Independent Auditors' Report

Board of Directors and Stockholders Chesapeake Utilities Corporation

We have audited the accompanying financial statements of Chesapeake Utilities Corporation – Florida Division, which comprise the balance sheets - regulatory basis as of December 31, 2016 and 2015, and the related statements of income - regulatory basis for each of the two years in the period ended December 31, 2016 and the statement of retained earnings - regulatory basis for the year ended December 31, 2016, and the related notes to the financial statements, included on pages 6 through 11 of the accompanying Annual Report of Natural Gas Utilities, as filed with the Florida Public Service Commission.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Florida Public Service Commission, which is substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and proprietary capital of Chesapeake Utilities Corporation – Florida Division as of December 31, 2016 and 2015, and its income and expenses for the years then ended in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases described in Note 1.

Regulatory Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. As described in Note 1 to the financial statements, the financial statements are prepared by Chesapeake Utilities Corporation – Florida Division on the basis of the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Restriction on Use

Our report is intended solely for the information and use of the board of directors and management of Chesapeake Utilities Corporation and Chesapeake Utilities Corporation – Florida Division and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

- Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.).
 Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.
- V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.
- VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.
- VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

- Btu per cubic foot The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)
- II. Respondent The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

OFFICERS

Report below the name, title and salary for each executive officer whose salary is \$50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policymaking functions.
 If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous

incumbent, and date the change in incumbency was made.

Title	Name of Officer	Salary for	Year
(a)	(b)	(c)	
President and Chief Executive Officer	Michael P. McMasters	\$	37,784
Senior Vice President	Stephen C. Thompson	\$	3,387
Senior Vice President, Chief Financial Officer	Beth W. Cooper	\$	18,479
Senior Vice President	Elaine B. Bittner	\$	12,792
President	Jeffry M. Householder	\$	55,358
Vice President	Naimul Islam	\$	12,399
Treasurer	Thomas E. Mahn	\$	10,443
Vice President	John J. Lewnard	\$	17,759
Vice President	Mark Eisenhower	\$	17,594
Assistant Vice President	Nicole T. Carter	\$	20,862
Assistant Vice President	Devon S. Rudloff	\$	12,607
Vice President	James F. Moriarty	\$	17,199
Vice President	Vikrant A. Gadgil	\$	15,603
Assistant Vice President	Joseph D. Steinmetz	\$	11,822
Note: The salaries above represent only that portion allocated to the Florida Division of Chesapeake Utilities Corporation.			

DIRECTORS

 Report below the information called for concerning each director of the respondent who held office at any time during the year. Include in column (a) abbreviated titles of the directors who are officers of the respondent. Designate members of the Executive Committee by an asterisk and the Chairman of the Executive Committee by a double asterisk.

SECURITY HOLDERS AND VOTING POWERS

- 1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.
- If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became

vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent if contingent, describe the contingency.

- 3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
- 4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders.

The Florida division of Chesapeake , as a division, has no outstanding shares of common stock. Shareholder information for Chesapeake may be obtained through: Beth Cooper, Senior Vice President, CFO 909 Silver Lake Boulevard Dover, Delaware 19904							

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none" "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions.
- Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required.
- 3. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased also the approximate number of customers added or lost and approximate annual revenues of each class of service.
- 4. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 5. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.

STATEMENT OF INCOME

- 1. Use page 11 for important notes regarding the statement of income or any account thereof.
- 2. Give concise explanations on page 11 concerning significant amounts of any refunds made or received during the year.
- Enter on page 11 a concise explanation of only those changes in accounting methods made during the yea

which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.

Explain in a footnote if the previous year's figures are different from that reported in prior reports

those	changes in accounting methods made during the year	are different from that reported in prior reports.

STATEMENT OF RETAINED EARNINGS

- 1. Report all changes in appropriated retained earnings, and unappropriated retained earnings for the year.
- 2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
- 3. State the purpose and amount for each reservation or appropriation of retained earnings.
- 4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.

- 5. Show dividends for each class and series of capital stock.
- 6. Show separately the state and federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
- 7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.

8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 11.

1. Organization and Basis of Presentation

The Florida Division ("we" or "CFG") of Chesapeake Utilities Corporation ("Chesapeake Utilities") is engaged in the distribution of natural gas. We provide only unbundled delivery service. We serve approximately 16,800 residential, commercial and industrial customers in Polk, Osceola, Citrus, DeSoto, Hillsborough, Holmes, Jackson, Gadsden, Gilchrist, Union, Washington and Suwannee counties in Florida. Our rates and services are subject to regulation by the Florida Public Service Commission ("FPSC").

Our financial statements are prepared in conformity with the accounting requirements of the FPSC, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission ("FERC") as set forth in the applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("US GAAP"). The accounting requirements of the FPSC and the FERC applied by us in these financial statements are consistent with US GAAP, except for:

- lack of reclassification of certain negative balances on the balance sheets;
- the presentation of deferred income tax assets and liabilities separately rather than as a single amount;
- the presentation of cost of removal as a component of accumulated depreciation rather than as a regulatory liability;
- · lack of detail property, plant and equipment component costs disclosure;
- lack of detail regulatory assets and liability disclosure;
- the omission of the statements of cash flows; and
- the omission of the statement of retained earnings for prior year for a comparative presentation.

Our financial statements include the accounts of the Florida Division of Chesapeake Utilities. We do not have any ownership interest in investments accounted for using the equity method or any variable interests in a variable interest entity. We have assessed and reported on subsequent events through August 30, 2017, the date these financial statements are available to be issued.

2. Summary of Significant Accounting Policies

Use of Estimates

Our financial statements are prepared based on the accounting requirements of the FPSC and the FERC, which require management to make estimates in measuring assets and liabilities and related revenues and expenses. These estimates involve judgments with respect to, among other things, various future economic factors that are difficult to predict and are beyond our control; therefore, actual results could differ from those estimates.

