Dear Florida Public Service Commissioners,

I am a residential customer of Florida Power & Light (FPL) and I oppose FPL's attempts to raise its rates even higher than they already are. Americans are struggling to pay their bills and make ends meet. I am struggling to afford the life my parents were able to provided. Most of my generation cannot even afford a home well into their 30's. But companies like FPL and their greed continue to strip the American Dream from us by continuously increasing the cost of living for their own profits. Does FPL have trouble paying their bills? affording just a SINGKE home to live in? Purchasing a car to get to work? No, FPL is a well established company with a monopoly on electricity in Florida looking to increase the profits and happiness of their shareholders while the American tax payer is left to foot the bill. Oppose these mega corporation NEEDLESLY increasing the cost of an already EXPLOSIVE cost of living. Work for the people to LOWER costs.

I opposed the increases FPL proposed in February, and I oppose the nearly identical increases FPL has now put forward with its corporate partners in a so-called "Settlement"

negotiated in secret. These rates remain excessive and unfair to residential customers.

FPL's claim that this "Settlement" represents residential customers like me and my family is false. No one from FPL ever consulted us, asked for our input, or received our consent to speak on our behalf. Instead, FPL chose to ignore the voices of ordinary Floridians who have already expressed strong opposition to these increases.

My family and I call on the Public Service Commission to reject these secret deals cut with large industrial and commercial interests and to hold FPL accountable.

Enough is enough — protect residential customers from corporate greed and unjustified rate hikes.

Thank you for your time and consideration.

Sincerely,

Constance Henderson
