I live in Landings of Lake Henry. Apparently there have requested a rate hike on our water and sewage. We certainly pay more than enough for water we can't even drink. And that at times smells so bad when you turn it on that it is sickening. Also have so much chlorine at times that it bleached our clothes. I do not want to pay a penny more than I already pay.

Another resident suggested raising the price of the clubhouse when rented to non-residents together the extra money. Don't put it on residents. This community has many people on very limited income. The rent has been raised quite a bit for some lately. Raising the utilities would be a hardship for many. Sun needs to absorb any extra costs. They make plenty from us already.

Thank you
