OSS  
13 revenues, considering the Commission's decision in Docket No.  
14 20250026-GU?

15  
16 **A.** Yes. Peoples agrees that the OSS net revenues should be  
17 revised in this proceeding to reflect the Commission's  
18 approval of the revised OSS sharing mechanism in Docket No.  
19 20250026-GU, Petition for approval to modify swing service  
20 charge, individual transportation service rider, and off-  
21 system service rate schedule.

22  
23 **Q.** Do you agree with OPC's proposal to increase 2026 test year  
24 revenues to reflect the four-year average OSS net revenues of  
25 \$4.152 million?

1 **A.** No. Peoples does not support using the four-year average as  
2 a basis, suggested by OPC; however, we do not object to the  
3 Commission's consideration of a moderate adjustment. The  
4 company acknowledges the complexity of the natural gas  
5 commodity and interstate transportation markets. This  
6 complexity poses challenges in predicting future  
7 opportunities for OSS. Thus, while our OSS net revenues  
8 currently exceed forecasts, a benefit to both customers and  
9 Peoples, this trend is not guaranteed. Any OSS forecast  
10 adjustment exceeding actual 2026 results will hinder Peoples'  
11 reasonable opportunity to earn an approved return on equity.  
12 Setting the projected OSS revenues is an important outcome  
13 not only for this case but also helps prevent future base  
14 rate increases.

15

16 **II. RESPONSE TO STAFF WITNESS ANGELA CALHOUN**

17 **Q.** Have you reviewed the testimony of Staff witness Calhoun?

18

19 **A.** Yes. The 132 complaints cited in witness Calhoun's testimony  
20 represent approximately 0.013 percent of our entire customer  
21 base. Over the past several years, our complaint rate has  
22 remained relatively stable at approximately 0.02 percent of  
23 total customers. This stable complaint record combined with  
24 the low level of customer participation at the recent customer  
25 service hearings underscores Peoples' unwavering commitment

1 to delivering exceptional customer satisfaction.

2  
3 **III. NATURAL GAS FACILITIES RELOCATION COSTS**

4 **Q.** What is the Natural Gas Facilities Relocation Cost Recovery  
5 Clause?

6  
7 **A.** In accordance with authority granted in section 366.99(6),  
8 Florida Statutes, the Commission adopted Rule 25-7.150,  
9 Florida Administrative Code, Natural Gas Facilities  
10 Relocation Cost Recovery Clause, on April 4, 2025. This rule  
11 became effective on April 24, 2025.

12  
13 Section 366.99, Florida Statutes, Natural Gas Facilities  
14 Relocation Costs, permits a natural gas utility to recover  
15 "natural gas facility relocation costs" incurred through a  
16 charge separate and apart from base rates.

17  
18 **Q.** Did the company include forecasted relocation costs in its  
19 2025 and 2026 test year forecasts?

20  
21 **A.** Yes. The company included relocation costs in its 2025 and  
22 2026 test year forecasts.

23  
24 **Q.** Is an adjustment to remove natural gas facilities relocation  
25 costs from the projected 2026 test year appropriate?

1 **A.** Yes. The company believes an adjustment in this proceeding is  
2 appropriate to reflect the company's recovery of facility  
3 relocation costs under Rule 25-7.150, Florida Administrative  
4 Code, in a 2026 filing. Exhibit No. AN-2, Document No. 1, of  
5 Peoples' witness Andrew Nichols' rebuttal testimony shows the  
6 calculation of the adjustment necessary to remove natural gas  
7 facilities relocation costs.

8  
9 **IV. COMPOSITE NOTICE EXHIBIT**

10 **Q.** Did the company prepare a "Composite Notice Exhibit"  
11 demonstrating its compliance with the notice requirements set  
12 forth in Rule 25-22.0406, Florida Administrative Code, in  
13 this proceeding?

14  
15 **A.** Yes. The company prepared a "Composite Notice Exhibit," which  
16 is attached as Document No. 1 of my exhibit.

17  
18 **V. TARIFF UPDATES**

19 **Q.** Did the company agree to certain proposed tariff  
20 modifications by OPC instead of the language it originally  
21 submitted?

22  
23 **A.** Yes. Document No. 2 of my exhibit reflects the company's  
24 updates to Tariff Sheet Nos. 5.201, 5.401, and 5.501. These  
25 changes are consistent with the language proposed by OPC.

1 **VI. SUMMARY**

2 **Q.** Please summarize your rebuttal testimony.

3

4 **A.** My rebuttal testimony demonstrates that the submitted  
5 projected test year budget aligns with statutory requirements  
6 and Commission rules. The company carefully prepared its  
7 projected test year budget to ensure that we maintain safe,  
8 reliable service amid significant system growth. I further  
9 acknowledge the extensive support provided through direct  
10 testimony and discovery, which underscores our commitment to  
11 meeting customer needs and maintaining the distribution  
12 system, and to providing a reasonable opportunity for the  
13 company to achieve a mid-point return on rate base  
14 investments. Furthermore, the company responded to extensive  
15 discovery regarding specific capital projects and O&M costs,  
16 which validates our request for rate relief. I rebut any broad  
17 reductions in the filing proposed by witness Kollen without  
18 specific identification of issues of prudence. My rebuttal  
19 testimony clarifies the original filing position on the OSS  
20 revenue utilized to calculate the revenue requirement in this  
21 case. I do not object to witness Kollen's recommendation to  
22 incorporate the Commission's decision in Docket No. 20250026-  
23 GU regarding revenue sharing and to adjust the overall  
24 projection of OSS revenues in the 2026 test year.

1           Additionally, my rebuttal testimony responds to Staff witness  
2           Calhoun's direct testimony regarding customer complaints.

3  
4           Lastly, my rebuttal testimony provides updates regarding (1)  
5           facilities relocation costs under Rule 25-7.150, Florida  
6           Administrative Code, (2) the company's customer and public  
7           notices regarding this proceeding, and (3) tariff language  
8           changes agreed to with OPC.

9  
10       **Q.**   Does this conclude your rebuttal testimony?

11  
12       **A.**   Yes, it does.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples  
Gas System, Inc.

DOCKET NO. 20250029-GU

**AFFIDAVIT OF KAREN BRAMLEY**

1. I, Karen Bramley, Director, Regulatory Affairs for Peoples Gas System, Inc., have personal knowledge of the matters stated in this affidavit.

2. Peoples Gas System, Inc. ("Peoples") filed a petition for general rate increase on March 31, 2025. That same day, Peoples notified the chief executive office ("CEO") of the governing body of each municipality and county within the service area included in the company's rate petition.

3. Peoples delivered this notification by an email message sent to each CEO's email address. These emails were sent with delivery receipt requested.

4. Peoples obtained a confirmation for each recipient indicating that delivery was complete. **Exhibit 1** lists each CEO, their email address, and whether Peoples received confirmation of delivery. **Exhibit 2** is a copy of the petition notification.

5. On May 9, 2025, Peoples posted the rate case synopsis on the company's website.

6. On May 9, 2025, Peoples provided the CEO of the governing body of each municipality and county with a link to the synopsis via email. These emails were also sent with delivery receipt requested. At the beginning of June, Peoples made revisions to pages 15 and 17 of the synopsis to enhance clarity.

7. On June 10, 2025, Peoples provided the CEO of the governing body of each municipality and county with a link to the revised synopsis via email. These emails were also sent with delivery receipt requested.

8. EXHIBIT 2 - Petition Letter

March 31, 2025

Dear City Administrator,

Today, Peoples Gas System, Inc. formally filed a petition with the Florida Public Service Commission (PSC) (Docket No. 20250029-GU) to begin the several months-long process of requesting and receiving approval for an increase to our customer base rates and service charges for new rates effective Jan. 1, 2026, and another smaller adjustment effective Jan. 1, 2027.

Floridians are increasingly choosing natural gas for its cost effectiveness and reliability, particularly as severe weather events become more frequent and the demand for energy rises. Our distribution system provides safe and reliable natural gas service to residential, commercial, industrial customers and electric generators, as well as for the critical systems, businesses and institutions that we all depend on to remain reliable and resilient.

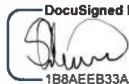

As Florida continues to grow, Peoples Gas is investing in our team, tools, and the maintenance and expansion of our system to better serve customers and communities across the state. We take our responsibility to deliver safe, dependable and affordable energy to our customers seriously, and that includes managing our business carefully while meeting their evolving expectations.

Peoples Gas is dedicated to delivering industry-leading customer service, supporting the communities we serve, and planning for the growing demand for energy in Florida. We acknowledge that there is never a good time to request rate relief and that our requested increase will have an impact on our customers. We do, however, believe that our proposed rates will reflect the value of natural gas to our customers and that the bills for our services will continue to be commensurate with the value our service provides. We're committed to growing and maintaining our system and being here when and where our customers need us most.

