EXECUTIVE SUMMARY
Centrex RACF for EBS
(FL2006-123)

Present Tariff, Proposed Tariff, Rationale for Change

This tariff enhances an existing Centrex optional feature, Remote Access Call Forwarding (RACF), making the feature available to new and existing Centrex RACF customers with Electronic Business Sets (EBS). RACF is an optional feature that allows a Centrex station user to activate or deactivate and redirect call forwarding from a remote location. Currently customers only have that capability from their primary line. This feature will now be available to customers using Electronic Business Sets.

Revenue Impact

The cost for the enhancements will cover the costs.