Utility Plant

Utility plant is stated at the lower of original cost less accumulated depreciation or fair value, if impaired. Costs include direct labor, materials and third-party construction contractor costs, allowance for funds used during construction ("AFUDC") and certain indirect costs related to equipment and employees engaged in construction. The costs of repairs and minor replacements are charged to expense as incurred, and the costs of major renewals and betterments are capitalized. Upon retirement or disposition of utility property, the gain or loss, net of salvage value, is charged to accumulated depreciation.

Customer contributions or advances in aid of construction reduce property, plant and equipment, unless the amounts are refundable to customers. Contributions or advances may be refundable to customers after a number of years based on the amount of revenues generated from the customers or the duration of the service provided to the customers. Refundable contributions or advances are recorded initially as liabilities. The amounts that are determined to be non-refundable reduce property, plant and equipment at the time of such determination. During the year ended December 31, 2016 and 2015, there were no non-refunded contributions or advances reducing property, plant and equipment.

AFUDC represents the estimated cost of funds, from both debt and equity sources, used to finance the construction of major projects. AFUDC is capitalized in rate base for rate making purposes when the completed projects are placed in service. We did not capitalize AFUDC on utility plant for the years ended December 31, 2016 and 2015, respectively.

Depreciation

We compute depreciation expense by applying composite, annual rates, as approved by the FPSC. Depreciation and amortization expenses are provided at an annual average rate of 3.0 percent in 2016 and 2015.

In accordance with the accounting requirements of the FERC, we include the accretion of the cost of removal for future retirements of utility assets as depreciation expense. For the years ended December 31, 2016 and 2015, \$326,525 and \$297,539, respectively, of such accretion was included in depreciation expense. We also report certain depreciation expense, mainly related to vehicle, computer software and hardware, in operations expense rather than depreciation expense to comply with the accounting requirements of the FERC. For the years ended December 31, 2016 and 2015, \$92,117 and \$98,549, respectively, of such depreciation was reported as operations expense.

Asset Impairment Evaluations

We periodically evaluate whether events or circumstances have occurred which indicate that other long-lived assets may not be fully recoverable. When such events or circumstances are present, we record an impairment loss equal to the excess of the assets' carrying value over its fair value if any.

In May 2015, we recorded a gain of \$125,566 as a result of a settlement agreement that Chesapeake Utilities entered into with a vendor related to the implementation of a customer billing system. Pursuant to the agreement, Chesapeake Utilities received \$1.5 million in cash. Previously, at December 31, 2014, we recorded a \$737,365 pre-tax, non-cash impairment loss related to the same billing system implementation. This impairment was part of the \$6.5 million impairment loss recorded by Chesapeake Utilities and represented all of the capitalized costs associated with this project allocated to us. The gain from the settlement agreement is included in operation expenses in the accompanying statements of income. In May 2016, Chesapeake Utilities received an additional \$650,000 in cash from the vendor, of which \$22,695 was allocated to us, however, the retention of this amount is contingent upon engaging this vendor to provide agreed upon services through May 2020. We are also considering other options to recover the remaining costs of the impairment, including regulatory proceedings. We will establish a regulatory asset if future recovery through rates is probable.

Regulated Operations

We account for our operations in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 980, "Regulated Operations." This Topic includes accounting principles for companies whose rates are determined by independent third-party regulators. When setting rates, regulators often make decisions, the economics of which require companies to defer costs or revenues in different periods than may be appropriate for unregulated enterprises. When this situation occurs, a regulated company defers the associated costs as regulatory assets on the balance sheet and records them as expense on the income statement as it collects revenues. Further, regulators can also impose liabilities upon a regulated company for amounts previously collected from customers, and for recovery of costs that are expected to be incurred in the future, as regulatory liabilities. If we were required to terminate the application of these regulatory provisions to our operations, all such deferred amounts would be recognized in the statement of income at that time, which could have a material impact on our financial position, results of operations and cash flows.

We monitor our regulatory and competitive environment to determine whether the recovery of our regulatory assets continues to be probable. If we were to determine that recovery of these assets is no longer probable, we would write off the assets against earnings. We believe that provisions of ASC Topic 980, "Regulated Operations," continue to apply to our operations and that the recovery of our regulatory assets is probable.

Revenue Recognition

Our operating revenues are based on rates approved by the FPSC. We read meters and bill customers on monthly cycles that do not coincide with the accounting periods used for financial reporting purposes. We accrue unbilled revenues for natural gas that has been delivered, but not yet billed, at the end of an accounting period to the extent that they do not coincide.

We do not have any purchased fuel cost adjustments included in our revenues because we provide unbundled delivery service to our customers, whereby our customers are permitted to purchase their gas requirements directly from competitive natural gas marketers.

Operations and Maintenance Expenses

Operations and maintenance expenses are costs associated with the operation and maintenance of our business. Major cost components include operation and maintenance salaries and benefits, materials and supplies, usage of vehicles, tools and equipment, payments to contractors, utility plant maintenance, customer service, professional fees and other outside services, insurance expense, minor amounts of depreciation and other administrative expenses.

Cash and Cash Equivalents

Our cash is held in Chesapeake Utilities' name. Chesapeake Utilities' policy is to invest cash in excess of operating requirements in overnight income producing accounts. Investments with an original maturity of three months or less when purchased are considered cash equivalents.

Accounts Receivable and Accumulated Provision for Uncollectible Accounts

Accounts receivable consist primarily of amounts due for distribution sales of natural gas to customers. An allowance for doubtful accounts is recorded against amounts due to reduce the receivables balance to the amount we reasonably expect to collect based upon our collections experiences and our assessment of customers' inability or reluctance to pay. If circumstances change, our estimates of recoverable accounts receivable may also change. Circumstances which could affect such estimates include, but are not limited to, customer credit issues and general economic conditions. Accounts are written off when they are deemed to be uncollectible.

