I have spoken to FPL to explain and justify the January 2026 residential new rates and increases, but they could not in my situation and said overall increase was 2+% and suggestion was to contact Florida Public Service Commission (FPSC).

My December 2025 to January 2026 bills have increased for the following (see my attached bills):

	<u>Dec</u>	<u>Jan</u>	<u>Increase</u>
Base Rate	\$9.61	\$10.52	9.47%
Minimum Base Bill Charge	\$10.30	\$16.49	60.10%
Fuel (First 1000 kWh )	\$0.024080	\$0.028930	20.14%
Fuel (Over 1000 kWh )	\$0.034080	\$0.038930	14.23%

How is it possible that my bill has such significant increases?

Thank you for advice and support..
