Note 1 Summary of Significant Accounting Policies

Business Activity

The St. Joe Natural Gas Company, Inc. (SJNG) sells and delivers natural gas to residential and commercial customers in the Port St. Joe, Wewahitchka, and The Beaches areas under franchise agreements. The Company operates under the regulatory authority of the Florida Public Service Commission, which regulates certain operating procedures, gas rates, and return on capital. The Company is subject to rate and earnings reviews by the Commission. St. Joe Natural Gas Company also operates a retail appliance sales and service business serving the geographic area that is not under the regulatory authority of the Commission.

Property, Plant, and Equipment

The natural gas utility plant is recorded at cost, and includes an allocation of administrative and general costs, payroll costs, and construction-related costs. Maintenance and repairs of plant, and replacements considered to be minor, are charged direct to operating expenses.

Depreciation is computed in accordance with rates approved by the Florida Public Service Commission on a straight-line basis, with service lives ranging from 5 years to 40 years.

Accounts Receivable

Receivables are stated at their gross value, and include receivables for gas sales, services and appliance sales. The company did not use an allowance for doubtful accounts. Because of the company policy to require deposits for gas sales, ordinarily bad debt amounts, if any, are not material and are written off as incurred.

Inventories

Inventories consisting of supplies, replacements parts, and merchandise for resale are stated at the lower of cost or market. Cost is determined using the first-in, first-out valuation method. A point of sale system is used to account for retail appliance inventories.

Income Taxes

Deferred income taxes are recognized in accordance with the provisions of SFAS 109, for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be recovered or settled. The effect on deferred taxes of a change in tax rate is recognized in income in the period that includes the enactment date. There are no tax positions taken by the Company that would require disclosure under FIN 48, Accounting for Uncertainty in Income Taxes in the years 2007 and 2008.

Note 1 Summary of Significant Accounting Policies, *continued*

Cash

For the purposes of cash flows, the Company considers all highly liquid debt instrument purchases with a maturity of ninety days or less to be cash equivalents. The carrying amount of these instruments approximates fair value because of their short maturity.

Use of Estimates

Management of the Company has made estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

Asset Retirement Obligations

SFAS and PSC rule requires utilities to determine if they have any assets meeting the criteria to recognize asset retirement obligations.

A review of the SJNG assets including easements and right of way agreements does not indicate any legal obligation to remove, or a time frame or expiration of agreement requiring removal of plant or equipment.

Any future requirement to remove gas distribution systems cannot be determined as to the point in time that this would be required, nor can a cost of removal be reasonably determined, nor that substantial removal would be required.

Therefore SJNG is not recognizing any asset retirement obligations under SFAS 143 for the years ending 2008 and 2007.

Note 2 Natural gas sales

Natural gas sales to large commercial customers have declined over the past seven years due to changes in the local industrial economy. Sales to small and large commercial accounts are approximately 25% of total gas revenue for 2008 and 24% for 2007. The majority of natural gas sales are to the residential market.

	Gas Revenues

Note 4 Notes Payable

Long-term obligations at December 31, 2008 and 2007 consist of the following notes payable:

	2008	2007
Loan payable to Margaret M. Costin and being serviced by Bayside Savings Bank as a line of credit opened April 15, 2007 with a credit limit of \$416,000, secured by the assets of the company. Term of the loan is 36 months with interest only payable monthly. The interest rate was fixed on November 1, 2007, with a rate of 7.75% as of December 31, 2008.	\$ <u>300,000</u>	\$ <u>200,000</u>

Notes payable, net of current portion	\$ <u>-0-</u>	\$ <u>-0-</u>

Note 5 Deferred Credits

The deferred credit consists of prepaid gas accounts for Florida Coast Paper Company, LLC and Gulf Correctional Institute. Because of the closure and bankruptcy of Florida Coast Paper Company, LLC, and in accordance with the terms of the agreement dated September 8, 1997, the prepaid gas account is no longer accessible by Florida Coast Paper Company, LLC. The resulting balance of the prepaid gas account reverts to income to St. Joe Natural Gas Company, Inc. Under Florida Public Service Commission order PSC-01-1274-PAA-GU, the deferred income amount will be included in income equitably over the next 31 years. In accordance with SFAS71, income will be recognized for financial statement presentation the same as for regulatory purposes. The income amount recognized for 2008 and 2007 was \$50,922 annually.

