## **SUMMARY OF RATE CHANGES**

### **BASIC SERVICE RATE CHANGES:**

This filing, effective on November 12, 2004, restructures and merges the access line rate schedules of the separate six former Centel rate groups and the six former United rate groups into a consolidated five rate group rate schedule. It also provides for all access lines to be Touchtone equipped, thus eliminating the separate twelve rate schedules for grandfathered non-Touchtone access lines. In accordance with the objective to reduce rate schedules and align exchange rates based on the number of access lines in the flat rate local calling area, the surcharge rate additives (exceptions) for the Groveland, Greenville and Ft. Meade exchanges and the North Golden Gate/Corkscrew area of the Naples exchange are being eliminated.

Consistent with the Commission's expressed desire to reduce Extended Calling Scope (ECS) routes and charges, 35 ECS routes are being converted to non-optional flat rate calling. As a result of the restructure and aligning exchange rates based on the number of access lines in the flat rate local calling areas, some customer rates will decrease while others will increase. With a few exceptions, those exchanges with the largest increases are also the exchanges that have expanded local calling areas; thus the increased monthly recurring rate increases are offset to some degree by the elimination of ECS charges.

Service Connection Charge rates are also being changed to align the former Centel and United rate schedules.

### **NON-BASIC RATE CHANGES:**

Multi-line business and Centrex access lines rate schedules are also aligned under the new five consolidated rate group schedule.

The Directory Assistance call allowance is being reduced from two calls per access line to one call per access line. The Directory Assistance per call charge is also being reduced, from \$0.65 to \$0.55.

Other rate changes include directory listings, non-listed number service, selected optional feature packages and individual features.

5. Definitions (Cont'd)

- d. TOLL-PAC - a one-way calling plan which allows a subscriber the option of placing toll calls to specific nearby exchanges at a 30% discount applied to the direct dial rate. The plan has a minimum monthly rate which will apply for each point-to-point or for each point to multi-point service. TOLL-PAC for United exchanges had two rate steps, designated in the listing of exchange rate group classifications and calling areas on the following pages as (RS1) and (RS2). TOLL-PAC is available in only one Central Telephone Exchange, therefore only one rate is applicable. See C.4. for a complete explanation of this service.
- e. OELC - Optional Extended Local Calling - An optional two-way calling plan available between specific exchanges. The plan permits customers to pay a monthly flat rate for the ability to place and receive unlimited toll-free calls to and from the selected exchange which is outside the normal local calling area. See C.5. for a complete explanation of this service.
- f. OEAS - A one-way optional calling plan offered on selected exchanges to provide an alternative to long distance message rates on exchanges within the same LATA. There are two flat-rated block of time options, and one unlimited calling option available to residence customers and a discounted toll option available to residence and business customers.

\* The tiered rates will be applied on a per customer, per premises, per customer group basis with the applicable rate per line equal to the total number of lines subscribed to. Example: If a customer has 156 Digital Centrex lines and all 156 lines terminate at the same premises and are with the same Digital Centrex customer group, "ALL" 156 lines will be billed at \$24.62. However, if a customer has services at the same premises, but the Digital Centrex lines are terminated in multiple Digital Centrex customer groups, then the Digital Centrex lines will be rated independently based on the total number of lines terminating in each Digital Centrex customer group.

BASIC LOCAL EXCHANGE SERVICE

A. GENERAL (Cont'd)

5. Definitions (Cont'd)

- d. TOLL-PAC - a one-way calling plan which allows a subscriber the option of placing toll calls to specific nearby exchanges at a 30% discount applied to the direct dial rate. The plan has a minimum monthly rate which will apply for each point-to-point or for each point to multi-point service. TOLL-PAC for United exchanges had two rate steps, designated in the listing of exchange rate group classifications and calling areas on the following pages as (RS1) and (RS2). TOLL-PAC is available in only one Central Telephone Exchange, therefore only one rate is applicable. See C.4. for a complete explanation of this service.
- e. OELC - Optional Extended Local Calling - An optional two-way calling plan available between specific exchanges. The plan permits customers to pay a monthly flat rate for the ability to place and receive unlimited toll-free calls to and from the selected exchange which is outside the normal local calling area. See C.5. for a complete explanation of this service.
- f. OEAS - A one-way optional calling plan offered on selected exchanges to provide an alternative to long distance message rates on exchanges within the same LATA. There are two flat-rated block of time options, and one unlimited calling option available to residence customers and a discounted toll option available to residence and business customers.
- ~~g. 25/25 Plan - A type of two way extended area service that is non optional. Under this plan, exchange customers pay a monthly EAS additive in addition to applicable regrouping charges. See C.7. for a complete explanation of this service.~~

6. OEAS Optional Extended Area Service

- a. OEAS is a one-way optional calling plan offered by the company to subscribers in the exchanges specified in this section. OEAS provides alternative billing for direct distance dialed (DDD) calls to an exchange beyond the subscriber's local calling area but within the same LATA.

A customer with multiple access lines, subscribing to OEAS, will be billed a monthly minimum charge for each access line.

- b. Options I, III and IV of the OEAS plan are available only to subscribers with residential access lines. Option II is available to both residential and business access line services.
- c. OEAS is not offered in conjunction with FX service, pay telephone service, Shared Tenant Services, guest and patient lines which terminate in hotels, motels, nursing homes or hospitals, nor any other form of resold service.
- d. OEAS does not include calls to other exchanges which are considered within the local calling scope of the additive exchange.
