INDEPENDENT AUDITOR'S REPORT

Board of Directors
St. Joe Natural Gas Company, Inc.
Port St. Joe, Florida

I have audited the accompanying balance sheets of St. Joe Natural Gas Company, Inc. as of December 31, 2000 and 1999 and the related statements of income, changes in stockholder's equity, and cash flows for the years then ended. These financial statements are the responsibility of the company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted the audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of St. Joe Natural Gas Company, Inc. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles.

Notes to Financial Statement

Years Ended December 31, 2000 and 1999

Note 1 Summary of Significant Accounting Policies

Property Plant and Equipment

The natural gas utility plant is recorded at cost, and includes an allocation of administrative and general costs, payroll costs, and construction-related costs. Maintenance and repairs of plant and replacements considered to be minor are charged direct to operating expenses.

Depreciation is computed in accordance with rates approved by the Florida Public Service Commission on a straight-line basis. Depreciation rates in effect for 2000 are as follows:

Natural Gas Plant	2.7% - 4.9%
Building	2.2%
Vehicles	11.5%
Other Equipment	4.6% -13.6%

Accounts Receivable

Receivables are stated at their gross value, with an allowance for doubtful accounts at December 31, 2000 reported at \$0. The prior year allowance for doubtful accounts reflected the anticipated bad debt as a result of the closure of Florida Coast Paper Company, LLC and the subsequent bankruptcy filing. Because of the company policy to require deposits, ordinarily bad debt amounts, if any, are not material.

Inventories

Supply and merchandise for resale inventories are stated at cost using the first-in, first-out valuation method.

Income Taxes

For the years ended December 31, 2000 and 1999 deferred income taxes are provided for the tax effects of items reported in different periods for financial and income tax reporting purposes. Deferred taxes are reported in accordance with the provisions of SFAS 109. Deductible temporary differences are primarily the result of the recognition of deferred income for tax purposes in excess of the amount recognized under Florida Public Service Commission order number PSC-01-1274-PAA-GU. Taxable temporary differences result primarily from the recognition of accelerated depreciation for tax purposes in excess of straight line depreciation rates set for asset classes by the Florida Public Service Commission. (See Note 6)

Cash

For the purposes of cash flows, the Company considers all highly liquid debt instrument purchases with a maturity of ninety days or less to be cash equivalents.

Note 1 Summary of Significant Accounting Policies (Continued)

Use of Estimates

Financial statements prepared in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 Major Gas Customers

Natural gas sales to industrial customers, comprising the company's major gas customers, have declined consistently over the past three years. These sales comprised approximately 9.5 % of total operating revenues in 2000 compared to 11.5% in 1999 and 46% in 1998. The decreases are largely due to the temporary, then permanent closure of Florida Coast Paper Company, LLC.

Note 3 Inventories

Inventories consist of the following as of December 31, 2000:

Plant materials and supplies	\$ 4,850
Merchandise for resale	5,179
Materials and supplies	<u>13,665</u>
Total Inventories	<u>\$ 23,694</u>

Note 4 Contingencies

Florida Gas Transmission, an interstate gas transmission pipeline company, is currently the sole supplier of gas to St. Joe Natural Gas Company. The operation of the company is dependent upon natural gas availability.

In 1991 St. Joe Natural Gas Company, Inc. (SJNG) signed a note to borrow funds to build a pipeline to service St. Joe Forest Products Company. Subsequently, on May 30, 1996, St. Joe Forest Products Company was purchased by a joint partnership and operates under the name of Florida coast Paper Company, LLC (FCPC). The loan was collateralized by the assignment of revenues between SJNG and FCPC, and the note was unconditionally guaranteed by FCPC. As part of the agreement FCPC agreed to pay for a minimum of 792,820 decatherms annually, regardless of the amount of gas actually transported. FCPC also agreed to make the monthly note payments of \$39,396 directly to the lender, offsetting gas payments to SJNG for the term of the note regardless of actual therms used. Note payment amounts exceeding the cost of gas used will be applied to prepaid gas to be offset by future sales after the final note payment. Access to the prepaid gas account by FCPC is limited by the terms contained in the September 8, 1997 settlement agreement between SJNG and FCPC.

Florida Coast Paper Company, LLC filed for bankruptcy in April 1999. A plan was presented to the bankruptcy court to permanently discontinue operations of the mill, and for the assets to be purchased by the Smurfit-Stone Corporation. The plan was approved by the bankruptcy court in April 2000.

