Dear Florida Public Service Commissioners,

I am a residential victim of Florida Power & Light (FPL) and a member of AARP, and I oppose FPL's request to raise its rates even higher than they already are. We are on a fixed income and a captive audience. I opposed the increases FPL proposed in February, and I oppose the nearly identical increases FPL has now put forward with its corporate partners in a so-called "Settlement" negotiated in secret. These rates remain excessive and unfair to residential customers. We residents should not have to bear the costs for AI Data center consumption that benefit Corporations and their expansion. Residential rates should be lowered not increased since FPL benefits from renewable solar energy.

FPL's claim that this "Settlement" represents residential customers like me and my family is false. No one from FPL ever consulted us, asked for our input, or received our consent to speak on our behalf. Instead, FPL chose to ignore the voices of ordinary Floridians who have already expressed strong opposition to these increases.

My family and I call on the Public Service Commission to reject these secret deals cut with large industrial and commercial interests and to hold FPL accountable.

Enough is enough — protect residential customers from corporate greed and unjustified rate hikes.

Thank you for your time and consideration.

Sincerely,

Alan Margulies
