Good evening,

We, the citizens of Florida, are extremely fatigued with the continuing FPL rate increases. I understand they are seeking yet another rate increase. This will unfairly burden Florida residents while FPL becomes the most profitable utility company in the country.

When we had Gulf Power in NW Florida, we received better service and customer service without the constant rate increases.

Their requests are beyond ridiculous. While I appreciate every lineman and the work they do, I have to vehemently request you reject this proposal. It is fine for a company to make a profit. It is not fair to gain a monopoly and squeeze the citizens dry.

Thank you,

Lisa Hall
