DOCKET NO. 20250001-EI
ORDER NO. PSC-2025-0397-CFO-EI
ISSUED: October 23, 2025

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 14289-2025)

On October 6, 2025, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed a Request for Confidential Classification (Request) of certain highlighted information provided in response to Staff's Sixth Set of Interrogatories, No. 14 (Document No. 14289-2025).

Request for Confidential Classification

FPL contends that the information contained in its response to Staff's Sixth Set of Interrogatories, No. 14, constitutes proprietary confidential business information entitled to protection under Section 366.093(3), F.S. and Rule 25-22.006, F.A.C. FPL asserts that this information is intended to be and is treated by FPL as private, and its confidentiality has been maintained.

The information contained in FPL's response to Staff's Sixth Set of Interrogatories, No. 14, contains contractual data, including negotiated terms and pricing information. Specifically, the confidential documents include fuel price forecasts and agreements for the purchase of natural gas. FPL argues that disclosure of this information would impair its efforts to contract for these goods or services on favorable terms. FPL also argues that disclosure of this information would impair the competitive business interests of FPL and its vendors or customers. Finally, FPL contends that the information in these documents and materials would also place it at a disadvantage when coupled with other information that is publicly available. Therefore, FPL asserts that this information is protected by Sections 366.093(3)(d) and (e), F.S.

Ruling

Section 366.093(1), F.S., provides that records that the Florida Public Service Commission (Commission) has found to contain proprietary business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential business information includes, but is not limited to:

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information described above and in FPL's Request appears to contain fuel price forecasts and agreements for the purchase of natural gas. This information appears to be "information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information." Thus, the information identified in Document No. 14289-2025 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is hereby

ORDERED by Commissioner Gabriella Passidomo Smith, as Prehearing Officer, that Florida Power & Light Company's Request for Confidential Classification of Document No. 14289-2025, is granted. It is further

ORDERED that the information in Document No. 14289-2025, for which confidential classification has been granted, shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless Florida Power & Light Company or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Gabriella Passidomo Smith, as Prehearing Officer,
this 23rd day of October, 2025.