Inventories

We use the average cost method to value materials and supplies inventory. If market prices drop below cost, inventory balances that are subject to price risk are adjusted to market values.

Pension and Other Postretirement Plans

Pension and other postretirement plan costs and liabilities are determined on an actuarial basis and are affected by numerous assumptions and estimates, including the fair value of plan assets, estimates of the expected returns on plan assets, assumed discount rates, the level of contributions made to the plans, and current demographic and actuarial mortality data. Chesapeake Utilities' management annually reviews the estimates and assumptions underlying our pension and other postretirement plan costs and liabilities with the assistance of third-party actuarial firms.

The assumed discount rates, expected returns on plan assets and the mortality assumptions are the factors that generally have the most significant impact on our pension costs and liabilities. The assumed discount rates, health care cost trend rates and rates of retirement generally have the most significant impact on our postretirement plan costs and liabilities. A 0.25 percent decrease in the discount rate could increase Chesapeake Utilities' annual pension and postretirement costs by approximately \$19,000, and a 0.25 percent increase could decrease Chesapeake Utilities' annual pension and postretirement costs by approximately \$20,000. A 0.25 percent decrease in the rate of return could increase Chesapeake Utilities' annual pension cost by approximately \$22,000, and a 0.25 percent increase could decrease Chesapeake Utilities' annual pension cost by approximately \$21,000 and would not have an impact on the postretirement and supplemental executive retirement plans because these plans are not funded.

Income Taxes and Investment Tax Credit Adjustments

Deferred tax assets and liabilities are recorded for the income tax effect of temporary differences between the financial statement basis and tax basis of assets and liabilities and are measured using the enacted tax rates in effect in the years in which the differences are expected to reverse. The portions of our deferred tax liabilities, which have not been reflected in current service rates, represent income taxes recoverable through future rates. Deferred tax assets are recorded net of any valuation allowance when it is more likely than not that such tax benefits will be realized. Investment tax credits on utility property have been deferred and are allocated to income ratably over the lives of the subject property.

We account for uncertainty in income taxes in the financial statements only if it is more likely than not that an uncertain tax position is sustainable based on technical merits. Recognizable tax positions are then measured to determine the amount of benefit recognized in the financial statements. We recognize penalties and interest related to unrecognized tax benefits as a component of other income.

Financial Instruments

Financial assets and liabilities with carrying values approximating fair value include accounts receivable, accounts payable and other accrued liabilities.

FASB Statements and Other Authoritative Pronouncements

Recently Adopted Accounting Standards

Presentation of Financial Statements—Going Concern (ASC 205-40) - In August 2014, the FASB issued Accounting Standards Update ("ASU") 2014-15, Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern. ASU 2014-15 requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued or are available to be issued. An entity must provide certain disclosures if conditions or events raise substantial doubt about the entity's ability to continue as a going concern. ASU 2014-15 was effective for us beginning with the first quarter of 2017. The adoption of this guidance had no impact on our financial position or results of operations.

Intangibles-Goodwill and Other-Internal-Use Software (ASC 350-40) - In April 2015, the FASB issued ASU 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement. Under the new standard, unless a software arrangement includes specific elements enabling customers to possess and operate software on platforms other than that offered by the cloud-based provider, the cost of such arrangements is to be accounted for as an operating expense in the period incurred. ASU 2015-05 became effective for us on January 1, 2016, and has been applied on a prospective basis. The application of this standard did not have a material impact on our financial position or results of operations.

Fair Value Measurement (ASC 820) - In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value practical expedient in ASC 820. We adopted ASU 2015-07 on January 1, 2016 on a retrospective basis, by excluding such investments from the fair value hierarchy table for pension plan assets. See Note 7, Employee Benefit Plans, for fair value measurement information related to our pension plan assets.

Compensation-Stock Compensation (ASC 718) - In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting*, which simplifies several aspects of accounting for employee share-based payment transactions, including accounting for income taxes, forfeitures, and statutory tax withholding requirements, and classification in the statement of cash flows. Most significantly, entities are required to recognize all excess tax benefits and deficiencies related to the exercise or vesting of stock compensation as income tax expense or benefit in the income statement. ASU 2016-09 will be effective for our annual financial statements beginning January 1, 2017; however, we have elected early adoption. Effective December 31, 2016, on a prospective basis, we recognized excess tax benefits related to the exercise and vesting of stock compensation as income tax expense rather than in additional paid-in capital. We do not have any previously unrecognized excess tax benefits which require a cumulative effect adjustment upon adoption. The adoption of the standard did not have a material impact on our financial position or results of operations.

Recent Accounting Standards Yet to be Adopted

Revenue from Contracts with Customers (ASC 606) - In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. This standard provides a single comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, as well as across industries and capital markets. The standard contains principles that entities will apply to determine the measurement of revenue and when it is recognized. In March 2016, FASB issued ASU 2016-08, Principal versus Agent Considerations (Reporting Revenue Gross versus Net), to clarify the implementation guidance on principal versus agent considerations. For non-public entities, this standard is effective for our annual financial statements issued beginning January 1, 2019 with early adoption permitted. We have elected to early adopt the standard beginning January 1, 2018.

In preparation for the adoption of this standard, we have analyzed our existing businesses and revenue streams and have prepared a preliminary gap analysis between our current revenue policies and the requirements under the new revenue recognition standard. We are in the process of evaluating each revenue stream under the new standard, expanding the contract sampling, creating new policies and evaluating the enhanced disclosure requirements. We will provide additional training to our employees and develop processes and system changes associated with the implementation of the new standard, and we will then implement the standard. We plan to utilize the modified retrospective transition method upon adoption of this standard.

