I am writing to express my opposition to the proposed rate hikes for our water . We were told by the Developer that all costs for providing water for new development would be covered by the CDC fees for new building. The new rate hikes would be a financial burden on many people that are current residents here. Residents that are on fixed income could be make to choose between the water bill and buying food. It would be so wrong to do that to people. New people moving here have the choice to buy and pay the costs, or not, but we, the current residents don't have that option . And if we sell our home it will be harder to sell because of the extreme utilities bill. So it devalues our homes.

1. Please uphold Florida law by not placing unjust financial burdens on existing customers, and put it on new development where the responsibility lies.
2. Please have rates that remain fair, just and reasonable. And have gradual rate hikes over years rather than this tremendous increase all at one time.

Thank you,

Gloria Wilkinson
