The Andytown-Oasis Transmission Lines Project contemplates a total of four new transmission lines: (a) one 500-kV line starting at FPL's existing Andytown substation in Broward County and ending at FPL's planned Oasis substation in Miami-Dade County; (b) one 500-kV line starting at FPL's existing Quarry substation in Miami-Dade County and ending at FPL's planned Oasis substation in Miami-Dade County; (c) one 230-kV line starting at FPL's planned Oasis substation in Miami-Dade County and ending at FPL's existing Quarry substation in Miami-Dade County; and (d) one 230-kV line starting at FPL's planned Oasis substation in Miami-Dade County and ending at FPL's existing Levee substation in Miami-Dade County. The Commission may rule on any such matter, including pending motions, from the bench or may take the matters under advisement.

This proceeding shall: (1) allow FPL to present evidence and testimony in support of its petition for the determination of need for each transmission line of the Andytown-Oasis Transmission Lines Project; (2) permit intervenors to present testimony and other evidence concerning this matter; (3) provide members of the public who are not parties to the proceeding with an opportunity to present testimony concerning this matter; and (4) address any other matters the Commission may deem appropriate.