Based on our assessment, we do not believe the new standard will impact the recognition of revenue from a majority of our customers. However, we have just begun to evaluate our long term special contracts, and may find facts and circumstances in those contracts that could impact the timing of the recognition of revenue. As we continue to execute our plan related to this standard, we will be in a better position to quantify the full impact of this standard.

Inventory (ASC 330) - In July 2015, the FASB issued ASU 2015-11, Simplifying the Measurement of Inventory. Under this guidance, inventories are required to be measured at the lower of cost or net realizable value. Net realizable value represents the estimated selling price less costs associated with completion, disposal and transportation. ASU 2015-11 will be effective for our interim and annual financial statements issued beginning January 1, 2017 although early adoption is permitted. The standard is to be adopted on a prospective basis. We are assessing the impact this standard may have on our financial position and results of operations.

Leases (ASC 842) - In February 2016, the FASB issued ASU 2016-02, Leases, which provides updated guidance regarding accounting for leases. This update requires a lessee to recognize a lease liability and a lease asset for all leases, including operating leases, with a term greater than 12 months on its balance sheet. The update also expands the required quantitative and qualitative disclosures surrounding leases. ASU 2016-02 will be effective for our annual financial statements beginning January 1, 2020, and we plan to early adopt beginning January 1, 2018. This update will be applied using a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. We are evaluating the effect this update may have on our financial position and results of operations.

3. Transaction with Affiliates

We utilize Chesapeake Utilities' short-term borrowing facility and long-term debt to finance our capital requirements. The excess cash generated above our operating cash requirement is held in Chesapeake Utilities' name. We are allocated a portion of interest expense on Chesapeake Utilities' short-term borrowing facility and long-term debt and interest income generated from our excess cash held in Chesapeake Utilities' name. Chesapeake Utilities allocated a net interest expense of \$936,996 and \$888,650 for the years ended December 31, 2016 and 2015, respectively.

At December 31, 2016 and 2015, we had a net advance from Chesapeake Utilities and its affiliates of \$14,994,381 and \$12,411,802, respectively. These amounts are reflected as accounts receivable from associated companies and accounts payable to associated companies in the accompanying financial statements.

Chesapeake Utilities provides us with administrative and support services. These services include certain managerial, accounting, information technology, payroll, human resources and treasury. For the years ended December 31, 2016 and 2015, Chesapeake Utilities and subsidiaries charged us \$2,809,430 and \$2,742,149, respectively, for these services. Chesapeake Utilities also provides us with shared services which include safety and customer care services. For the years ended December 31, 2016 and 2015, Chesapeake Utilities and subsidiaries charged us \$1,234,114 and \$1,396,568, respectively, for these services.

Florida Public Utilities ("FPU") provides us with administrative and support services. These services include certain managerial, accounting, information technology, payroll, human resources and treasury services. For the years ended December 31, 2016 and 2015, FPU charged us \$3,650,799 and \$6,896,296, respectively, for these services.

We provide billing and certain customer service functions to Peninsula Energy Services Company, Inc. ("PESCO"), a natural gas marketing affiliate. We charged PESCO \$207,654 and \$221,611 for the years ended December 31, 2016 and 2015, respectively, for these services.

4. Income Taxes

We are included in the Chesapeake Utilities consolidated federal income tax return, along with all of Chesapeake Utilities' other divisions and subsidiaries. Chesapeake Utilities' federal income tax returns for tax years after 2012 are subject to examination. We also file state income tax returns in Florida as part of Chesapeake Utilities. Income taxes are allocated to us based on our taxable income and tax credits as if we were a separate taxpayer. State income tax returns for Chesapeake Utilities for tax years after 2012 are subject to examination.

Chesapeake Utilities had a net operating loss for federal income tax purposes as of December 31, 2016 of \$13,981,202, which Chesapeake Utilities will carry back two years, and none as of December 31, 2015. Chesapeake Utilities had state net operating losses of \$2,130,830 in the state of Florida as of December 31, 2015 and none at December 31, 2016. We recorded a deferred tax asset of \$9,937, related to state net operating loss carry-forwards at December 31, 2015 and none at December 31, 2016.

The components of federal and state income tax expense are:

For the Year Ended December 31,	2016	2015
Current	\$ (100,061) \$	(828,435)
Deferred	2,050,132	2,523,076
Investments tax credits, net	(19,524)	(19,524)
	\$ 1,930,547 \$	1,675,117

Deferred income tax expense results primarily from the use of accelerated depreciation for tax purposes.

Total income tax expense results primarily from applying the federal income tax statutory rate to book income before tax.

For the Year Ended December 31,	 2016	2015
Federal income tax expense, 35% in 2016 and 2015	\$ 1,775,743 \$	1,503,830
State income taxes, net of federal tax benefit	181,379	153,605
Other	(26,575)	17,682
	\$ 1,930,547 \$	1,675,117

Deferred tax assets and liabilities at December 31, 2016 were \$1,268,879 and \$17,736,257, respectively. Deferred tax assets and liabilities at December 31, 2015 were \$1,264,230 and \$15,684,855, respectively. Deferred tax assets and liabilities are primarily the result of depreciation-related timing differences.

5. Customer Concentration

We operate entirely in the natural gas distribution business. Our operations include the transportation of natural gas in intra-state commerce. We did not have any customer that accounted for 10 percent or more of our revenue for the years ended December 31, 2016 and 2015.

6. Lease Obligations

We have operating lease arrangements for facilities. These arrangements have no minimum lease payments. Rent expense related to these leases was not material for the years ended December 31, 2016 and 2015.

We have entered into a lease agreement for pipeline assets owned by a commercial customer for use in providing service to that party. We recover the amounts paid through the operational balancing account mechanism of the FPSC's ongoing purchased gas cost recovery proceedings. Payments related to this lease were \$134,392, for the years ended December 31, 2016 and 2015. Future minimum lease payments under this lease are \$134,392 for each of 2017 and 2018 and \$100,794 for 2019, with an aggregate total of \$369,578.

