

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION**

In re: Petition for limited proceeding for recovery of incremental storm restoration costs related to Hurricanes Debby, Helene, and Milton, by Florida Power & Light Company

Docket No. 20240149-EI

Filed: May 8, 2026

**FLORIDA POWER & LIGHT COMPANY'S  
MOTION FOR TEMPORARY PROTECTIVE ORDER**

Pursuant to Section 366.093(2), Florida Statutes, and Rule 25-22.006(6)(c), Florida Administrative Code, Florida Power & Light Company (“FPL” or the “Company”), hereby moves the Florida Public Service Commission (the “Commission”), through the Prehearing Officer, for a temporary protective order to exempt from Section 119.07(1), Florida Statutes, certain confidential information requested to be reviewed by the Office of Public Counsel (“OPC”), and for protection of that information against public disclosure pending the OPC’s review. In support of its Motion, FPL states:

1. As part of OPC’s review of FPL’s storm restoration costs associated with Hurricanes Debby, Helene, and Milton, OPC has requested to review certain contracts, purchase orders, and procurement and transactional documentation (collectively, the “Source Documents”) related to certain vendors who assisted in the Company’s storm restoration activities. The Source Documents contain vendor pricing, contractual details, and vendor-specific payment information that pertain to FPL’s storm restoration. Upon mutual agreement with OPC, FPL is making the Source Documents available for OPC’s review and inspection beginning on May 8, 2026.

2. The Source Documents are proprietary confidential information protected from public disclosure by Florida law. Specifically, the Source Documents contain proprietary information relating to competitive interests, the disclosure of which would impair the competitive

business of FPL and its vendors. Such information is proprietary confidential business information under Section 366.093(3), Florida Statutes, and exempt from the Public Records Act.

3. Further, public disclosure of this information would impair FPL's vendors' economic interests, and would adversely affect the economic interests of FPL and its customers in that outside parties could leverage the information contained in the Source Documents in negotiating rates for services.

4. With respect to a utility allowing OPC to inspect or take possession of confidential information, Rule 25-22.006(6)(c), Florida Administrative Code, provides as follows:

When a utility or other person agrees to allow Public Counsel to inspect or take possession of utility information for the purpose of determining what information is to be used in a proceeding before the Commission, the utility may request a temporary protective order exempting the information from Section 119.07(1), F.S. If the information is to be used in a proceeding before the Commission, then the utility must file a specific request for a protective order .... If the information is not to be used in a proceeding before the Commission, then Public Counsel shall return the information to the utility in accordance with the record retention requirements of the Department of State.

5. Consistent therewith, FPL respectfully requests that the Commission enter a temporary protective order to preserve the confidentiality of the Source Documents, while allowing OPC to review these confidential materials for the purpose of this proceeding. FPL will work cooperatively with OPC to identify confidential information that may be used at a final hearing in this docket and, to the extent necessary and appropriate, FPL will file a request(s) for confidential classification.

WHEREFORE, for the foregoing reasons, FPL respectfully requests that the Commission enter a temporary protective order protecting against public disclosure the confidential information contained in the Source Documents as described herein and made available to OPC.

Respectfully submitted this 8th day of May 2026.