This letter is provided to you as required by Rule 25-22.0406 of the Florida Administrative Code, Notice and Public Information on General Rate Increase Requests. A copy of the petition and the MFRs can be accessed through the [PSC website](#). You may also access the petition and the MFRs on our website at [PeoplesGas.com/rates](#). A second communication, providing a synopsis of our request, will follow this letter in approximately 45 days.

Should you have any questions regarding this filing or the contents of the petition, please don't hesitate to contact me.

Sincerely,

DocuSigned by:

---

Good afternoon,

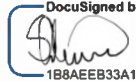

On March 31, 2025, Peoples Gas System Inc. filed a petition (Docket No. 20250029-GU) with the Florida Public Service Commission requesting a future increase in base rates.

The company has prepared a synopsis of the request as required by Rule 25-22.0406 of the Florida Administrative Code. Copies of the filing, including this synopsis, are available at [PeoplesGas.com/Filing](https://www.peoplesgas.com/filing) and at <https://www.psc.state.fl.us/clerks-office-dockets-level2?DocketNo=20250029>.

Should you have any questions, please do not hesitate to contact me.

Thank you and best regards,

Sergio Abreu, Jr.

**FLORIDA PUBLIC SERVICE COMMISSION**

DOCKET NO. 20250029-GU

IN RE: PEOPLES GAS SYSTEM, INC.'S  
PETITION FOR AN INCREASE IN BASE RATES

**SYNOPSIS OF RATE REQUEST**

THIS DOCUMENT IS PROVIDED BY PEOPLES GAS SYSTEM, INC. PURSUANT TO  
THE REQUIREMENTS OF RULE 25-22.0406, FLORIDA ADMINISTRATIVE CODE,  
NOTICE AND PUBLIC INFORMATION ON GENERAL RATE INCREASE REQUESTS

## I. SUMMARY OF RATE CASE

On March 31, 2025, Peoples Gas System, Inc. ("Peoples" or the "company") petitioned the Florida Public Service Commission ("Commission" or "PSC") for an increase in its permanent base rates and charges.

Under Florida law, the Commission regulates rates, miscellaneous service charges, and services provided by Florida investor-owned utilities. The Commission assigned Docket No. 20250029-GU to the case.

Peoples filed its test year letter on January 30, 2025, advising that, based on a review of the company's projected 2025 and 2026 financial performance, it must seek an increase in base rates to continue to meet the natural gas needs of existing and new customers, and continue to provide safe, reliable, and high-quality customer service.

Peoples' last rate case was filed in April 2023, with a final order issued in December 2023. In the two years since Peoples' last rate case, many factors have contributed to the necessity for the company to now seek rate relief, including (1) growth in rate base as the company keeps up with growing customer demand; (2) higher depreciation and property tax expense associated with rate base growth; (3) increasing costs associated with safely operating the company's system and complying with federal safety and security requirements; (4) higher prices in the costs of labor, contractors, materials, insurance, and healthcare benefits; and (5) modifications in Rate Design and Cost-of-Service.

Peoples has requested an increase of \$103,591,089 in base revenues, which includes approximately \$6.7 million of 2026 revenue requirements related to moving approximately \$53.4 million of net Cast Iron/Bare Steel Replacement Rider investments made through December 31, 2025, into rate base. The result is a net revenue increase of \$96,857,794. This proposed increase would be effective with the first billing cycle in January 2026. To mitigate the need for an additional rate relief request to be filed in 2026, the company seeks a subsequent year base rate adjustment of approximately \$26.7 million effective with the first billing cycle for January 2027.

Peoples also proposes closing its RS-1 billing class to new customers and merging its RS-2 and RS-3 billing classes into one billing class.

The petition and direct testimony of Peoples' witnesses provide a more complete description of Peoples' request. The detailed data supporting the request are contained in the Minimum Filing Requirement Schedules ("MFRs"), all of which were submitted to the Commission in the proceeding. An Executive Summary of the case is included in the A Schedules of the MFRs and in Exhibit A to this synopsis. A bill comparison showing the current monthly rates and the proposed monthly rates is contained in Exhibit B.

A copy of Peoples' entire rate request filing with the Commission, including a complete set of MFRs, is available for inspection at [www.peoplesgas.com/rates/our-rate-request](http://www.peoplesgas.com/rates/our-rate-request).

## **II. COMPARISON OF THE PRESENT AND PROPOSED RATES FOR CUSTOMER RATE CLASSES**

Under Peoples' proposal, customer classes will receive bill increases when the proposed new rates are put into effect on and after the first cycle billing periods in January 2026 and January 2027.

Based on the current rates and projections for fuel and the other clauses, Peoples' typical monthly residential bill (RS-2) under its proposed rates for 14 therms will increase to approximately \$60.00 for about a 27 percent increase for 2026 and approximately \$62.00 or about a 3.0 percent increase for 2027.

The current bills are calculated using the purchased gas adjustment cap rate for fuel and the current rates for the other clause charges and base rate charges. The proposed bills are also calculated using the purchased gas adjustment cap rate for fuel and current rates for other clause charges and adjusted for the proposed base rate changes.

Attached to this synopsis as Exhibit B are the current and proposed residential and commercial rates.

### **MAJOR RATE CASE ISSUES**

At the start of a general base rate case, it is not possible to anticipate all the issues that may arise, but potential major revenue requirement issues involved in the case could include:

1. Are the company's test year and sales forecasts reasonable?
2. What should be the value of the company's test year investment in rate base?
3. What should be the company's test year operating revenues?
4. What should be the company's test year operating expenses?
5. What should be the company's test year overall rate of return?
6. What should be the company's test year allowed rate of return on equity?
7. What will be the company's test year revenue deficiency?
8. What is the appropriate cost-of-service methodology to use in designing rates?
9. What will be the appropriate rate levels for each customer class of service?
10. What will be the appropriate charge for each miscellaneous service?
11. Should the Commission approve the proposed subsequent year adjustment of \$26.7 million effective with the first billing cycle for January 2027?

The specific issues in the case will be identified in a prehearing order issued prior to the hearing.

### III. DESCRIPTION OF THE RATE CASE PROCESS

All public utilities, as defined in Section 366.02, Florida Statutes, must petition the Commission to increase their rates to retail customers. After filing the request, the Commission has eight months to conduct the case and twelve months to take final action in the case. The filing to request a base rate increase consists of the petition, direct testimony, and exhibits from the company witnesses and the MFRs, which are an extensive set of documents containing detailed data in support of the rate increase, including figures about a utility's costs, investment, and operations for the specified test year. The information is distributed to the Commissioners, the Public Service Commission staff, the Office of the Public Counsel ("Public Counsel"), and other parties who express interest or intervene in the case.

After a utility files a rate case, the discovery process begins. During the process, the utility responds to requests for information, known as interrogatories, and requests to produce documents from the Commission staff and the parties, including intervenors, in the case. The Commission staff performs a field audit of the company's filed data to ensure compliance with Commission rules and the accuracy of the information provided. Formal depositions (interviews) with company witnesses may also be conducted to gather information and better identify issues.

Intervenors in the case often present their witnesses, testimony, and exhibits in response to the company's filing. They use the company's initial filing materials and discovery responses as a basis for their positions in the case. The parties, their witnesses, testimony, and exhibits are also subject to discovery. The company will then have the opportunity to present rebuttal testimony and exhibits to any intervenors who file testimony.

Toward the end of the discovery process and just before the technical hearing commences, the company, staff, and intervenors prepare issue lists and preliminary positions for the case. These lists of issues are then combined and narrowed in a Prehearing Order to help the Commission focus on the important facets of the case during the hearing.

The first hearings in a rate case – called "service hearings" – generally commence a few months after filing and are scheduled by the Commission. Service hearings allow customers to provide testimony on the utility's rate request and its quality of service. The Commission takes these views into account when ruling on the case. Customers may register to speak at the virtual service hearings in one of the following ways: (1) register using the PSC's online registration form, which will be available at [www.FloridaPSC.com](http://www.FloridaPSC.com), under the "Hot Topics" heading, (2) Call the PSC (850) 413-7080, or (3) email [speakersignup@psc.state.fl.us](mailto:speakersignup@psc.state.fl.us) Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m. and close on July 10, 2025, at noon. One day prior to the virtual service hearing, customers will be emailed further instructions on how to participate. Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. Online registration is not available for in-person service hearings. Please note that the order in which customers speak is based upon the order in which they sign up. If you have questions about the sign-up process, please call (850) 413-7080.

