I certainly hope the **PUBLIC Service Commission** will live up to its name and work FOR the Public, NOT FP&L's bottom line.

PLEASE.. don't just allow them to ask and ask again and again, for increases. What kind of a company doesn't use its own resources if it wants to grow its structure(s) so they can make even MORE money? Why should taxpayers fund their exploits; ie., they obviously waste money on all the TV, radio and print ads. Knowing the heat we have in Florida AND the growing population will surely increase their profits.

Oh, and I recently saw an AD for a PSC job position in the Palm Beach Post. My question is why wasn't a criteria for the post to ***not be invested in FP&L??***

Concerned citizen and Florida resident for the last 34 years!