7. Employee Benefit Plans

Our eligible employees participate in various benefit plans sponsored by Chesapeake Utilities. Chesapeake Utilities allocates to us a portion of the benefit costs associated with these plans. Our share of the costs is based on a portion of the benefits related to providing services to us. For the years ended December 31, 2016 and 2015, we recorded the benefit costs of \$290,656 and \$265,359, respectively, related to these plans.

Chesapeake Utilities sponsors a defined benefit pension plan ("Chesapeake Utilities Pension Plan"), an unfunded pension supplemental executive retirement plan ("Chesapeake Utilities SERP"), and an unfunded postretirement health care and life insurance plan ("Chesapeake Utilities Postretirement Plan"). Chesapeake Utilities also sponsors other pension and postretirement plans for eligible employees of a specific subsidiary, which our eligible employees cannot participate.

Chesapeake Utilities measures the assets and obligations of the defined benefit pension plans and other postretirement benefits plans to determine the plans' funded status as of the end of the year as an asset or a liability on Chesapeake Utilities' consolidated balance sheets. A portion of this asset or liability related to us is reflected on our balance sheet. At December 31, 2016 and 2015, \$449,269 and \$408,333, respectively, of the pension and postretirement benefit liabilities were assigned to us.

Defined Benefit Pension Plans

The Chesapeake Utilities Pension Plan was closed to new participants effective January 1, 1999, and was frozen with respect to additional years of service and additional compensation effective January 1, 2005. Benefits under the Chesapeake Utilities Pension Plan were based on each participant's years of service and highest average compensation, prior to the freezing of the plan.

The Chesapeake Utilities SERP was frozen with respect to additional years of service and additional compensation as of December 31, 2004. Benefits under the Chesapeake Utilities SERP were based on each participant's years of service and highest average compensation, prior to the freezing of the plan.

The following schedule sets forth the funded status of the Chesapeake Utilities Pension Plan at December 31, 2016 and 2015:

At December 31,	2016	2015
(in thousands)		
Change in benefit obligation:		
Benefit obligation — beginning of year	\$11,501	\$11,981
Interest cost	421	407

Assumptions:		
Discount rate	3.75%	3.75%
Expected return on plan assets	6.00%	6.00%

Net periodic pension cost for the Chesapeake Utilities Pension Plan for 2016 and 2015 include the components shown below:

For the Years Ended December 31,	2016	2015
(in thousands)		
Components of net periodic pension cost:		
Interest cost	\$421	\$407
Expected return on assets	(501)	(530)
Amortization of actuarial loss	459	392
Settlement expense	161	-
Net periodic pension cost	\$540	\$269
Assumptions:		
Discount rate	3.75%	3.50%
Expected return on plan assets	6.00%	6.00%

The following sets for the funded status at December 31, 2016 and 2015 for the Chesapeake Utilities SERP:

At December 31,	2016	2015
(in thousands)		
Change in benefit obligation:		
Benefit obligation — beginning of year	\$2,510	\$2,650
Interest cost	91	91
Actuarial gain	(21)	(85)
Benefits paid	(152)	(146)
Benefit obligation — end of year	2,428	2,510
Change in plan assets:		
Fair value of plan assets — beginning of year	-	-
Employ er contributions	152	146
Benefits paid	(152)	(146)
Fair value of plan assets — end of year		-
Reconciliation:		
Funded status	(2,428)	(2,510)
Accrued pension cost	(\$2,428)	(\$2,510)
Assumptions:		
Discount rate	3.75%	3.75%

Net periodic pension costs for the Chesapeake Utilities SERP for 2016 and 2015 include the components shown below:

For the Years Ended December 31,	2016	2015	
(in thousands)			
Components of net periodic pension cost:			
Interest cost	\$91	\$91	
Amortization of prior service cost	-	9	
Amortization of actuarial loss	87	99	
Net periodic pension cost	\$178	\$199	
Assumptions:			
Discount rate	3.75%	3.50%	

Chesapeake Utilities' funding policy provides that payments to the trustee of each plan shall be equal to at least the minimum funding requirements of the Employee Retirement Income Security Act of 1974. The following schedule summarizes the assets of the Chesapeake Utilities Pension Plan, by investment type, at December 31, 2016 and 2015:

At December 31,	2016	2015
Asset Category		
Equity securities	52.93%	48.01%
Debt securities	37.64%	39.62%
Other	9.43%	12.37%
Total	100.00%	100.00%

The investment policy for the Chesapeake Utilities Pension Plan is designed to provide the capital assets necessary to meet its financial obligations. The investment goals and objectives for the Chesapeake Utilities Pension Plan are to achieve investment returns that, together with contributions, will provide funds adequate to pay promised benefits to present and future beneficiaries, earn a long-term investment return in excess of the growth of the retirement liabilities, minimize pension expense and cumulative contributions resulting from liability measurement and asset performance, and maintain a diversified portfolio to reduce the risk of large losses.

The following allocation range of asset classes is intended to produce a rate of return sufficient to meet the Chesapeake Utilities Pension Plan's goals and objectives:

Damaantaga	Allocation
Percentage	Percentage
14%	32%
13%	25%
26%	40%
6%	14%
7%	19%
0%	5%
	13% 26% 6% 7%

Due to periodic contributions and different asset classes producing varying returns, the actual asset values may temporarily move outside of the intended ranges. The investments are monitored on a quarterly basis, at a minimum, for asset allocation and performance.

At December 31, 2016 and 2015, the assets of the Chesapeake Utilities Pension Plan were comprised of the following investments:

	Fair Value Measurement Hierarchy							
	December 31, 2016			December 31, 2015

⁽¹⁾ Includes funds that invest primarily in United States common stocks.

⁽²⁾ Includes funds that invest primarily in foreign equities and emerging markets equities.

