ACCOUNTANT'S COMPILATION REPORT

May 30, 2013

Board of Directors Harbor Waterworks, Inc. New Port Richey, Florida

We have compiled the accompanying Balance Sheet as of December 31, 2011 and 2012 of Harbor Waterworks, Inc. and the related detail schedules and the Statement of Income and related detail schedules for the year ended December 31, 2012, included in the accompanying prescribed form. We have not audited or reviewed the financial statements included in the accompanying prescribed form, and accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

The management of Harbor Waterworks, Inc. is responsible for the preparation and fair presentation of the financial statement included in the form prescribed by the Florida Public Service Commission in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statement.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist the management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

The financial statements included in the accompanying prescribed form are presented in accordance with the requirements of the Florida Public Service Commission, and are not intended to be a presentation in accordance with accounting principles generally accepted in the United States of America.

The report is intended solely for the information and use of the Florida Public Service Commission and is not intended to be and should not be used by anyone other than the specified party.

Respectfully submitted,

J. S. Baillie, Jr.

Certified Public Accountant

GENERAL INSTRUCTIONS

- 1. Prepare this report in conformity with the 1996 National Association of Regulatory Utility Commissioners Uniform System of Accounts for Water and/or Wastewater Utilities (USOA).
- Interpret all accounting words and phrases in accordance with the USOA.
- 3. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- For any question, section, or page which is not applicable to the respondent, enter the words "Not Applicable."
 Do not omit any pages.
- 5. Where dates are called for, the month and day should be stated as well as the year.
- 6. All schedules requiring dollar entries should be rounded to the nearest dollar unless otherwise specifically indicated.
- 7. Complete this report by means which result in a permanent record, such as by computer or typewriter.
- 8. If there is not enough room on any schedule, an additional page or pages may be added, provided the format of the added schedule matches the format of the schedule with not enough room. Such a schedule should reference the appropriate schedules, state the name of the utility, and state the year of the report.
- 9. If it is necessary or desirable to insert additional statements for the purpose of further explanation of schedules, such statement should be made at the bottom of the page or an additional page inserted. Any additional pages should state the name of the utility, the year of the report, and reference the appropriate schedule.
- 10. For water and wastewater utilities with more than one rate group and/or system, water and wastewater pages should be completed for each rate group and/or system group. These pages should be grouped together and tabbed by rate group and/or system.
- 11. All other water and wastewater operations not regulated by the Commission and other regulated industries should be reported as "Other than Reporting Systems."
- 12. Financial information for multiple systems charging rates which are covered under the same tariff should be reported as one system. However, the engineering data must be reported by individual system.
- 13. For water and wastewater utilities with more than one system, one (1) copy of workpapers showing the consolidation of systems for the operating sections, should be filed with the annual report.
- 14. The report should be filled out in quadruplicate and the original and two copies returned by March 31, of the year following the date of the report. The report should be returned to:

Florida Public Service Commission Division of Economic Regulation 2540 Shumard Oak Boulevard Tallahassee, Florida 32399-0850

The fourth copy should be retained by the utility.

December 31, 2012

COMPANY PROFILE

Provide a brief narrative company profile which covers the following areas:

- A. Brief company history.
- B. Public services rendered.
- C. Major goals and objectives.
- D. Major operating divisions and functions.
- E. Current and projected growth patterns.
- F. Major transactions having a material effect on operations.

The utility was originally organized, as Lake Griffin Utilities, Certificate #522-W in 1989. Rates were set by Order No. 23039, issued June 6, 1990. Those rates are still in effect as adjusted by index filings.

The was transferred to Harbor Hills Utilities, LP by Order No. PSC-94-1543-FOF-WU, December 13, 1994.

During 2012, the utility was transferred to Harbor Waterworks, Inc. (a new owner, unrelated to the previous owners) effective February 28, 2012, and approved by Order No. PSC-12-0587-PAA-WU, issued October 29, 2012. Rate base was established for the new owners and rates in effect were continued.

Subsequent to the purchase, Harbor Waterworks, Inc. filed an application for a wastewater certificate Orer No. PSC-12-580-PAA-SU, issued October 26, 2012, granted Certificate #565-S. Initial rate base was established, rate of return determined, and rates and fees were set as a part of that order. Wastewater reporting is included as a part of this annual report.

Balances shown in this Annual Report for the beginning of the period are as of February 28, 2012 on pages F-1, F-2, F-3 and related supporting schedules. Previous year's results, when requested on the Report, are not presented, as Harbor Waterworks, Inc. only began operations on February 28, 2012.