ST. JOE NATURAL GAS COMPANY, INC.
Notes to Financial Statements
For the years ended December 31, 2008 and 2007

Note 6 Provision for Income Taxes, *continued*

The tax effects of temporary differences that account for significant portions of the deferred tax assets and the deferred tax liabilities at December 31, 2008 and 2007 are presented below.

	2008	2007
Deferred tax assets:		
Deferred income, partially due to differences in recognition allowed by Public Service Commission regulation and income tax reporting purposes under Internal Revenue code section 481(a)	\$ 518,452	\$ 537,761
Deferred tax liabilities:		
Property and equipment, principally due to differences in depreciation for income tax reporting purposes	<u>(612,337)</u>	<u>(589,586)</u>
Net deferred tax asset (liability)	\$ <u>(93,885)</u>	\$ <u>(51,825)</u>

There is no valuation for deferred tax assets. The Company expects that the results of future operations will generate sufficient taxable income to allow for the utilization of deferred tax assets.

Note 7 Retirement Plan

The Company adopted a defined contribution plan based on contributions of up to 15% of salaries and bonuses effective January 1, 1988. All employees 21 years of age and older and have completed six months of service are eligible to participate in the plan. The Company elected to make a contribution to the plan for 2008 and 2007.

Note 8 Purchased Gas Costs Adjustments

The Florida Public Service Commission (FPSC) requires that the sale of gas be revenue neutral. The Company is allowed to recover the costs of purchased gas through customer billings. Rates are set annually based on the projected cost of gas. The over or under recovery of gas costs must be recorded, and rates adjusted accordingly in the subsequent year. The over and under recovery does not generate deferred tax assets or liabilities. The purchased gas cost adjustments are reported the same for financial and income tax reporting purposes. As of December 31, 2008 and 2007 the Company had purchased gas cost credit adjustment amounts of \$57,755 and \$143,089 respectively.

ST. JOE NATURAL GAS COMPANY, INC.
Notes to Financial Statements
For the years ended December 31, 2008 and 2007

Note 9 Related Party Transactions

As disclosed in Note 4, a director of the Company held a promissory note in the amount of \$150,000 secured by 660 shares of the company's stock that was paid off during 2007. The note had an interest rate of 8.0% compounded annually. The Florida Public Service Commission, under Proposed Agency Action proceedings limited the allowed interest rate on this loan to 8.0% compounded annually for rate making purposes.

The line of credit in use also disclosed in Note 4 is owed to the same director of the Company, but the loan is being serviced under a Loan Servicing Agreement dated November 1, 2007 by Bayside Savings Bank.

Note 10 Florida Public Service Commission Regulatory Action

In a 2001 rate case the Florida Public Service Commission determined that for rate base purposes, the equity of the Company is limited to 60% regardless of the actual equity amount in the company. The FPSC also approved an 11.5% rate of return on the imputed equity amount. On December 21, 2007 the Company filed a petition for a permanent rate increase. On March 3, 2008, the FPSC authorized an interim rate increase to the Company. The FPSC issued order number PSC-08-0436-PAA-GU on July 8, 2008 granting a permanent rate increase. The order authorized a return on equity of 11% with a range of plus or minus 100 basis points. The FPSC ruled that the capital structure of the Company shall consist of no more than 60% equity as a percentage of investor capital. The weighted average cost of capital was determined to be 5.44%. The order grants the Company an annual revenue increase of up to \$543,868.

Note 11 Dividends

The Company did not declare dividends for the years ending December 31, 2008 and 2007.

Note 12 Subsequent Events

The general economic conditions for local industry continue to decline, and the future of a large industrial customer remains uncertain. The loss of this customer would negatively impact revenues by approximately 20%.
