Comment: How can increasing our water rate from \$30 per month to hundreds of dollars serve any purpose as a public service? I purchased my condo for \$45,000 six years ago, paying cash with the intention of living a low-cost lifestyle, especially after dealing with major health issues that have kept me out of work for the past two years.

Your agency/organization is grossly imputing the cost of a redevelopment project around our community on our citizens, who have no involment in and have nothing to do with these groups of individuals/private investors who purchased hundred of these condominiums with the intention of redeveloping them for profit.

Your actions could irreversibly affect our livelyhoods. Please reconsider your water rate increases by limiting them to new the communities being created rather than established residents of Grenefe condominiums such as myself.