December 31, 2012

PARENT / AFFILIATE ORGANIZATION CHART

Current as of 12/31/12

Complete below an organizational chart that shows all parents, subsidiaries and affiliates of the utility. The chart must also show the relationship between the utility and affiliates listed on E-7, E-10(a) and E-10(b).						
Stockholders of Harbor Waterworks, Inc.						
100% Harbor Waterworks, Inc	71.60% U.S. Water Services Corporation					
Note: Of the four stockholders of Harbor Waterworks, Inc.,	only three are also stockholders of U.S. Water.

CALCULATION OF THE WATER SYSTEM EQUIVALENT RESIDENTIAL CONNECTIONS

Provide a calculation used to determine the value of one water equivalent residential connection (ERC). Use one of the following methods:

- (a) If actual flow data are available from the preceding 12 months, divide the total annual single family residence (SFR) gallons sold by the average number of single family residence customers for the same period and divide the result by 365 days.
- (b) If no historical flow data are available, use: ERC = (Total SFR gallons sold (Omit 000) / 365 days / 350 gallons per day)

ERC Calculation:		

	Harb	or V	Vatei	work	s, Inc.
--	------	------	-------	------	---------

December 31, 2012

SYSTEM NAME / COUNTY:

OTHER WATER SYSTEM INFORMATION

Furnish information below for each system. A separate page shou	ald be supplied where necessary.
1. Present ERCs * the system can efficiently serve. 615	
2. Maximum number of ERCs * which can be served. 799	
3. Present system connection capacity (in ERCs *) using existing lines.	799
4. Future connection capacity (in ERCs *) upon service area buildout.	799
5. Estimated annual increase in ERCs *.	
6. Is the utility required to have fire flow capacity? If so, how much capacity is required? YES 500PPM,RES	
7. Attach a description of the fire fighting facilities.	
8. Describe any plans and estimated completion dates for any enlargements or impro	ovements of this system:
9. When did the company last file a capacity analysis report with the DEP? 10. If the present system does not meet the requirements of DEP rules: a. Attach a description of the plant upgrade necessary to meet the DEP rules. b. Have these plans been approved by DEP? c. When will construction begin? d. Attach plans for funding the required upgrading. e. Is this system under any Consent Order with DEP? 11. Department of Environmental Protection ID #	iles.
-	
a. Is the system in compliance with the requirements of the CUP? b. If not, what are the utility's plans to gain compliance?	YES

^{*} An ERC is determined based on the calculation on the bottom of Page W-13.

CALCULATION OF THE WASTEWATER SYSTEM EQUIVALENT RESIDENTIAL CONNECTIONS

Provide a calculation used to determine the value of one wastewater equivalent residential connection (ERC). Use one of the following methods:

- (a) If actual flow data are available from the preceding 12 months, divide the total annual single family residence (SFR) gallons sold by the average number of single family residence customers for the same period and divide the result by 365 days.
- (b) If no historical flow data are available, use:

ERC = (Total SFR gallons treated (Omit 000) / 365 days / 280 gallons per day)

For wastewater only utilities:

Subtract all general use and other non residential customer gallons from the total gallons treated.

Divide the remainder (SFR customers) by 365 days to reveal single family residence customer gallons per day.

NOTE: Total gallons treated includes both treated and purchased treatment.

OTHER WASTEWATER SYSTEM INFORMATION

Furnish information below for each system. A separate page should be supplied where necessary.
Present number of ERCs* now being served
2. Maximum number of ERCs* which can be served
3. Present system connection capacity (in ERCs*) using existing lines
4. Future connection capacity (in ERCs*) upon service area buildout
5. Estimated annual increase in ERCs*
6. Describe any plans and estimated completion dates for any enlargements or improvements of this system
7. If the utility uses reuse as a means of effluent disposal, attach a list of the reuse end users and the amount of reuse provided to each, if known.
8. If the utility does not engage in reuse, has a reuse feasibility study been completed?
If so, when?
9. Has the utility been required by the DEP or water management district to implement reuse?
If so, what are the utility's plans to comply with this requirement?
10. When did the company last file a capacity analysis report with the DEP?
11. If the present system does not meet the requirements of DEP rules: a. Attach a description of the plant upgrade necessary to meet the DEP rules. b. Have these plans been approved by DEP? c. When will construction begin? d. Attach plans for funding the required upgrading. e. Is this system under any Consent Order with DEP?
12. Department of Environmental Protection ID #