⁽³⁾ Includes funds that actively invest in both equity and debt securities, funds that sell short securities and funds that provide long-term capital appreciation. The funds may invest in debt securities below investment grade.

⁽⁴⁾ Includes funds that invest in investment grade and fixed income securities.

⁽⁵⁾ Includes funds that invest primarily in commodity-linked derivative instruments and fixed income securities.

⁽⁶⁾ Includes funds that invest primarily in real estate.

⁽⁷⁾ Includes investment in a group annuity product issued by an insurance company.

⁽⁸⁾ Certain investments that were measured at net asset value per share have not been classified in the fair value hierarchy. These amounts are presented to reconcile to total pension plan assets.

At December 31, 2016 and 2015, all of the investments classified under Level 1 of the fair value measurement hierarchy were recorded at fair value based on unadjusted quoted prices in active markets for identical investments. The Level 2 investments were recorded at fair value based on net asset value per unit of the investments, which used significant observable inputs although those investments were not traded publicly and did not have quoted market prices in active markets. The Level 3 investments were recorded at fair value based on the contract value of annuity products underlining guaranteed deposit accounts, which was calculated using discounted cash flow models. The contract value of these products represented deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The following table sets forth the summary of the changes in the fair value of Level 3 investments for the Chesapeake Utilities Pension Plan for years ended December 31, 2016 and 2015:

For the Years Ended December 31,	2016	2015	
(in thousands)			
Balance, beginning of year	\$454	\$336	
Purchases	389	451	
Transfers in	268	199	
Disbursements	(1,016)	(534)	
Investment Income	8	2	
Balance, end of year	\$103	\$454	

Other Postretirement Benefits Plan

The following schedule sets forth the status of Chesapeake Utilities Postretirement Plan:

At December 31,	2016	2015
(in thousands)		
Change in benefit obligation:		
Benefit obligation — beginning of year	\$1,153	\$1,238
Interest cost	43	42
Plan participants contributions	90	108
Actuarial loss (gain)	20	(58)
Benefits paid	(174)	(177)
Benefit obligation — end of year	1,132	1,153
Change in plan assets:		
Fair value of plan assets — beginning of year	-	-
Employer contributions	84	69
Plan participants contributions	90	108
Benefits paid	(174)	(177)
Fair value of plan assets — end of year	_	<u> </u>
Reconciliation:		
Funded status	(1,132)	(1,153)
Accrued postretirement cost	(\$1,132)	(\$1,153)
Assumptions:		
Discount rate	3.75%	3.75%

Net periodic postretirement benefit costs for the Chesapeake Utilities Postretirement Plan for 2016 and 2015 include the following components:

For the Years Ended December 31,	2016	2015
(in thousands)		
Components of net periodic postretirement cost:		
Interest cost	\$43	\$42
Amortization of:		
Actuarial loss	64	72
Prior service cost	(77)	(77)
Net periodic postretirement cost	\$30	\$37
Assumptions		
Discount rate	3.75%	3.50%

Chesapeake Utilities records as a component of other comprehensive income/loss the changes in funded status that occurred during the year that are not recognized as part of net periodic benefit costs. The following table presents the amounts not yet reflected in net periodic benefit cost and included in Chesapeake Utilities' accumulated other comprehensive income/loss related to the above plans as of December 31, 2016:

	Cl	nesapeake			(Chesapeake	
		Pension	C	hesapeake	Po	stretirement	
(in thousands)		Plan		SERP		Plan	Total
Prior service credit	\$	-	\$	-	\$	(678)	\$ (678)
Net loss		4,223		757		748	5,728
Total unrecognized cost	\$	4,223	\$	757	\$	70	\$ 5,050

The amounts in accumulated other comprehensive income/loss for the above plans sponsored by Chesapeake Utilities that are expected to be recognized as a component of net benefit cost in 2017 are set forth in the following table:

	s apeake ension	C	hesapeake	Chesapeake stretirement	
(in thousands)	Plan		SERP	Plan	Total
Prior service credit	\$ -	\$	-	\$ (77)	\$ (77)
Net loss	\$ 426	\$	87	\$ 65	\$ 578

Assumptions

The assumptions used for the discount rate to calculate the benefit obligations of all the plans were based on the interest rates of high-quality bonds in 2016, reflecting the expected lives of the plans. In determining the average expected return on plan assets for the Chesapeake Utilities Pension Plan, various factors, such as historical long-term return experience, investment policy and current and expected allocation, were considered. Since the Chesapeake Utilities Pension Plan is frozen with respect to additional years of service and compensation, the rate of assumed compensation increases is not applicable.

The health care inflation rate for 2016 used to calculate the benefit obligation is 5.0 percent for medical and 6.0 percent for prescription drugs for the Chesapeake Utilities Postretirement Plan. A one-percentage point increase in the health care inflation rate from the assumed rate would increase the accumulated postretirement benefit obligation by approximately \$177,000 as of December 31, 2016, and would increase the aggregate of the service cost and interest cost components of the net periodic postretirement benefit cost for 2016 by approximately \$7,000. A one-percentage point decrease in the health care inflation rate from the assumed rate would decrease the accumulated postretirement benefit obligation by approximately \$132,000 as of December 31, 2016, and would decrease the aggregate of the

service cost and interest cost components of the net periodic postretirement benefit cost for 2016 by approximately \$5,000.

Estimated Future Benefit Payments

Chesapeake Utilities expects to contribute \$323,000, \$151,000 and \$83,000, to the Chesapeake Utilities Pension Plan, Chesapeake Utilities SERP and Chesapeake Utilities Postretirement Plan, respectively, during 2017. The schedule below shows the estimated future benefit payments for each of the Chesapeake Utilities plans previously described:

		Chesapeake Pension Chesapeake Plan ⁽¹⁾ SERP ⁽²⁾						
(in thousands)								
2017	\$	746	\$	151	\$	83		
2018	\$	664	\$	150	\$	82		
2019	\$	713	\$	149	\$	82		
2020	\$	649	\$	148	\$	76		
2021	\$	902	\$	376	\$	72		
Years 2022 through 2026	\$	5,020	\$	732	\$	319		

⁽¹⁾ The pension plan is funded; therefore, benefit payments are expected to be paid out of the plan assets.

