Hello Florida Public Service Commission,

My name is Jonathan, I am a resident of Seminole County in Longwood (zip 32750). I have received a notice regarding Docket No. 20250137-SU where Sunshine Water Services Company is requesting rate increases. I strongly urge the commission to apply heavy discretion in rate increases, as Sunshine Water Services' flat rate for residential homes is already quite high.

For example, I have other neighbors in Longwood being serviced by the city itself, rather than Sunshine for sewer services. My bill for sewer services is \$73.19 monthly, which does NOT include my normal water bill for providing water to my home. My neighbor's bill is \$80.42 TOTAL which INCLUDES water, curb service, and sewer. The sewer component of their bill is just \$25.66. Even before Sunshine's proposed rate increase I am being charged nearly 3x for the same service of removing sewer water from my home. To add further, my neighbor I am referencing has 2 people in their home, and I live alone. I fail to see how I could possibly be generating 3x the sewer waste for Sunshine to service and treat.

Their proposed increase to \$82.93 is downright preposterous. I pay less in electric in the winter months. This would bring my sewer bill higher than my water/natural gas bills combined, and brings it close to my electric bill most months of the year. Sunshine seems to be gouging its residential customers, or is running it's business so inefficiently it is costing everyday citizens nearly 3x what it should.

Please feel free to reach out to me for any further details required.

Thanks,
Jonathan