The Commission has scheduled the following service hearings in this case:

<b>Virtual*</b> July 14, 2025 at 1:00 p.m. Betty Easley Conference Center Room 148 4075 Esplanade Way Tallahassee, FL 32399	
<b>In-Person*</b> July 16, 2025 at 10:00 a.m. Anne Kolb Nature Center – Mangrove Hall (Hollywood North Beach Park) 751 Sheridan Street Hollywood, FL 33019	<b>In-Person</b> July 17, 2025 at 2:00 p.m. Valencia Community College West Campus 1800 South Kirkman Road Orlando, FL 32811

\*Spanish Interpreter Available

The service hearing dates and times will be published in newspapers of general circulation in the Company’s service areas and will also be available on the Company’s website at [www.peoplesgas.com/rates](http://www.peoplesgas.com/rates).

The Office of Public Counsel has intervened in this docket and will be present at the service hearings to represent the public. Public Counsel may be contacted prior to the hearing at 111 West Madison Street, Suite 812, Claude Pepper Building, Tallahassee, Florida 32399-1400, or by phone at (800) 342-0222.

The next hearing in a rate case is a technical hearing. At this hearing, the legal “record” is further established for deciding the case through direct, rebuttal, and cross-examination testimony, and the introduction of exhibits and other relevant evidence. The technical hearing in this case will be held on September 8-11, 2025, at the Betty Easley Conference Center, Room 148, located at 4075 Esplanade Way in Tallahassee, Florida.

After the technical hearing, the parties file legal briefs summarizing their positions. The Commission staff reviews the briefs and the record produced at the hearing and provides a written staff recommendation to the Commission that addresses each issue identified in the case.

The Commission holds a Special Agenda Conference and votes on the total amount of costs to be recovered annually through customer rates and service charges (revenue requirements); a Commission vote on the rates will be made on a subsequent date. After the votes, Commission attorneys prepare a final order that reflects the Commission’s votes and provides background for the case, the basis for each of the decisions reached, the newly approved rates, and the effective dates of the new rates. After the Commission order is issued, parties will have an opportunity to ask the Commission to reconsider its decision on the issues.

Miscellaneous Service Charges	Proposed 2026	Proposed 2027
Commercial Meter Turn On	\$121.00 (\$54.00 per additional meter)	\$121.00 (\$54.00 per additional meter)
Commercial Meter Reconnect	\$115.00 (\$43.00 per additional meter)	\$115.00 (\$43.00 per additional meter)
Account Opening	\$31.00	\$31.00
Temporary Turn-off Charge	\$33.00 per meter	\$33.00 per meter
Failed Trip Charge	\$31.00	\$31.00
Trip Charge/Premise Collection	\$25.00	\$25.00

*If approved, the proposed rates and service charges would be effective in January 2027.*

*The rates do not reflect your cost for natural gas. Depending on your usage, you either purchase your gas through a third-party supplier or use the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas.*

*Rate schedules are subject to gross receipts taxes, city and state taxes and franchise fees, where applicable.*

*Base rates are part of the Customer Charge and Distribution Charge line items on customer bills. The Distribution Charge is a grouping of several costs, including the base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs.*

---

Good afternoon,

On March 31, 2025, Peoples Gas System Inc. filed a petition (Docket No. 20250029-GU) with the Florida Public Service Commission requesting a future increase in base rates.

In May, the company provided you with a synopsis of the request as required by Rule 25-22.0406 of the Florida Administrative Code. However, revisions have been made on pages 15 and 17 to enhance clarity, and the company is re-issuing the synopsis. Copies of the filing, including this synopsis, are available at [PeoplesGas.com/Filing](https://www.peoplesgas.com/filing) and at <https://www.psc.state.fl.us/clerks-office-dockets-level2?DocketNo=20250029>.

Should you have any questions, please do not hesitate to contact me.

Thank you and best regards,

Sergio Abreu, Jr.

**FLORIDA PUBLIC SERVICE COMMISSION**

DOCKET NO. 20250029-GU

IN RE: PEOPLES GAS SYSTEM, INC.'S  
PETITION FOR AN INCREASE IN BASE RATES

**SYNOPSIS OF RATE REQUEST**

THIS DOCUMENT IS PROVIDED BY PEOPLES GAS SYSTEM, INC. PURSUANT TO  
THE REQUIREMENTS OF RULE 25-22.0406, FLORIDA ADMINISTRATIVE CODE,  
NOTICE AND PUBLIC INFORMATION ON GENERAL RATE INCREASE REQUESTS

## I. SUMMARY OF RATE CASE

On March 31, 2025, Peoples Gas System, Inc. ("Peoples" or the "company") petitioned the Florida Public Service Commission ("Commission" or "PSC") for an increase in its permanent base rates and charges.

Under Florida law, the Commission regulates rates, miscellaneous service charges, and services provided by Florida investor-owned utilities. The Commission assigned Docket No. 20250029-GU to the case.

Peoples filed its test year letter on January 30, 2025, advising that, based on a review of the company's projected 2025 and 2026 financial performance, it must seek an increase in base rates to continue to meet the natural gas needs of existing and new customers, and continue to provide safe, reliable, and high-quality customer service.

Peoples' last rate case was filed in April 2023, with a final order issued in December 2023. In the two years since Peoples' last rate case, many factors have contributed to the necessity for the company to now seek rate relief, including (1) growth in rate base as the company keeps up with growing customer demand; (2) higher depreciation and property tax expense associated with rate base growth; (3) increasing costs associated with safely operating the company's system and complying with federal safety and security requirements; (4) higher prices in the costs of labor, contractors, materials, insurance, and healthcare benefits; and (5) modifications in Rate Design and Cost-of-Service.

Peoples has requested an increase of \$103,591,089 in base revenues, which includes approximately \$6.7 million of 2026 revenue requirements related to moving approximately \$53.4 million of net Cast Iron/Bare Steel Replacement Rider investments made through December 31, 2025, into rate base. The result is a net revenue increase of \$96,857,794. This proposed increase would be effective with the first billing cycle in January 2026. To mitigate the need for an additional rate relief request to be filed in 2026, the company seeks a subsequent year base rate adjustment of approximately \$26.7 million effective with the first billing cycle for January 2027.

Peoples also proposes closing its RS-1 billing class to new customers and merging its RS-2 and RS-3 billing classes into one billing class.

The petition and direct testimony of Peoples' witnesses provide a more complete description of Peoples' request. The detailed data supporting the request are contained in the Minimum Filing Requirement Schedules ("MFRs"), all of which were submitted to the Commission in the proceeding. An Executive Summary of the case is included in the A Schedules of the MFRs and in Exhibit A to this synopsis. A bill comparison showing the current monthly rates and the proposed monthly rates is contained in Exhibit B.

A copy of Peoples' entire rate request filing with the Commission, including a complete set of MFRs, is available for inspection at [www.peoplesgas.com/rates/our-rate-request](http://www.peoplesgas.com/rates/our-rate-request).

## **II. COMPARISON OF THE PRESENT AND PROPOSED RATES FOR CUSTOMER RATE CLASSES**

Under Peoples' proposal, customer classes will receive bill increases when the proposed new rates are put into effect on and after the first cycle billing periods in January 2026 and January 2027.

Based on the current rates and projections for fuel and the other clauses, Peoples' typical monthly residential bill (RS-2) under its proposed rates for 14 therms will increase to approximately \$60.00 for about a 27 percent increase for 2026 and approximately \$62.00 or about a 3.0 percent increase for 2027.

The current bills are calculated using the purchased gas adjustment cap rate for fuel and the current rates for the other clause charges and base rate charges. The proposed bills are also calculated using the purchased gas adjustment cap rate for fuel and current rates for other clause charges and adjusted for the proposed base rate changes.

Attached to this synopsis as Exhibit B are the current and proposed residential and commercial rates.

### **MAJOR RATE CASE ISSUES**

At the start of a general base rate case, it is not possible to anticipate all the issues that may arise, but potential major revenue requirement issues involved in the case could include:

1. Are the company's test year and sales forecasts reasonable?
2. What should be the value of the company's test year investment in rate base?
3. What should be the company's test year operating revenues?
4. What should be the company's test year operating expenses?
5. What should be the company's test year overall rate of return?
6. What should be the company's test year allowed rate of return on equity?
7. What will be the company's test year revenue deficiency?
8. What is the appropriate cost-of-service methodology to use in designing rates?
9. What will be the appropriate rate levels for each customer class of service?
10. What will be the appropriate charge for each miscellaneous service?
11. Should the Commission approve the proposed subsequent year adjustment of \$26.7 million effective with the first billing cycle for January 2027?

