As long time residents of Grenelefe we object to the unfair water proposal hike that puts the burden of development on the individual. And that this could be done so easily, without a thought that people are hard working and trying to afford food & housing they currently have. This decision is the height of arrogance & speaks to the hierarchal power structure that is being forced upon people of all persuasions right now in American culture. Enough of the powers that be taking advantage of hard working people.

Grenelefe residents,
Natalie Lanning & Judy Campbell
