DOCKET NO. 20250001-EI
ORDER NO. PSC-2025-0383-CFO-EI
ISSUED: October 15, 2025

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 08851-2025)

On September 2, 2025, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed a Request for Confidential Classification (Request) of materials provided in its Revised 2026 Risk Management Plan, contained in Exhibits A, B, C, and D attached to FPL's 2025 Actual/Estimated True-up Petition in Docket No. 20250001-EI (Document No. 08851-2025).

Request for Confidential Classification

FPL contends that the collection of information contained in Exhibits A through D, more specifically described in its Request, constitutes proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. Exhibit A is proprietary confidential business information within the meaning of Section 366.093(3), F.S. Exhibit B in the Request contains copies of NextEra Energy, Inc.'s, Risk and Credit Exposure Management Policy and the EMT Trading Risk Management Front Office Manual. Exhibit C is a table that identifies the specific page and line references for the information for which confidential treatment is sought, provides a brief description of the Confidential Information, references the specific statutory bases for the claim of confidentiality, and lists the declarant who supports the requested classification. Finally, Exhibit D is the declaration of Michael V. Cashman in support of FPL's request for confidentiality.

Additionally, the confidential information contained in the Revised 2026 Risk Management Plan relates to competitive interests and internal policy and procedures of FPL as well as potential plans for hedging activities, the disclosure of which would impair its competitive business as well as the efforts of FPL to contract for goods and services on favorable terms, also to the detriment of FPL and its customers.

FPL asserts that this information is intended to be and is treated by FPL as private and has not been publicly disclosed. FPL argues that this information is protected by Sections 366.093(3)(d) and (e), F.S.

Ruling

Section 366.093(1), F.S., provides that records that the Florida Public Service Commission (Commission) has found to contain proprietary business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential business information includes, but is not limited to:

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information related to the Revised 2026 Risk Management Plan – specifically, NextEra Energy, Inc.'s, Risk and Credit Exposure Management Policy and the EMT Trading Risk Management Front Office Manual – appears to be “information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms” and “information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, the information identified in Document No. 08851-2025 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is hereby

ORDERED by Commissioner Gabriella Passidomo Smith, as Prehearing Officer, that Florida Power & Light Company's Request for Confidential Classification of Document No. 08851-2025 is granted. It is further

ORDERED that the information in Document No. 08851-2025, for which confidential classification has been granted, shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the

confidential information will no longer be exempt from Section 119.07(1), F.S., unless Florida Power & Light Company or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information. It is further