The specific issues in the case will be identified in a prehearing order issued prior to the hearing.

### III. DESCRIPTION OF THE RATE CASE PROCESS

All public utilities, as defined in Section 366.02, Florida Statutes, must petition the Commission to increase their rates to retail customers. After filing the request, the Commission has eight months to conduct the case and twelve months to take final action in the case. The filing to request a base rate increase consists of the petition, direct testimony, and exhibits from the company witnesses and the MFRs, which are an extensive set of documents containing detailed data in support of the rate increase, including figures about a utility's costs, investment, and operations for the specified test year. The information is distributed to the Commissioners, the Public Service Commission staff, the Office of the Public Counsel ("Public Counsel"), and other parties who express interest or intervene in the case.

After a utility files a rate case, the discovery process begins. During the process, the utility responds to requests for information, known as interrogatories, and requests to produce documents from the Commission staff and the parties, including intervenors, in the case. The Commission staff performs a field audit of the company's filed data to ensure compliance with Commission rules and the accuracy of the information provided. Formal depositions (interviews) with company witnesses may also be conducted to gather information and better identify issues.

Intervenors in the case often present their witnesses, testimony, and exhibits in response to the company's filing. They use the company's initial filing materials and discovery responses as a basis for their positions in the case. The parties, their witnesses, testimony, and exhibits are also subject to discovery. The company will then have the opportunity to present rebuttal testimony and exhibits to any intervenors who file testimony.

Toward the end of the discovery process and just before the technical hearing commences, the company, staff, and intervenors prepare issue lists and preliminary positions for the case. These lists of issues are then combined and narrowed in a Prehearing Order to help the Commission focus on the important facets of the case during the hearing.

The first hearings in a rate case – called "service hearings" – generally commence a few months after filing and are scheduled by the Commission. Service hearings allow customers to provide testimony on the utility's rate request and its quality of service. The Commission takes these views into account when ruling on the case. Customers may register to speak at the virtual service hearings in one of the following ways: (1) register using the PSC's online registration form, which will be available at [www.FloridaPSC.com](http://www.FloridaPSC.com), under the "Hot Topics" heading, (2) Call the PSC (850) 413-7080, or (3) email [speakersignup@psc.state.fl.us](mailto:speakersignup@psc.state.fl.us) Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m. and close on July 10, 2025, at noon. One day prior to the virtual service hearing, customers will be emailed further instructions on how to participate. Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. Online registration is not available for in-person service hearings. Please note that the order in which customers speak is based upon the order in which they sign up. If you have questions about the sign-up process, please call (850) 413-7080.

The Commission has scheduled the following service hearings in this case:

<b>Virtual*</b> July 14, 2025 at 1:00 p.m. Betty Easley Conference Center Room 148 4075 Esplanade Way Tallahassee, FL 32399	
<b>In-Person*</b> July 16, 2025 at 10:00 a.m. Anne Kolb Nature Center – Mangrove Hall (Hollywood North Beach Park) 751 Sheridan Street Hollywood, FL 33019	<b>In-Person</b> July 17, 2025 at 2:00 p.m. Valencia Community College West Campus 1800 South Kirkman Road Orlando, FL 32811

\*Spanish Interpreter Available

The service hearing dates and times will be published in newspapers of general circulation in the Company’s service areas and will also be available on the Company’s website at [www.peoplesgas.com/rates](http://www.peoplesgas.com/rates).

The Office of Public Counsel has intervened in this docket and will be present at the service hearings to represent the public. Public Counsel may be contacted prior to the hearing at 111 West Madison Street, Suite 812, Claude Pepper Building, Tallahassee, Florida 32399-1400, or by phone at (800) 342-0222.

The next hearing in a rate case is a technical hearing. At this hearing, the legal “record” is further established for deciding the case through direct, rebuttal, and cross-examination testimony, and the introduction of exhibits and other relevant evidence. The technical hearing in this case will be held on September 8-11, 2025, at the Betty Easley Conference Center, Room 148, located at 4075 Esplanade Way in Tallahassee, Florida.

After the technical hearing, the parties file legal briefs summarizing their positions. The Commission staff reviews the briefs and the record produced at the hearing and provides a written staff recommendation to the Commission that addresses each issue identified in the case.

The Commission holds a Special Agenda Conference and votes on the total amount of costs to be recovered annually through customer rates and service charges (revenue requirements); a Commission vote on the rates will be made on a subsequent date. After the votes, Commission attorneys prepare a final order that reflects the Commission’s votes and provides background for the case, the basis for each of the decisions reached, the newly approved rates, and the effective dates of the new rates. After the Commission order is issued, parties will have an opportunity to ask the Commission to reconsider its decision on the issues.

### **COMPARISON OF PROPOSED MONTHLY RATES**

### Residential Rates and Charges Comparison

Rate Class	Current Annual Therm Usage	Current Monthly Rates		Proposed Annual Therm Usage	Proposed Monthly Rates	
		Customer Charge	Base Rate		Customer Charge	Base Rate
RS-1	0 - 99	\$19.10	\$0.35165	0-99*	\$26.50	\$0.46319
RS-2	100 - 249	\$24.41	\$0.35165	0-1,999*	\$35.50	\$0.46319
RS-3	250 - 1,999	\$31.54	\$0.35165	0-1,999*	\$35.50	\$0.46319
RS-GHP	N/A	\$31.54	\$0.12395	N/A	\$56.00	\$0.12617
RSG (Residential Standby Generator)	N/A	\$31.54	\$0.28237	N/A	\$41.00	\$0.58931

\*The company is proposing to close RS-1 rate class to new customers, and combine RS-2 and RS-3 into one rate class to usage up to 1,999 therms.

Miscellaneous Service Charges	Current	Proposed
Residential Meter Turn On	\$78.00 (\$34.00 per additional meter)	\$94.00 (\$36.00 per additional meter)
Residential Meter Reconnect	\$104.00 (\$33.00 per additional meter)	\$100.00 (\$33.00 per additional meter)
Account Opening	\$33.00	\$31.00
Temporary Turn-off Charge	\$33.00 per meter	\$33.00 per meter
Failed Trip Charge	\$25.00	\$31.00
Trip Charge/Premise Collection	\$29.00	\$25.00

If approved, the proposed rates and service charges would be effective in January 2026.

The rates do not reflect the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas.

Rate schedules are subject to gross receipts taxes, city and state taxes and franchise fees, where applicable.

Base rates are part of the Customer Charge and Distribution Charge line items on customer bills. The Distribution Charge is a grouping of several costs, including the base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs.

Gas System, Inc.

DOCKET NO. 20250029-GU

**AFFIDAVIT OF REBECCA WASHINGTON**

1. I, Rebecca Washington, Director, Customer Experience Revenue Operations for Tampa Electric Company have personal knowledge of the matters stated in this affidavit.
2. In my role as Director, Customer Experience Revenue Operations, I work on behalf of Tampa Electric Company and Peoples Gas System, Inc. ("Peoples") in a shared service capacity.
3. Peoples provided customer notices, approved by Commission Staff on May 5, 2025. The customer notice contains the following:
  - A statement that Peoples has applied for a rate increase and the general reasons for the request;
  - The locations at which copies of the MFRs and synopsis are available, including a link to the company's website;
  - The time schedule established for the case, including the dates, times, and locations of the service hearings and technical hearings;
  - A comparison of current rates and service charges and the proposed new rates and service charges;
  - A statement that written comments can be sent to the Office of Commission Clerk; and
  - A statement that comments regarding service may be made to the Commission's Office of Consumer Assistance and Outreach.
4. The notice also provided for the date, time, and location of the virtual service hearings and the purpose of those hearings.
5. The notice included a statement that any customer comments regarding Peoples' service or proposed rate increase should be addressed to the Office of Commission Clerk, Florida Public Service Commission, 2540 Shumard Oak Boulevard, Tallahassee, FL 32399-0850, and that such comments identifying 20250029-GU as the docket number assigned to this proceeding.
6. At the beginning of June, Peoples revised the notice to enhance clarity of the rate request. Commission Staff approved the revised customer notice on June 6, 2025. At the time of the revision, Peoples had already begun sending out customer notices to customers on cycles 1 – 5. Accordingly, customers on cycles 1 - 5 received a second customer notification that contained the revised customer notice and the rest of the billing cycles received the revised customer notification.
7. The notice was delivered to customers on June billing cycles 1 - 23 beginning on June 3 and ending on July 1 by the customer's preference for paper or paperless bills.

All notices were sent on or before July 4, 2025. Peoples' customers accordingly received these notices no less than 10 days and no more than 45 days before the first service hearing on July 14, 2025.

