**Re: Rule 25-6.0185 – Electric Utility Procedures for Long-Term Energy Emergencies (Submitted Electronically)**

Dear Sir or Madam:

Pursuant to Rule 25-6.0185, Florida Administrative Code, regarding Electric Utility Procedures for Long-Term Energy Emergencies, JEA hereby submits its Long-Term Energy Emergency Plan for the 2026 reporting period.

The attached plan, originally submitted in 2009, remains the current Long-Term Energy Emergency Plan on file with the Commission. JEA has reviewed the plan and affirms that it continues to be adequate and appropriate to address long-term energy emergency procedures.

Please contact me at [bakewg@jea.com](mailto:bakewg@jea.com) or 904-635-9716 if you have any questions or require additional information.

Respectfully submitted,

*William Garry Baker*

Garry W. Baker