Retirement Savings Plan

Chesapeake Utilities' 401(k) Retirement Savings Plan is offered to all eligible employees who have completed three months of service, except for employees represented by a collective bargaining agreement that does not specifically provide for participation in the plan, non-resident aliens with no U.S. source income and individuals classified as consultants, independent contractors or leased employees. Chesapeake Utilities matches 100 percent of eligible participants' pre-tax contributions to the Chesapeake Utilities 401(k) Retirement Savings Plan up to a maximum of six percent of the eligible compensation. In addition, Chesapeake Utilities may make a supplemental contribution to participants in the plan, without regard to whether or not they make pre-tax contributions. The employer matching contribution is made in cash and is invested based on a participant's investment directions. Any supplemental employer contribution is generally made in Chesapeake Utilities common stock. With respect to the employer match and supplemental employer contribution, employees are 100 percent vested after two years of service or upon reaching 55 years of age while still employed by Chesapeake Utilities. Employees with one year of service are 20 percent vested and will become 100 percent vested after two years of service. Employees who do not make an election to contribute or do not opt out of the Chesapeake Utilities 401(k) Retirement Savings Plan will be automatically enrolled at a deferral rate of three percent and the automatic deferral rate will increase by one percent per year up to a maximum of six percent. All contributions and matched funds can be invested among the mutual funds available for investment.

Non-Qualified Deferred Compensation Plan

Chesapeake Utilities' executive officers and directors are eligible to participate in the Chesapeake Utilities Corporation Non-Qualified Deferred Compensation Plan.

Executive officers can defer up to 80 percent of their base compensation, cash bonuses or any amount of their stock bonuses (net of required withholdings). Chesapeake Utilities' officers may receive a matching contribution on their cash compensation deferrals up to six percent of their compensation, provided it does not duplicate a match they receive in the Chesapeake Utilities Retirement Savings Plan. Stock bonuses are not eligible for matching contributions. Participants are able to elect the payment of benefits to begin on a specified future date after the election is made in the form of a lump sum or annual installments for two to 15 years.

⁽²⁾ Benefit payments are expected to be paid out of our general funds.

All obligations arising under the Non-Qualified Deferred Compensation Plan are payable from Chesapeake Utilities' general assets, although Chesapeake Utilities has established a Rabbi Trust to informally fund the plan. Deferrals of cash compensation may be invested by the participants in various mutual funds (the same options that are available in the qualified plan). The participants are credited with gains or losses on those investments. Deferred stock compensation may not be diversified. The participants are credited with dividends on Chesapeake Utilities' common stock in the same amount that is received by all other stockholders. Such dividends are assumed to be reinvested into our common stock. Assets held in the Rabbi Trust had a fair value of \$4.9 million and \$3.6 million at December 31, 2016 and 2015, respectively. The assets of the Rabbi Trust are at all times subject to the claims of Chesapeake Utilities' general creditors.

Deferrals of officer base compensation and bonuses and directors' retainers and fees are paid in cash. All deferrals of executive performance shares, which represent deferred stock units, and directors' stock retainers are paid in shares of Chesapeake Utilities' common stock, except that cash is paid in lieu of fractional shares. The value of Chesapeake Utilities' stock held in the Rabbi Trust is classified within the stockholders' equity section of Chesapeake Utilities' consolidated balance sheet and has been accounted for in a manner similar to treasury stock. The amounts recorded under Chesapeake Utilities' Deferred Compensation Plan totaled \$2.4 million and \$1.9 million at December 31, 2016 and 2015, respectively.

8. Share-Based Compensation

One of our executives has been granted share-based awards through Chesapeake Utilities' Stock Incentive Compensation Plan ("SICP"). We record these share-based awards as compensation costs over the respective service period for which services are received in exchange for an award of equity or equity-based compensation. The compensation cost is based primarily on the fair value of the shares awarded, using the estimated fair value of each share on the date it was granted and the number of shares to be issued at the end of the service period.

These awards are based on multi-year performance plans, which are earned based upon the successful achievement of long-term goals, growth and financial results, which comprised both market-based and performance-based conditions or targets. The fair value of each share of stock tied to a performance-based condition or target is equal to the market price of Chesapeake Utilities common stock on the date of the grant. For the market-based conditions, we used the Black-Scholes pricing model to estimate the fair value of each share of market-based award granted.

For the years ended December 31 2016 and 2015, we were allocated \$18,000 and \$24,000, respectively, in total compensation expense related to our officer that participates in Chesapeake Utilities' share-based compensation plan.

As of December 31, 2016, there were 539,374 shares reserved for issuance under the Chesapeake Utilities SICP. The intrinsic value of these awards to our officer was \$970,000 and \$935,000 for 2016 and 2015, respectively. At December 31, 2016 there was \$278,000 of unrecognized compensation cost related to these awards, which is expected to be recognized during 2017 and 2018.

9. Rates and Other Regulatory Activities

In April 2016, we and FPU's natural gas divisions filed a joint petition for approval to allow us and FPU to expand the cost allocation of the intrastate and unreleased capacity-related components currently embedded in the purchased gas adjustment and operational balancing account, which is currently allocated to a limited number of customers. The expanded allocation of these costs includes additional customers, primarily transportation customers, benefiting from these costs but not currently paying for them. This petition was approved by the FPSC at its Agenda Conference in September 2016.

In July 2016, we filed for approval of the final environmental true-up relating to expected future remediation costs at our former MGP site in Winter Haven, Florida. This petition was approved by the FPSC in December 2016.