Notes to Financial Statement

Years Ended December 31, 2000 and 1999

Note 4 Contingencies (Continued)

Subsequently it has been determined that the mill will no longer operate, or consume natural gas as a result of the approval of the bankruptcy plan. In accordance with the terms of the agreement between SJNG and FCPC dated September 8, 1997, the prepaid gas account can no longer be accessed by FCPC. The resulting balance of the prepaid gas account will revert to income to SJNG. Under Florida Public Service Commission order PSC-01-1274-PAA-GU, the deferred income amount of \$1,578,595 will be included in income equitably over the next 31 years at \$50,922 per year beginning in the year ended December 31, 2000. The remaining Florida Coast Paper Company deferred credit balance at December 31, 2000 is \$1,527,673. Because of the effects on rate making calculations this income will be recognized for financial statement purposes the way that it is recognized for regulatory purposes in accordance with FAS 71. For income tax purposes, under Internal Revenue Code Section 481, adjustment for change in accounting method, the income will be recognized over a four year period beginning in the year 2000 at an amount of \$394,649 per year, with a corresponding increase in federal and state income tax liability. The estimated increase in federal and state tax liability for each of the four years is \$148,506.

Note 5 Retirement Plan

The Company adopted a defined contribution plan based on 15% of salaries and bonuses effective January 1, 1988. All employees 21 years of age or older and have completed six months of service are eligible to participate in the plan. The company elected not to make a contribution to the plan for 2000.

Note 6 Income Tax Expense

Deferred income taxes resulting from temporary differences is explained in Note One.

Deferred tax liability for taxable temporary differences	\$(458,181)
Deferred tax assets for deductible temporary differences	<u>129,344</u>

Note 7 Financial Instruments with Off-Balance Sheet Risk

At December 31, 2000, St. Joe Natural Gas Company, Inc. had \$174,229 on deposit at a local savings bank, which is not insured nor collateralized for any amounts over the Federal Deposit Insurance Corporation limit of \$100,000.

Note 8 Related Party Transactions

A director of the Company holds a short-term promissory note in the amount of \$150,000 secured by 660 shares of the company's stock. The note has an interest rate of 10.75% compounded annually. Accrued interest on the note as of December 31, 2000 was \$12,927. The Florida Public Service Commission, under Proposed Agency Action proceedings has subsequently limited the allowed interest rate on this loan to 8.0% compounded annually for rate making purposes.

Notes to Financial Statement

Years Ended December 31, 2000 and 1999

Note 9 Subsequent Events

The decrease in industrial natural gas sales as a result of the closure of Florida Coast Paper Company had a negative impact on the Company's earnings. As a result, the rate of return earned by the Company is below the rate allowed by the Florida Public Service Commission (FPSC).

On December 15, 2000 the Company filed a petition for a permanent rate increase with the FPSC, and requested an interim increase to be effective until the permanent increase is granted. The Company filed under the procedures for Proposed Agency Action. (PAA)

On February 26, 2001 the Company was granted an interim increase in annualized revenues in the amount of \$355,984. A permanent rate increase was granted on June 8, 2001, allowing for an annualized increase in revenues of \$327,149. As part of the PAA order, for rate base purposes the equity of the Company is limited to 60% regardless of the actual equity amount in the Company. The FPSC approved an 11.5% rate of return on this imputed equity amount.

The Company, in March 2001, secured a line of credit with Citizens Federal Savings Bank in the amount of \$400,000 at a fixed annual percentage rate of 8.75%. The maximum amount drawn on the line of credit has been \$150,000.

Note 10 Adjustment of Prior Years

The Statement of Changes in Stockholder's Equity includes adjustments for the cumulative effects on prior years. As part of the Proposed Agency Action order, the FPSC made an adjustment to plant and accumulated depreciation for interest capitalized. The commission had not authorized an Allowance for Funds Used During Construction as required by FPSC rule 25-7.0141. This resulted in an adjustment to prior years earnings in the amount of \$63,806.

As a result of information discovered during the FPSC examination of the Minimum Filing Requirements (MFR) under the PAA procedures it was found that adjustments were not made in prior years to deferred income taxes in compliance with FAS 109 reflecting the accounting change from the deferred method to the asset/liability method. This resulted in a decrease to retained earnings in the amount of \$149,331 for the cumulative effect of the prior years adjustments.
