LOCAL EXCHANGE SERVICE

1. Definitions (Cont'd)

Call Pickup: Allows a User to answer incoming calls to another Station line within a defined call pickup group. Call Pickup is provided as either Group Call Pickup, where predesignated groups can pickup each other's calls by activating an access code or a feature key, or Directed Call Pickup, where any call can be retrieved by dialing a different access code followed by the extension number.

Call Transfer/Consultation/Conference: Provides the capability to transfer or add a third party, using the same line.

Call Waiting: Provides the User with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switchhook or hanging up the phone and being rung back by the caller.

Call Waiting Cancel: Allows a User to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Calling Number Delivery: Identifies the 10-digit number of the calling party.

Calling Number Delivery Blocking: An optional feature which allows a customer to block the delivery of their telephone number to the called party's destination display on a selective or complete basis.

Selective Blocking allows a customer to activate and deactivate on a per-call basis Calling Number Delivery Blocking using a feature access code prior to placing an outgoing call. Selective Blocking does not prevent the delivery of telephone numbers to 911 emergency providers.

Complete Blocking allows a customer to request Calling Number Delivery Blocking on the customer's line or trunk which automatically blocks the delivery of the caller's number on all outgoing calls. Complete Blocking does not prevent the delivery of telephone numbers to 911 emergency providers.

Caller Id-Name: Allows the subscriber to view the phone number of the person calling before the phone is answered.

Caller ID with Name and Number: Allows the subscriber to view the name and phone number of the calling party before the phone is answered.

Company: MCImetro Access Transmission Services LLC d/b/a Verizon Access Transmission Services, a Delaware Corporation, which is the issuer of this price list.

T/N

Conference/Six-Way: The User can sequentially call up to five other people and add them together to make up a six-way call.

LOCAL EXCHANGE SERVICE

2. Regulations (Cont'd)

2.11 MCI Local Disaster Recovery Service

MCI Local Disaster Recovery Service is an optional feature for customers of MCI Local Line and/or Trunk Services. MCI Local Disaster Recovery Service is not available for circuits provided via UNE-P.

MCI Local Disaster Recovery Service provides MCI Local Customers with pre-established Local Disaster Recovery Plans to be invoked in case of a local line/trunk outage related to an emergency /disaster. MCI Local Disaster Recovery Service can be defined as a collection of actions, procedures, and information that is developed, tested and held in readiness for use in the event of an emergency / disaster. For purposes of this optional feature, an emergency / disaster is defined as any event that may cause a lengthy disruption of the Customer's local line/trunk service. These events include, but are not limited to, natural events, accidents, or events of sabotage. The customer must notify MCI when to invoke these pre-established plans with a secure password. These pre-established plans may consist of specific restoration processes involving the redirection of traffic through Remote Call Forward Feature Service; or Trunk Group Redirection. More complex plans that involve over 100 numbers may also be established on an individual case basis. Changes or modifications to these plans can be made as part of the monthly recurring fee.

Pricing

MCI Local Disaster Recovery: Non Recurring Charge

1 number to 10 numbers:	\$750
11 numbers to 40 numbers:	\$850
41 numbers to 100 numbers:	\$1,000
101 numbers and above:	\$1,500

MCI Local Disaster Recovery: Recurring Charge

1 number to 10 numbers:	\$50
11 numbers to 40 numbers:	\$100
41 numbers to 100 numbers:	\$200
101 numbers and above:	\$200

2.12 Use of Service

Effective February 26, 2006, Residential and Small Business local exchange service as described in Sections 8 and 9 will no longer be available to new customers residing in areas in which local exchange service is provided by any affiliate or subsidiary of Verizon not subject to this tariff. This does not apply to customers of this service who are eligible to subscribe to the Residential Affinity Savings Plan I or the Small Business Affinity Savings Plan I. Additionally, Company services, to the extent they have been made unavailable to new and/or existing customers of those services as of that date, may continue to be offered and provided without revision to customers subscribing to those services via an agreement with an agent or other affinity of the Company (including, but not limited to, Quixtar, Inc.; and excluding Fionda, LLC, and Espirit de Corpe, Inc.), who has contracted with the Company to sell Company services to its members.

2. Regulations (Cont'd)

2.13 811 Dialing Service

1. General

811 Dialing Service (811) is a custom call-routing application utilizing a three-digit local dialing arrangement, terminating to a subscriber-provided number for access to advance excavation notice services. It provides the calling party an easy-to-remember three-digit dialing code with call delivery to established 811 subscribers. The 811 code was assigned for this purpose pursuant to the Sixth Report and Order, released March 14, 2005 by the Federal Communications Commission in CC Docket No. 92-105, which specifies that such calls be delivered to a number provided by the relevant 811 subscriber that is not a toll call for the party dialing the number (i.e., either a toll-free (8XX) or local number). This tariff covers calls originating on lines terminating in the Company's switch (i.e., originating and terminating within the same MSA); it does not cover 1+, 0+, 0- operator-assisted, 101XXXX, or inmate calls.

2. Conditions

Calls placed using 811 are automatically routed to the 811 subscriber's terminating number, which the subscriber must provide in the form of either a toll-free number or a local number whose local calling area covers all of the locations to which the service is provided. The subscriber shall provide the Company with this number in advance so that the Company may properly translate its central office switches. If charges are required to re-route the call to the terminating number, they will be cared for by the use of a subscriber-provided toll-free number. The Company is not responsible for redirecting or otherwise handling 911 and other calls misdialed or misrouted as 811 calls. The subscriber shall provide sufficient terminating number paths to its toll-free or local terminating number so as to not clog nor impair the Company's network.

The Company's offering of 811 to the subscriber also is conditioned on the subscriber's representation that it has been authorized by appropriate state authorities to receive and respond to 811 calls from the public within the areas served by the Company, and that the subscriber has obtained all licenses, authorizations, and other prerequisites necessary to provide that service, and will at all times comply with all applicable laws and regulations.

The Company reserves the right to discontinue the service, without notice, if interruption of 811 is necessary to prevent or protect against fraud or otherwise protect the Company's personnel, facilities or services.

811 is not available for resale.

3. Limitations on Liability

The Company shall be indemnified and saved harmless by the subscriber against claims for libel, slander, or the infringement of copyright arising directly or indirectly from the material transmitted over the facilities or the use thereof; against claims for infringement of patents arising from combining with or using in connection with, facilities furnished by the Company, apparatus and systems of the subscriber; and against all other claims arising out of any act or omission of the subscriber in connection with the facilities provided by the Company. Neither the Company nor any concurring, connecting or other participating carrier shall be liable for any act or omission of another company or companies furnishing a portion of such service. The Company is not responsible to the subscriber, authorized user, joint user, sharer of service, patron of a reseller or any other person for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failures or defects in facilities furnished by the Company occurring in the course of furnishing service or other facilities (Service Problems) or other injury, including but not limited to injuries to persons or property from voltages or currents transmitted over the service of the Company caused by terminal equipment. The Company is not responsible to the subscriber, authorized user, joint user, sharer of service, patron of a reseller or any other person for injuries or damages to persons or property arising from the existence of subscriber-provided power supply.