10. Environmental Commitments and Contingencies

We are subject to federal, state and local laws and regulations governing environmental quality and pollution control. These laws and regulations require us to remove or remediate at current and former operating sites the effect on the environment of the disposal or release of specified substances.

We had recorded \$280,000 in environmental liabilities at December 31, 2016 related to a manufactured gas plant ("MGP") site in Winter Haven, Florida, representing our estimate of future costs associated with this site and no regulatory and other assets for future recovery through rates. Environmental liabilities for our MGP site are recorded on an undiscounted basis based on the estimate of future costs provided by independent consultants.

We continue to expect that all costs related to environmental remediation and related activities will be recoverable from customers through rates.

The following discussion provides details of our MGP site:

Winter Haven, Florida

The Winter Haven site is located on the eastern shoreline of Lake Shipp, in Winter Haven, Florida. Pursuant to a consent order entered into with Florida Department of Environmental Protection ("FDEP"), we are obligated to assess and remediate environmental impacts at this former MGP site. Groundwater monitoring results have shown a continuing reduction in contaminant concentrations from the sparging system, which has been in operation since 2002. On September 12, 2014, FDEP issued a letter approving shutdown of the sparging operations on the northern portion of the site, contingent upon continued semi-annual monitoring.

Groundwater monitoring results on the southern portion of this site indicated that natural attenuation default criteria continue to be exceeded. Plans to modify the monitoring network on the southern portion of the site in order to collect additional data to support the development of a remedial plan were specified in a letter sent to FDEP in October 2014. The well installation and abandonment program was implemented in October 2014, and documentation was reported in the next semi-annual RAP implementation status report, submitted in January 2015. FDEP approved the plan to expand the bio-sparging operations in the southern portion of the site, and additional sparge points were installed and connected to the operating system in the first quarter of 2016. Groundwater monitoring results from testing conducted in October 2016 indicated that natural attenuation default criteria were met at all wells.

We estimate that future remediation costs for the subsurface soils and groundwater at the site should not exceed \$425,000, which includes an estimate of \$100,000 to implement additional actions, such as institutional controls, at the site

FDEP previously indicated that we could also be required to remediate sediments along the shoreline of Lake Shipp, immediately west of the site. Based on studies performed to date, and our recent meeting with FDEP, we believe that corrective measures for lake sediments are not warranted and will not be required by FDEP. We therefore have not recorded a liability for sediment remediation.

11. Other Commitments and Contingencies

We have entered into contractual commitments for firm transportation service with two pipelines. The contracts have various expiration dates. The total purchase obligations for the natural gas transportation capacity are \$2,573,493 for 2017, \$5,146,986 for 2018-2019, \$5,154,027 for 2020-2021 and \$1,072,893 thereafter.

We have a firm transportation service contract with Gulfstream Natural Gas Systems LLC ("Gulfstream"). Pursuant to a capacity release program approved by the FPSC, all of the capacity under this agreement has been released to various third parties, including PESCO. Under the terms of this capacity release agreement, Chesapeake Utilities is

contingently liable to Gulfstream, should any party that acquired the capacity through release fail to pay the capacity charge.

We are involved in certain legal actions and claims arising in the normal course of business. We are also involved in certain legal and administrative proceedings before various governmental agencies concerning rates. In the opinion of management, the ultimate disposition of these proceedings will not have a material effect on our financial position, results of operation or cash flows.

Name of Respondent CHESAPEAKE UTILITIES CORPORATION - FLORIDA DIVISION Dec. 31, 2016

SECURITIES ISSUED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

- Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses.
- 2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded.

and gains or losses relating to securities retired or refunded.

3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares.

4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

Not Applicable

UNAMORTIZED LOSS AND GAIN ON REACQUIRED DEBT (Accounts 189, 257)

- Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, particulars (details) of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue.
- 2. In column (c) show the principal amount of bonds or other long-term debt reacquired.
- 3. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with

General Instruction 17 of the Uniform Systems of Accounts 4. Show loss amounts by enclosing the figures in parentheses.

5. Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debit-Credit.

CHESAPEAKE UTILITIES CORPORATION - FLORIDA DIVISION

For the Year Ended

Dec. 31, 2016

1. Report by balance sheet Account the particulars (details) concerning companies from whong-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 3. If the responden Associated Companies, and 224, Other Long-Term heve been nominally the respondents and 224, Companies from Associated Companies, and 224, Other Long-Term heve been nominally the respondents and 224, Companies from Associated Companies, and 224, Other Long-Term heve been nominally the respondents and 224, Companies from Associated Companies and 224, Other Long-Term heve been nominally the respondents and 224, Companies from Associated

Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.

3. If the respondent has any long-term securities which heve been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.

4. If interest expense was incurred during the year on any

at the or year, describe such securines in a hoothote.
4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, allocation, assignment, or sharing of the consolidated tax among the group members.

GAS OPERATING REVENUES (Account 400)

1. Report below natural gas operating revenues for each prescribed account in total.

- 2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.

 3. Report quantities of natural gas sold in therms (14.73 psia at 60 F).

Report gas service revenues and therms sold by rate schedule.

5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain

	NUMBER OF GAS DEPARTMENT EMPLOYEES					
	 The data on number of employees should be reported for payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31. If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote. The number of employees assignable to the gas department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the gas department from joint functions.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and proprietary capital of Chesapeake Utilities Corporation – Florida Division as of December 31, 2016 and 2015, and its income and expenses for the years then ended in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases described in Note 1.

Regulatory Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. As described in Note 1 to the financial statements, the financial statements are prepared by Chesapeake Utilities Corporation – Florida Division on the basis of the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Restriction on Use

Our report is intended solely for the information and use of the board of directors and management of Chesapeake Utilities Corporation and Chesapeake Utilities Corporation – Florida Division and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.
