Comments:

I can't believe you approved a 22% rate increase on FPL's EVolution home charging program. We signed a contract based on a \$31/ month rate and now it is starting to not make sense but I am stuck in a long term contract. There is no justification for a 22% increase.

COMPLAINT INFORMATION

Complaint: Other Complaints against Florida Power & Light Company
Details:

The largest rate hike in US history has meant a huge increase in my cost of living. The closed door settlement for a public utility, while great for shareholders, has left me with negative cash flow.