- 8. A copy of Peoples' original bill onsert notices is included as **Exhibit 1**.
- 9. A copy of Peoples' revised bill onsert notices is included as **Exhibit 2**.
- 10. A copy of the revised notices that paperless customers received that directed them to the electronic versions of the revised bill onserts is included as **Exhibit 3**.
- 11. The newspaper notice published on July 2, 2025, and the accompanying affidavits from the newspapers across Peoples' service area are included as **Exhibit 4**.
- 12. Under penalty of perjury, I declare that I have read the foregoing affidavit and that the facts stated in it are true to the best of information and belief.

## Notice of Rate Request and Customer Service Hearings

On March 31, 2025, Peoples Gas System filed a petition (Docket 20250029-GU) with the Florida Public Service Commission (PSC) requesting a future increase in base rates. The increase will vary by customer rate class and, if approved as filed, would likely take effect in January 2026.

Floridians depend on natural gas. As Florida grows, Peoples Gas must continue to make investments in our team, our tools, and the maintenance and expansion of our system to serve customers and communities across the state, particularly as energy resilience becomes increasingly important.

The decision to raise rates is not an easy one for us. There is never a good time for it, and we know increased prices are affecting everyone.

### Hearings

The PSC has scheduled the following virtual and in-person public hearings to provide customers an opportunity to express their views on quality of service and the impact of the requested rate increase:

#### Virtual Hearing:

Monday, July 14, 2025 at 1 p.m.

#### In-Person Hearings:

Wednesday, July 16, 2025 at 10 a.m.  
Anne Kolb Nature Center - Mangrove Hall  
Hollywood North Beach Park  
751 Sheridan Street  
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.  
Valencia Community College  
Health Science Building - Room 105  
1800 South Kirkman Road  
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearings in one of the following ways:

- (1) Use the PSC's online registration form, which will be available at [www.FloridaPSC.com](http://www.FloridaPSC.com), under the "Hot Topics" heading.
- (2) Call the PSC at (850) 413-7080 or
- (3) Email [speakersignup@psc.state.fl.us](mailto:speakersignup@psc.state.fl.us).

Office of the Commission Clerk  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Since January 2023, the last time we requested to raise base rates, we have: expanded our network by adding approximately 1,260 miles of main and service lines to serve demand; connected thousands of customers to ways to save energy and money through our free energy audits and conservation programs; invested in the safety of the public and our system; and continued to be among the leading utilities in the nation for customer satisfaction and brand trust.

We take the responsibility to deliver safe, dependable and affordable energy to our customers seriously, and that includes managing our business carefully while meeting their evolving expectations.

Online registration for the virtual service hearings will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025.

One day prior to the virtual service hearings, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call (850) 413-7080.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch customer service hearings live, visit [www.FloridaPSC.com](http://www.FloridaPSC.com) and click on the "Watch Live" link. If you do not have access to the internet, you may call (850) 413-7880 to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at (800) 866-8771 (TDD).

**Purpose and Procedure**

The purpose of these customer service hearings shall be to permit members of the public, who are not parties to the proceeding, to give testimony regarding Peoples Gas System's quality of service and its requested increase in its base rates and miscellaneous service charges. The company will present a brief summary of its case and then members of the public may present testimony by telephone.

**Public Counsel**

The Public Counsel has intervened in this docket to represent the customers of Peoples Gas System and will be present at the hearings. The Public Counsel representative may be contacted prior to the hearings at [www.FloridaOPC.gov](http://www.FloridaOPC.gov) or by phone at 1-888-343-0223.

An overview of the rate request and copies of the complete filing are available online at [www.FloridaPSC.com](http://www.FloridaPSC.com) and [www.PeoplesGas.com/rates](http://www.PeoplesGas.com/rates).

Written comments regarding Peoples Gas System's request to increase base rates and service charges may be sent to the Commission at the following address:

**Comisión de Servicios Públicos de Florida  
Aviso de Audiencias de Servicio a Clientes  
Caso N.º 20250029-GU**

Por la presente se NOTIFICA que Peoples Gas System, Inc. ha presentado una petición ante la Comisión de Servicios Públicos de Florida para aumentar sus tarifas y cargos. La Comisión de Servicios Públicos de Florida realizará audiencias públicas virtuales y presenciales en este expediente. Las audiencias de atención al cliente comenzarán en las fechas, horas y lugares que se muestran a continuación y continuarán hasta que se haya escuchado a todos los testigos.

Audiencia virtual: Lunes 14 de julio de 2025 a las 1 p.m.

**Audiencias presenciales:**

Miércoles 16 de julio de 2025 a las 10 a.m.  
Anne Kolb Nature Center - Mangrove Hall  
Hollywood North Beach Park  
751 Sheridan Street  
Hollywood, FL 33019

Jueves 17 de julio de 2025 a las 2 p.m.  
Valencia Community College  
Health Science Building - Room 105  
1800 South Kirkman Road  
Orlando, FL 32811

Habrán un intérprete de español disponible durante la audiencia virtual del 14 de julio y la audiencia en persona del 16 de julio.

Los clientes pueden registrarse para hablar en la audiencia virtual del servicio de una de las siguientes maneras:

- (1) Utilizar el formulario de inscripción en línea de la PSC, que estará disponible en [www.FloridaPSC.com](http://www.FloridaPSC.com), bajo el epígrafe "Hot Topics."
- (2) Llame al PSC al (850) 413-7080 o
- (3) Envíe un correo electrónico a [speakersignup@psc.state.fl.us](mailto:speakersignup@psc.state.fl.us).

La inscripción en línea para la audiencia de servicio virtual se abrirá el 30 de junio de 2025, a las 9:00 a.m., y se cerrará al mediodía del 10 de julio de 2025. Un día antes de la audiencia de servicio virtual, los clientes que se inscribieron para hablar recibirán instrucciones adicionales del personal de la PSC sobre cómo participar.

Los clientes que deseen intervenir en las audiencias de servicio presenciales podrán inscribirse a su llegada al lugar de la audiencia. No habrá inscripciones en línea para las audiencias de servicio presenciales.

Se invita a todas las personas que deseen hacer comentarios, ya sea virtualmente o en persona, a que se presenten puntualmente a las horas programadas, ya que las audiencias de servicio pueden aplazarse anticipadamente si no hay clientes presentes para testificar o cuando los presentes hayan testificado. Tenga en cuenta que el orden en que intervendrán los clientes se basa en el orden en que se inscriban. Si tiene preguntas sobre el proceso de inscripción, llame al (850) 413-7080.

Del 8 al 11 de septiembre de 2025, la PSC llevará a cabo una audiencia técnica para permitir que Peoples Gas y otras partes involucradas en el procedimiento presenten testimonios y pruebas pertinentes en relación con la solicitud de tarifas.

Para ver las audiencias de servicio al cliente en directo, visite [www.FloridaPSC.com](http://www.FloridaPSC.com) y haga clic en el enlace "Watch Live" (Ver en vivo). Quienes no tengan acceso a Internet, pueden llamar al (850) 413-7999 para escuchar las audiencias. Las personas con problemas de audición o del habla pueden comunicarse con la Comisión utilizando el Servicio de transmisión de Florida llamando al 1-800-966-8771 (TDD).

**Propósito y procedimiento**

El propósito de estas audiencias de servicio al cliente será permitir que miembros del público, que no sean partes del procedimiento, den testimonio sobre la calidad de servicio de Peoples Gas System y el aumento solicitado en sus tarifas base y cargos por servicios misceláneos. La compañía presentará un breve resumen de su caso y luego los miembros del público podrán presentar su testimonio por teléfono.

**Asesor Público**

El Asesor Público ha participado en este caso para representar a los clientes de Peoples Gas System y estará presente en las audiencias. El representante del Asesor Público puede ser contactado antes de las audiencias en [www.FloridaPSC.gov](http://www.FloridaPSC.gov) o por teléfono al 1-800-342-0222.

Una descripción general de la solicitud de tarifas y copias de la presentación completa están disponibles en línea en [www.FloridaPSC.com](http://www.FloridaPSC.com) y [www.PeoplesGas.com/rates](http://www.PeoplesGas.com/rates).

Los comentarios por escrito sobre la solicitud de Peoples Gas System de aumentar las tarifas base y los cargos por servicios pueden enviarse a la Comisión a la siguiente dirección:

MIAMI HERALD

A supporter of President Donald Trump waves a flag as other people protest on Tamiami Trail on Tuesday against the establishment of Alligator Alcatraz at the site of the Dade Collier Training and Transition Airport in Ochopee.

