Hi

I am reading that FPL is looking for another rate increase. They just got one last year. I'm thinking it's because of their stupidity in wasting money on solar farms. I'm tired of these companies wasting my money on stupid projects that will never pay for themselves.

I watched my last FPL usage bill. I am trying to use less power and being punished by a higher bill. Something is very wrong. Ever since FPL was purchased by a big company, our rates keep going up. Please give us, the people who pay their bills a break with no further increases and let FPL figure it out. We can not continue to be an unlimited source of money. We need your help and understand that we can not afford another increase.

## GE COMPARISON

This Month	Last Month	Last Year
Aug 14, 2025	Jul 15, 2025	Aug 14, 2024
4561	4190	4720
30	32	29
152	131	163
\$690.09	\$633.04	\$640.08

## BILLING

\$188.49

charges on your bill are determined and required by your  
overnment to be used at their discretion.  
represents the cost of fuel used to generate electricity. It is  
ough to customers. FPL does not profit from fuel, although  
result in higher state and local taxes and fees.

You can see my August 14 last year and this year. I used less power this year and paid \$50.00 more. It's not right. Please help us avoid the largest increase ever.

Thank you

Richard Champon

**Subject:** Opposition to Florida Power & Light's Proposed \$10 Billion Rate Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

### **To the Commissioners of the Florida Public Service Commission,**

I am writing to respectfully urge you to reject Florida Power & Light's (FPL) proposal for a \$10 billion rate increase. While I recognize the importance of maintaining reliable energy infrastructure, this increase would place a heavy burden on many Floridians who are already struggling with high costs of living.

Although some customers may be able to afford this increase, countless households on fixed incomes, as well as single-parent families, will find it extremely difficult to absorb yet another rise in utility rates. For these residents, electricity is not a luxury—it is a necessity.

The scale of this proposed increase is excessive and risks deepening financial hardship across our communities. I strongly believe that FPL should prioritize operational efficiency, explore alternative funding mechanisms, and adopt cost-saving innovations before turning to consumers to shoulder such a significant financial load.

The Florida PSC has an obligation to balance the needs of utility providers with the well-being of the citizens you serve. I respectfully ask that you reject this proposed \$10 billion rate increase and protect Florida's families from further financial strain.

Thank you for your time and consideration.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As a Florida resident and consumer, I know the value of my hard-earned money. I also know that the power and light I pay for every month is a lifesaver, especially during these extreme heat waves that are becoming all too common.

Florida Power & Light (FPL) wants to raise my rates by hundreds a year and make working residents like me foot the bill for their profits and executive bonuses. Reporting has shown that 50 cents of every dollar is going to profit, not keeping the power on. Additionally, from March 2024 to February 2025, FPL shut off 1.216 M residential customers for non-payment — about a fifth of all their residential customers.

The Office of Public Counsel—the watchdog for consumers—submitted expert testimony showing FPL is inflating the numbers and should cut rates by \$620 million, not raise them.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.
