I wish to comment on the proposed rate increase requested by Gulfstream Utility, LLC. Our 55+ manufactured home community is home to many senior citizens. Many of the residents are on fixed incomes and are challenged to make ends meet with lot rents going up, pass-on property taxes going up, and everyday costs (food, medicine, insurance, etc.).

I am concerned that since many of our residents don't understand the issues related to the requested rate increase, many are not fluent in English, and many are not knowledgeable in technology, that there will be little participation from our residents. I personally can not participate in the Customer Meeting as I will be out of the country on a trip on January 13, 2026.

We want our voices heard. Our community is made up of three developed parcels with each represented by a Homeowners Association (HOA). At our January HOA meeting last night, our HOA Directors talked about the issues and agreed to submit comments on our behalf. Our residents put our trust in our HOAs to represent us and speak on our behalf.

I ask the Commission to please strongly consider the comments submitted by our HOAs. Know that the comments are not from 3 individuals but are the voice of 1000+ residents living in our community of 974 homesites.

Thank you.