## Merch, jokes and memes: Trump officials and supporters love the name Alligator Alcatraz

BY CRETHEL AGUILA  
agUILA@miamiherald.com

Alligator Alcatraz, the migrant detention facility that opened Tuesday in the Florida Everglades, has become a rich source of jokes, memes and even merch and has put out by officials aligned with the Trump administration — and the president's supporters.

President Donald Trump, visiting the facility

with Gov. Ron DeSantis on Tuesday morning, quipped about the wildlife surrounding the buildings. "A lot of bodyguards, a lot of cops in the form of alligators," he told reporters. "You don't have to pay them so much."

When asked about possible escapes being eaten by alligators or snakes, Trump said: "I guess that's the concept. This is not a nice business. I guess that's the concept. ... We're gonna teach them

how to run away from an alligator if they escape prison."

Alligator Alcatraz, as the state officially calls the facility, lies in the Everglades about 40 miles west of Miami International Airport and halfway to Naples. Over the past week, the DeSantis administration built the detention camp at the site, which is expected to house undocumented immigrants arrested both within and outside Florida. During the visit, Garrett

payer-funded facility is just east of Big Cypress National Preserve, which is federally protected land, and it's surrounded on three sides by Miccosukee and Seminole tribal infrastructure, including homes and ceremonial sites. The site, which officials describe as temporary, will consist primarily of large tents and trailers and is expected to house undocumented immigrants arrested both within and outside Florida. During the visit, Garrett

Sapa, the Immigration and Customs Enforcement field office director in Miami, said agents are working to "get those bad hombres off the street and get them into this facility."

In recent days, Florida Attorney General James Uthman made several posts on X about Alligator Alcatraz, which he called "a one-stop shop for immigration enforcement" because migrants can "Come in, get your process, and fly out."

In one post, Uthman shared a photo of his son drawing in front of a laptop displaying a cartoon of an alligator-shaped airplane. "New Alligator Alcatraz slogan: see ya later," he wrote on social media.

Before Trump's tour, Uthman also launched a march, including hats with the facility's moniker and shirts that say "Nowhere to run. Nowhere to hide."

"HELL ON EARTH"

Benny Johnson, a conservative influencer who attended Trump's visit to the facility, shared a video in which he's wearing a black Alligator Alcatraz hat, which appears to be available on Uthman's website. He said he was "handed official ... merch."

In another video posted to X, Johnson walked around filming the "Jurassic Park style entrance" to the facility. He described his lengthy drive to the detention center — and the dozens of alligators he saw in the area.

"You go in, and you don't come out," Johnson said in the video. "And if

you do, the alligators get you."

In his post, Johnson wrote: "Mosquitos swarming me by the thousands. Millions of gators. Hell on earth."

Far-right influencer Laura Loomer also shared her thoughts on Alligator Alcatraz in a post on X a few days ago.

"Feeding alligators to the gators," she said. "We need more of this energy."

### OPPOSITIONS BLAST CONTROVERSIAL FACILITY

In a statement Tuesday, Rachele Jackson, executive director of the ACLU of Florida, said the facility's branding "reflects an intent to portray people fleeing hardship and trying to build a better life for themselves and their families as threats, which is both unnecessary and abusive."

Converting a remote island in the Everglades into a prison-like complex for members of our communities is not just cruel and absurd — it underscores how our immigration system is increasingly being used to punish people rather than provide them with due process," Jackson said in the statement. "There is no justification for locking people away in isolated, dangerous environments — let alone in a camp modeled after one of the most notorious prisons in American history."

## Law

from Page 3

Legislators' decade-long effort to carve out exemptions to Florida's public records law, the bill said.

"The Sunshine State is being increasingly the shady state," he added.

Sen. Rep. Steve Amodeo, D-Orlando, said an ethics complaint last year from his opponent in the Democratic Party primary who accused him of not living in his district, despite legal requirements to do so by Election Day.

Addressing on multiple official documents, including voter registration forms, property tax records, and campaign filings, suggested he did not live in his district, which covers part of Orlando and west Orange County, according to a 2024 report by Fresh Take Media, a news service of the University of Florida Journalism program.

The bill — which Amodeo supported — would make some of the information used in that investigation available.

When asked if that story motivated this vote, Amodeo said he didn't have "any particular reason" for supporting the bill.

The law will allow some one to see an official's city and ZIP code but not their street address, which Amodeo said was enough to confirm if a lawmaker lives in their district and was intended to be available for transparency. However, the information may not be enough to confirm realtors of lawmakers' districts.

State Rep. Anna Baker, D-Orlando, was one of just two members in the House to vote against the bill. She said the sym-

ptoms with other lawmakers' concerns — she has fiscal conservatism at heart — but does not want them addressed by limiting public access to information. "At the end of the day, there's a lot of individuals that are at risk, that are harassed just like we are, and they don't have that same kind of protection," she said.

The law applies to members of Congress and the Florida Legislature, the governor, lieutenant governor and Cabinet members, county property appraisers and supervisors of elections, school superintendents, school board members and city and county commissioners.

Any official who wants to have their information exempt under the law has to request it before being put to each individual agency that maintains the records. Their eligibility for the exemption would end when they leave office.

## Bear

from Page 3

Should black bears become more active during spring and summer and an urban bear is seen near a park, said Lisa Thompson, assistant to the state wildlife agency's Division of Habitat and Species Conservation.

She said bears "are the most active time of year in each of the states."

Two summers ago, a young bear was spotted in a wildlife agency trap near the World of Beer restaurant at Lake Eola Park and relocated to the Ocala National Forest. A few months earlier, a bear seen in a trail near College Park was allowed to come down on its own, but ended up being killed by a vehicle.

Thompson said mother bears may tag and their cubs while teaching cubs where to look for food while alone, juvenile bears — those between the ages of 18 and 30 months — will leave their mother's home range and establish a new range.

Male bears also tend to be more active as they search for mates during the

summer breeding season.

The Orlando bear — or bears — has certainly moved around.

In the past week, the state wildlife agency failed to find about a bear running on Elizabeth Avenue, a bear on Harrison Avenue, just east of Ellizbeth Avenue, also in a tree on West Colonial Drive, and a bear running past the soccer stadium.

Officials have not determined whether it was one bear or multiple bears.

Nancy Biss was returning home from the hair salon last week when she saw what at first she thought was a large black dog running down Elizabeth Street near Tricent.

Thompson said a closer look proved it was a bear. "It had a black fur and orange. How animals and how anything nature?" she said.

"I wasn't scared, only scared for the city of Orlando," she said.

Biss said Biss, a 30-year-old, was walking in the school parking lot, and she saw the bear running toward her.

"I didn't want to touch

the bear or say anything, because then it would have attacked me," Biss said.

The bear just galloped by, she said.

Biss saw a television news report Tuesday with a photo of a bear on I-4, and she said it looks like the same young frightened bear she saw.

Sending a bear in a neighborhood is not an easy task for law enforcement, but it is a

signal something is wrong in the area.

Bears typically try to avoid people, but may wander in neighborhoods if they can easily access food sources, Thompson said.

She said canned red beans and rice, frozen pizzas by securing garbage, pet food, bird seed and other "easy meals."

A bear has come more active, they also come more frequently.

Each year in Florida, about 300 bears are killed in collisions with motor vehicles.

Call the state Wildlife Hotline at 888-364-3922 if you spot an injured, orphaned or black bear threatened by one, or see another animal in a potentially dangerous situation.

Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.  
Valencia Community College  
Health Science Building - Room 105  
1800 South Kirkman Road  
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearing in one of the following ways:

- (1) Use the PSC's online registration form, which will be available at [www.FloridaPSC.com](http://www.FloridaPSC.com), under the "Hot Topics" heading,
- (2) Call the PSC at (850) 413-7080 or
- (3) Email [speakersignup@psc.state.fl.us](mailto:speakersignup@psc.state.fl.us).

Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025. One day prior to the virtual service hearing, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call (850) 413-7080.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch customer service hearings live, visit [www.FloridaPSC.com](http://www.FloridaPSC.com) and click on the "Watch Live" link. If you do not have access to the internet, you may call (850) 413-7999 to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at (800) 955-8771 (TDD).

**Purpose and Procedure**

The purpose of these customer service hearings shall be to permit members of the public, who are not parties to the proceeding, to give testimony regarding Peoples Gas System's quality of service and its requested increase in its base rates and miscellaneous service charges. The company will present a brief summary of its case and then members of the public may present testimony by telephone.

**Public Counsel**

The Public Counsel has intervened in this docket to represent the customers of Peoples Gas System and will be present at the hearings. The Public Counsel representative may be contacted prior to the hearings at [www.FloridaOPC.gov](http://www.FloridaOPC.gov) or by phone at 1-800-342-0222.

