DOCUMENT NO. 01381-2026
FPSC - COMMISSION CLERK

March 3, 2026

Docket No. 20250135-EI – Petition for approval of new environmental program for cost recovery through Environmental Cost Recovery Clause, by Tampa Electric Company.

Issue 1: Should the Commission approve Tampa Electric Company’s petition for approval of the Manatee Protective Study for cost recovery through the Environmental Cost Recovery Clause

Recommendation: Yes. Staff recommends that TECO’s proposed Manatee Protection Study is necessary to comply with its NPDES permit. Consistent with prior ECRC orders, operation and maintenance (O&M) costs associated with the Study should be allocated to appropriate rate classes on an energy basis.

APPROVED AS MODIFIED

Add the following: Accordingly, our finding here that the costs of this Study are eligible for the ECRC today does not mean that any future costs associated with any implementation of the Study are pre-approved for recovery, nor does it mean that any future costs or activities associated with any implementation of the of this Study will be deemed to be prudent as a result of the decision in this clause proceeding.
