PUBLIC SERVICE COMMISSION

FOR THE

YEAR ENDED DECEMBER 31, 2004

FARMTON WATER RESOURCES LLC ROOM 590 410 N. MICHIGAN AVENUE CHICAGO, IL 60611

March 9, 2005

Florida Public Service Commission Division of Economic Regulation 2540 Shumard Oak Boulevard Tallahassee, FL 32399-0850

Re: 2004 Class "C" Water Utility Report

Gentlemen:

<u>STATEMENT</u>

Attached are an original and two copies of the annual report form for Farmton Water Resources LLC for the year ended December 31, 2004. Only the first page, general information has been completed, since the utility was not a regulated entity as of year end. We have not yet begun providing service for compensation; therefore, there are no operations results to report as of year end 2004.

As you know the Commission issued its order PSC-04-0980-FOF-WU granting Farmton a certificate to operate a water utility on October 8, 2004. However, two governmental entities have appealed that decision. That appeal is pending and the order granting the certificate is stayed, pending the outcome of the appeal. As such, Farmton does not yet have a certificate and cannot begin providing service for compensation. In other words, we have not begun operations as a regulated utility as of December 31, 2004.

If you have any questions, please contact our attorney, F. Marshall Deterding at (850) 877-6555. Thank you for your consideration.

Very truly yours,

Barbra Goering Manager

GENERAL WATER SYSTEM INFORMATION

Fur	nish information below for each system. A separate page should be supplied where necessary.
1.	Present ERC's * the system can efficiently serve.
2.	Maximum number of ERCs * which can be served.
3.	Present system connection capacity (in ERCs *) using existing lines.
4.	Future connection capacity (in ERCs *) upon service area buildout.
	Estimated annual increase in ERCs *.
6.	Is the utility required to have fire flow capacity?
7.	Attach a description of the fire fighting facilities.
8.	Describe any plans and estimated completion dates for any enlargements or improvements of this system.
9.	When did the company last file a capacity analysis report with the DEP?
10.	If the present system does not meet the requirements of DEP rules, submit the following:
	a. Attach a description of the plant upgrade necessary to meet the DEP rules.
	b. Have these plans been approved by DEP?
	c. When will construction begin?
	d. Attach plans for funding the required upgrading.
	e. Is this system under any Consent Order with DEP?
11.	Department of Environmental Protection ID #
12.	Water Management District Consumptive Use Permit #
	a. Is the system in compliance with the requirements of the CUP?
	b. If not, what are the utility's plans to gain compliance?
	 An ERC is determined based on one of the following methods: (a) If actual flow data are available from the proceding 12 months:
	FRC = (Total SFR gallons sold (omit 000/365 days/350 gallons per day)

UTILITY NAME:_	FARMTON	WATER	RESOURCES
SYSTEM NAME:			

YEAR OF REPORT DECEMBER 31, 2004

GENERAL WASTEWATER SYSTEM INFORMATION

Furnish information below for each system. A separate page should be supplied where necessary.
Present number of ERCs* now being served
2. Maximum number of ERCs* which can be served.
3. Present system connection capacity (in ERCs*) using existing lines.
Future connection capacity (in ERCs*) upon service area buildout
5. Estimated annual increase in ERCs*.
6. Describe any plans and estimated completion dates for any enlargements or improvements of this system
 If the utility uses reuse as a means of effluent disposal, provide a list of the reuse end users and the amount of reuse provided to each, if known.
8. If the utility does not engage in reuse, has a reuse feasibility study been completed?
If so, when?
Has the utility been required by the DEP or water management district to implement reuse?
If so, what are the utility's plans to comply with this requirement?
10. When did the company last file a capacity analysis report with the DEP?
11. If the present system does not meet the requirements of DEP rules, submit the following:
a. Attach a description of the plant upgrade necessary to meet the DEP rules. b. Have these plans been approved by DEP? c. When will construction begin?
d. Attach plans for funding the required upgrading.
e. Is this system under any Consent Order with DEP?
 * An ERC is determined based on one of the following methods: (a) If actual flow data are available from the proceding 12 months: Divide the total annual single family residence (SFR) gallons sold by the average number of single family residents (SFR) gallons sold by the average number of single family residence customers for the same period and divide the result by 365 days.
(b) If no historical flow data are available use: ERC = (Total SFR gallons sold (omit 000/365 days/280 gallons per day).

YEAR OF REPORT DECEMBER 31, 2004

NIA - SEE STATEMENT

CERTIFICATION OF ANNUAL REPORT

I HEREBY CERTIFY, to the best of my knowledge and belief:

YES	NO	1.	of Account	s in substantial compliance with the Uniform System sprescribed by the Florida Public Service Commission 30.115 (1), Florida Administrative Code.