An overview of the rate request and copies of the complete filing are available online at [www.FloridaPSC.com](http://www.FloridaPSC.com) and [www.PeoplesGas.com/rates](http://www.PeoplesGas.com/rates).

Written comments regarding Peoples Gas System's request to increase base rates and service charges may be sent to the Commission at the following address:

### Precio por plan del Obamacare podría aumentar el próximo año

POR DANIEL CHANG  
JFF Health News

Josefina Murales trabaja a tiempo parcial de noche como recepcionista en un condominio de Miami Beach. Así, puede cuidar durante el día de sus tres hijos, su madre mayor y su hermano, que está paralizado.

También ayuda a su madre a alimentarse, bañarse y dar la medicación a Rodrigo Murales, el hermano que padece epilepsia y quedó discapacitado luego de desarrollar covid-19 en 2020.

"Vive porque le damos de comer y atendemos sus necesidades personales", explica Josefina Murales, de 41 años. "No decir 'Necito esto o aquello'. Lo ha olvidado todo".

Aunque su mundo trabaja a tiempo completo, este ingreso hace que los ingresos familiares estén justo por encima del umbral federal de pobreza: son demasiado altos para aplicar al Medicaid de Florida, pero lo suficientemente bajos como para que Murales y su marido puedan optar por un seguro médico subvencionado a través del mercado de seguros establecido por la Ley de Cambio de Salud a Bajo Precio (ACA, conocida como Obamacare).

Murales dijo que el año que viene es posible que ella y su marido no puedan permitirse ese seguro médico, que ha pagado por los anticongestivos que le han recetado; la medicación para el colesterol y dos operaciones, incluida una para tratar un trastorno genético.

A esto se suma que los subidos adicionales establecidos durante la pandemia, que redujeron las primas que pagaban Murales y su marido a menos de la mitad, se decar a \$30 al mes, solo estarán vigentes hasta el 31 de diciembre.

Su estos subidos, las primas de los planes reducidos de ACA subieron en promedio más del 75%, y en algunos estados las facturas que pagan las personas se duplican con creces, según estimaciones de KFF.

Florida y Texas se venían especialmente afectados, ya que tienen más gente inscrita en este mercado que otros estados. Solo algunos de sus distritos electorales, especialmente en el sur de Florida, tienen más personas inscritas en el colectivo que otros estados enteros.

Al igual que muchos de los más de 24 millones de estadounidenses registrados en el mercado de seguros este año, Murales no sabía que los subidos mejorados estaban a punto de expirar. Dijo que no puede permitirse un aumento de la prima porque la inflación ya ha elevado el presupuesto de su hogar.

"El alquiler está subiendo y la cuenta del agua también", señaló.

Si se terminan los subidos amplios, los inscriptos con bajos ingresos, como el matrimonio Murales, serán los que reciban los mayores aumentos porcentuales en las primas.

En la práctica, los usuarios de seguros médicos que ganan más de cuatro veces el umbral federal de pobreza ya no serán elegibles para recibir ningún subido. Dijo añadió que en 2025, ganará unos \$62,600 por individuo —son, en su gran mayoría, adultos mayores, trabajadores autónomos y residentes en zonas rurales.

Juho Fuentes, presidente de la Florida Healthcare Accession Chamber of Commerce dijo que muchos de los miembros de su organización son propietarios de pequeña empresa que dependen del Obamacare para ofrecer cobertura de salud.

"Es esto o nada", afirmó. La Oficina de Presupuesto del Congreso (CBO) calculó que si se deja de aplicar los subidos mejorados aumentará en 4,2 millones el número de personas sin seguro médico.

Si se suman los cambios en Medicaid que propone el proyecto de reconciliación presupuestaria de la Cámara de Representantes y las nuevas propuestas por la administración Trump para el mercado de seguros, que incluyen una verificación de ingresos más estricta y la reducción de los períodos de inscripción, el número total de personas sin cobertura crecerá en 16 millones durante este período.

Un estudio del Urban Institute reveló que, sin los subidos adicionales, los hispanos y los afroamericanos sufrirán mayores pérdidas de cobertura que otros grupos.

Fuentes señaló que alrededor de 5 millones de hispanos están inscritos en el mercado de ACA y que Donald Trump ganó el voto hispano en Florida en 2024. Dijo que el presidente y los republicanos del Congreso van a ampliar la cobertura de los hispanos mejorados como una forma de conservar a esos votantes.

"Probablemente esta sea una buena forma de aumentar aún más esa base", afirmó. "O un buen negocio".

La inscripción en el mercado de seguros ha crecido rápidamente desde 2020 en los estados donde Trump ganó en 2024. Una encuesta reciente de KFF reveló que el 45% de los estadounidenses que compran un propio seguro médico se identifican como republicanos o se inclinan por este partido.

Los subidos de cada 10 que se identifican como partidarios de Make America Great Again (MAGA). Un porcentaje menor se identifica como demócrata o independiente con tendencia democrática (35%) o no se inclina por ninguno de los dos partidos (20%).

Raul Desai, vocero de la Casa Blanca, afirmó que las normas propuestas por la administración Trump, junto con las disposiciones del proyecto de ley presupuestaria aprobado por la Cámara de Representantes, "fortalecerán el mercado de ACA".

El funcionario señaló que la CBO prevé que la legislación reduce las primas de algunos planes en un promedio del 22% para 2024, pero que los gastos de bolsillo aumentarán o se mantendrán iguales para la mayoría de los consumidores que reciben subidos.

"Los demócratas saben que los estadounidenses apoyan ampliamente el fin del despilfarro, el fraude y el abuso, tal y como lo hace 'The One, Big, Beautiful Bill', y por eso están tratando desesperadamente de cambiar el discurso", afirmó Desai.

Si embargo, Lauren Aronson, directora ejecutiva de Facto Ancestral, Coverted, un grupo con sede en Washington, D.C. que representa a aseguradoras de salud, hospitales, médicos y defensores de los pacientes, afirmó que es fundamental generar conciencia sobre el posible impacto de la pérdida de los subidos mejorados, también conocidos como créditos fiscales anticipados por el pago de la prima.

JOSEFINA MURALES de North Miami, Florida, tiene su cobertura médica a través del mercado de seguros establecido por la Ley de Cambio de Salud a Bajo Precio (ACA).

presentado un proyecto de ley para extender la vigencia de los subidos mejorados, y que algunos senadores republicanos hayan expresado su apoyo.

Lo que más preocupa a Aronson es que el Congreso, controlado por los republicanos, este más centrado en prorrogar los créditos fiscales que en mejorar los subidos, afirmó. Según la CBO, el proyecto de ley actual que prorroga los créditos fiscales de 2017 aumentará el déficit federal en unos \$2,4 mil millones durante la próxima década, mientras que hacer que los subidos mejorados sean permanentes aumentará el déficit en \$38.000 millones durante aproximadamente el mismo período.

"El Congreso está avanzando en un paquete de reconciliación fiscal que pretende beneficiar a las familias trabajadoras", explicó Aronson. "Pero si los legisladores no se ocupan de los créditos fiscales, las familias trabajadoras terminarán cargando con el problema".

Raul Desai, presidente del Paragon Health Institute, un centro de estudios conservador en políticas de salud, dijo que se supone que los subidos mejorados eran una medida temporal establecida durante la pandemia de covid-19 para ayudar a las personas que corrieran el riesgo de perder la cobertura.

Pero en realidad, afirmó, los subidos mejorados facilitaron el fraude por lo que los subidos no se deberían utilizar para verificar su elegibilidad por ingresos para recibir pagos por servicios médicos.

Alcanzaba con declarar ingresos iguales o cercanos al nivel federal de pobreza.

Los subidos mejorados también empujaron la inflación en el sector de salud, desalentando a las empleadoras a ofrecer cobertura médica y desplazando a modelos alternativos, como los seguros a corto plazo y los planes de la Team Health, dijo Desai.

"Pensé que se acabarían estos subidos, pero simplemente volver al Obamacare tal y como estaba rediseñado", dijo Desai. "Es un programa más eficiente que el que tenemos ahora".

Las nuevas normas para el mercado propuestas por la administración Trump para combatir el fraude, dijo Anna Howard, experta en políticas de la American Cancer Society Cancer Action Network, que aboga por una mayor cobertura de seguro médico.

Howard señaló que la ampliación de los créditos fiscales mejorados ayudará a garantizar que las personas que tienen derecho legítimo a la cobertura puedan obtenerla.

