Dear Florida Public Service Commissioners,

As an elderly resident of South Florida, whose lived here for more than 70 years, I can express concern of FPL rate increases that are affecting myself and my family's decisions on economics. we've seen our taxes, our insurance and our electric bills continuously go up, which is understandable But it's believable that something has to be done to control costs. Please do everything you can to consider the residence of South Florida when you make decisions for right increases it's going to harm many people thank you.

I am a residential customer of Florida Power & Light (FPL) and a member of AARP, and I oppose FPL's attempts to raise its rates even higher than they already are. I opposed the increases FPL proposed in February, and I oppose the nearly identical increases FPL has now put forward with its corporate partners in a so-called "Settlement" negotiated in secret. These rates remain excessive and unfair to residential customers.

FPL's claim that this "Settlement" represents residential customers like me and my family is false. No one from FPL ever consulted us, asked for our input, or received our consent to speak on our behalf. Instead, FPL chose to ignore the voices of ordinary Floridians who have already expressed strong opposition to these increases.

My family and I call on the Public Service Commission to reject these secret deals cut with large industrial and commercial interests and to hold FPL accountable.

Enough is enough — protect residential customers from corporate greed and unjustified rate hikes.

Thank you for your time and consideration.

Sincerely,

Ken Thomson
