# Note I Summary of Significant Accounting Policies

#### Business Activity

The St. Joe Natural Gas Company, Inc. (SJNG) sells and delivers natural gas to residential and commercial customers in the Port St. Joe, Wewahitchka, and The Beaches areas under franchise agreements. The Company operates under the regulatory authority of the Florida Public Service Commission, which regulates certain operating procedures, gas rates, and return on capital. The Company is subject to rate and earnings reviews by the Commission. St. Joe Natural Gas Company also operates a retail appliance sales and service business serving the geographic area that is not under the regulatory authority of the Commission. In 2010 the company began the infrastructure for a LP gas business that will begin service in 2011 as a non-regulated utility business.

# Property, Plant, and Equipment

The natural gas utility plant is recorded at cost, and includes an allocation of administrative and general costs, payroll costs, and construction-related costs. Maintenance and repairs of plant, and replacements considered to be minor, are charged direct to operating expenses.

Depreciation is computed in accordance with rates approved by the Florida Public Service Commission on a straight-line basis, with service lives ranging from 5 years to 40 years.

We review property and equipment, and amortizable intangible assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Recoverability of these assets is measured by comparison of their carrying amounts to future undiscounted cash flows the assets are expected to generate. If the assets are considered to be impaired, an impairment charge will be recognized equal to the amount by which the carrying value of the asset exceeds its fair value. At December 31, 2010, we owned no impaired assets.

#### Accounts Receivable

Receivables are stated at their gross value, and include receivables for gas sales, services and appliance sales. The company did not use an allowance for doubtful accounts. Because of the company policy to require deposits for gas sales, ordinarily bad debt amounts related to gas sales, if any, are not material and are written off as incurred. Bad debts and uncollectible accounts related to non-regulated appliance sales and service are written off as incurred.

#### Inventories

Inventories consisting of supplies, replacements parts, and merchandise for resale are stated at the lower of cost or market. Cost is determined using the first-in, first-out valuation method. A point of sale system is used to account for retail appliance inventories

#### Note 1 Summary of Significant Accounting Policies, continued

#### Income Taxes

Deferred income taxes are recognized in accordance with the provisions of SFAS 109, for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be recovered or settled. The effect on deferred taxes of a change in tax rate is recognized in income in the period that includes the enactment date. There are no tax positions taken by the Company that would require disclosure under FIN 48, Accounting for Uncertainty in Income Taxes in the years 2009 and 2010.

#### Cash

For the purposes of cash flows, the Company considers all highly liquid debt instrument purchases with a maturity of ninety days or less to be cash equivalents. The carrying amount of these instruments approximates fair value because of their short maturity.

#### Use of Estimates

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. Our estimates, judgments and assumptions are continually evaluated based on available information and experiences; however, actual amounts could differ from those estimates.

# Asset Retirement Obligations

SFAS and PSC rule requires utilities to determine if they have any assets meeting the criteria to recognize asset retirement obligations.

A review of the SJNG assets including casements and right of way agreements does not indicate any legal obligation to remove, or a time frame or expiration of agreement requiring removal of plant or equipment.

Any future requirement to remove gas distribution systems cannot be determined as to the point in time that this would be required, nor can a cost of removal be reasonably determined, nor that substantial removal would be required.

Therefore SJNG is not recognizing any asset retirement obligations under SFAS 143 for the years ending 2010 and 2009.

#### Subsequent Events

In preparing these financial statements, we have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

# Advertising

The Company expenses advertising costs as incurred. In the year ended December 31, 2010, the Company incurred and expensed \$6,769 in advertising costs.

# Compensated Absences

The Company has not accrued compensated absences because the amount cannot be reasonably estimated, and is not considered material

# Note 2 Natural gas sales

Natural gas sales to large commercial customers have declined over the past seven years due to changes in the local industrial economy. Sales to small and large commercial accounts are approximately 23% of total gas revenue for 2010 and 24% for 2009. The majority of natural gas sales are to the residential market.

#### Note 5 Deferred Credits

The deferred credit consists of prepaid gas accounts for Florida Coast Paper Company, LLC and Gulf Correctional Institute. Because of the closure and bankruptcy of Florida Coast Paper Company, LLC, and in accordance with the terms of the agreement dated September 8, 1997, the prepaid gas account is no longer accessible by Florida Coast Paper Company, LLC. The resulting balance of the prepaid gas account reverts to income to St. Joe Natural Gas Company, Inc. Under Florida Public Service Commission order PSC-01-1274-PAA-GU, the deferred income amount will be included in income equitably over the next 31 years. In accordance with SFAS71, income will be recognized for financial statement presentation the same as for regulatory purposes. The income amount recognized for 2010 and 2009 was \$50,922 annually

### GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 812)

1. Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to operating expenses or other accounts for the cost of gas from the respondent's own supply
2. Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas.
3. If the reported Therms for any use is an estimated quantity, state such fact in a footpote.

4. If any natural gas was used by the respondent for which a change was not made to the appropriate operating expense or other account, list separately in column (c) the Therms of gas used, omitting entries in columns (d) and (e).

5. Report pressure base of measurement of gas volumes at 14.73 psia at 60 degrees F.