"No queremos que más de 5 millones de personas se vean privadas de su cobertura de salud por la ley de Facto Ancestral Coverted, un grupo con sede en Washington, D.C. que representa a aseguradoras de salud, hospitales, médicos y defensores de los pacientes, afirmó que es fundamental generar conciencia sobre el posible impacto de la pérdida de los subidos mejorados, también conocidos como créditos fiscales anticipados por el pago de la prima.

Aronson se mostró entusiasmada por el hecho de que los demócratas hayan

### Senado aprueba plan fiscal de Trump y lo devuelve a la Cámara Baja para voto final

POR BORIS LEGRAND  
Agence France Press  
WASHINGTON

El presidente estadounidense Donald Trump logró una importante victoria este martes con la aprobación por estrecho margen en el Senado de su colosal proyecto de ley de presupuestos, que incluye fondos para su política migratoria, exenciones fiscales y recortes a la cobertura médica.

Después de dos días de sesiones maratónicas, el resultado fue muy ruidoso. A pesar de una mayoría republicana de 53 de 100 escaños, la votación terminó en un empate 50-50 y fue el vicepresidente JD Vance quien tuvo que emitir el voto final a favor, como lo exige la Constitución.

Una muestra más de la fuerte oposición que despertó, incluso dentro de su propio partido.

La ley "Inmensa y grande", como la bautizó Trump, volverá ahora a la Cámara de Representantes, donde se enfrenta al rechazo de los demócratas y de muchos republicanos opositores a los drásticos recortes. El republicano de 79 años se puso el 4 de mayo, fenado racional que celebra el Día de la Independencia, como fecha simbólica para promulgarla.

El texto prevé prolongar los enormes créditos fiscales adoptados durante el primer mandato de Trump (2017-2021), disminu

na el impuesto a las primas y incluye miles de millones de dólares adicionales para defensa y control migratorio.

Tanto proyectos como políticos prevén que dispare el déficit federal. La Oficina de Presupuesto del Congreso, responsable de las evaluaciones imparciales del impacto de los proyectos de ley en las finanzas públicas, estima que aumentará la deuda en más de \$3 billones para 2034. Para compensarlo parcialmente, los republicanos prevén recortes Medicaid, el programa público de seguro médico del que dependen millones de estadounidenses de bajos ingresos.

También se plantean reducir el programa SNAP de ayuda alimentaria y desmantelar los incentivos fiscales para las ONGs renovables adoptadas durante el mandato del representante demócrata Jon Ralston.

Donald Trump, quien ha hecho de este proyecto de ley una pieza clave de su programa económico para este segundo mandato, enfrenta su embargo las marcadas reticencias de algunos senadores de 79 años se puso el 4 de mayo, fenado racional que celebra el Día de la Independencia, como fecha simbólica para promulgarla.

**CUSTOMER'S INSTALLATION**

**A. GENERAL**

Customer's Installation shall be constructed, installed and maintained in accordance with standard practice as determined by local codes and ordinances applicable thereto, these Rules and Regulations and other applicable governmental requirements; provided, however, that Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other governmental requirement is applicable to Customer's Installation, or for enforcing or determining whether Customer's Installation is in compliance with any local code or ordinance or any other governmental requirement. A Customer installing a Gas fired electric generator shall also ensure that the installation and operation of such equipment complies with the Tariff and the requirements of the Customer's electric provider. The Company shall not be responsible for the installation and maintenance of carbon monoxide or methane gas detectors within the Customer's premises.

The Customer's piping, appliances, equipment and apparatus shall be installed and maintained in accordance with standard practice, and in full compliance with all applicable laws, codes and governmental and Company regulations. The Customer expressly agrees to utilize no apparatus or device which is not properly constructed, controlled, and protected, or which may adversely affect service to others, and the Company reserves the right to discontinue or withhold service for such apparatus or device.

Customer shall give immediate notice to the Company when any leakage of Gas is detected, discovered, or suspected. Whenever a leakage of Gas is suspected, detected, or discovered, Customer agrees not to use any potential source of ignition, such as flame, electrical source, or other igniting medium in the proximity of escaping Gas, which could ignite such Gas.

**B. INSPECTION OF CUSTOMER'S INSTALLATION**

Where governmental inspection of a Customer's Installation is required, Company will not supply Gas Service to such installation until the necessary inspections have been made and Company has been authorized to provide Gas Service.

Company may also inspect Customer's Installation prior to rendering Gas Service, and from time to time thereafter, but assumes no responsibility whatsoever as a result of having made such inspection. -Company will not render (and may discontinue) Gas Service to any Customer Installation which Company finds to be hazardous. Customer has sole responsibility to insure that the hazardous condition has been corrected prior to initiation of Gas Service.

BILLING

A. BILLING PERIODS

Bills for Gas Service will be rendered each month. Bills shall be considered received by Customer when mailed to the most recent billing address supplied by Customer to Company or by any other delivery method expressly agreed to by both the Company and Customer to reach and bill the Customer.

It is the Customer's (both sales service and transportation service Customers) obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third Party Gas Supplier) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

B. INITIAL OR FINAL BILLS

When the period of Gas Service for which an initial or final bill is rendered is less than fifty (50) percent of the normal billing period, the Customer charge or minimum bill shall be one-half (1/2) of the charge per applicable rate schedule. When the period of Gas Service is fifty (50) percent or more of the normal Billing Period, there shall be no reduction in the Customer charge or minimum bill. The distribution charge for Gas consumed shall be at the applicable billing rate.

C. NON-RECEIPT OF BILLS

Failure of Customer to receive a bill shall not relieve Customer of its obligation to pay the bill.

D. METER READINGS NOT COMBINED

If a Customer takes Gas Service under more than one rate schedule at a single delivery point, the bill shall be calculated separately for the Gas Service provided under each such rate schedule.

If a Customer takes Gas Service under one or more rate schedules at two or more Points of Delivery, a bill shall be calculated separately for Gas Service provided under each rate schedule at each Point of Delivery.

If Company must, for reasons of its convenience, establish more than one Point of Delivery at a single premise, the readings of the Meters for like classes of service will be combined.

E. DELINQUENT BILLS

A bill shall be considered delinquent if payment thereof has not been received by Company (or an Authorized Payment Agent of the Company) upon the expiration of twenty (20) days from the date of Company's mailing or other delivery of such bill. Charges for services due and rendered which are unpaid as of the past due date may be subject to a Late Payment Charge of 1.5 percent, except the accounts of federal, state, and local governmental entities, agencies, and instrumentalities. A Late Payment Charge may be applied to the accounts of federal, state, and local governmental entities, agencies, and instrumentalities at a rate no greater than allowed, and in a matter permitted by applicable law.

MEASUREMENT

A. METERS

Company will own, operate and maintain the Meters and regulating equipment needed to accurately measure Gas Service provided to Customer.

Customer will provide a convenient, accessible, and safe location, satisfactory to Company, for installation of necessary Meters, regulators, and ancillary equipment.

Customer will safeguard Company's facilities on Customer's property and will not permit unauthorized persons to tamper with such facilities or otherwise operate or alter them in any manner.

If changes in conditions not caused by the Company on Customer's premises adversely affect the convenience, accessibility, or safety of the Meter location, the Customer shall be responsible for the cost of relocating the Meter, its appurtenances, and related piping.

All Gas delivered to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the Company, except where it is impractical to Meter loads, such as street lighting, and temporary or special installations, in which case the consumption may be calculated, or billed on a rate or as provided in the Company's filed Tariff.

B. TYPE OF METERING PROVIDED

1. Except as provided in paragraph (2) below, each separate occupancy unit (as defined in Commission Rule 25-7.071, FAC) for which construction commenced after January 1, 1987, shall be individually metered.
2. Individual Meters shall not be required, and master metering is permitted, for separate occupancy units where dimensions or physical configurations of the units are subject to alteration; where Gas is used in central heating, water heating, ventilating and air conditioning systems, or Gas back up service to storage heating and cooling systems; in specialized-use housing accommodations such as hospitals and other health care facilities specified in Commission Rule 25-7.071, FAC, college dormitories, convents, sorority or fraternity houses, motels, hotels and similar facilities; in specially designated areas for overnight occupancy at trailer, mobile home and recreational vehicle parks where permanent residency is not established; in marinas where living aboard is prohibited by permanent means; or where individual Gas Service would otherwise be required above the second story, in accordance with Commission Rule 25-7.071, FAC.
3. When individual metering is not required and master metering is used, submeters may be purchased and installed at Customer's request and expense, for use in allocating solely the cost of Gas billed by Company for Gas Service at the master Meter.

C. METER ACCURACY AT INSTALLATION

All Meters, when installed, shall be not more than 1 percent fast or 1 percent slow and will have been tested not more than twelve (12) months prior to being installed.
