BY ELECTRONIC FILING

Ms. Beth Salak, Director
Division of Competitive Markets and Enforcement
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0866

Dear Ms. Salak:

Attached for filing with the Commission are revisions to the TCG South Florida Price List to be effective September 1 2006 as follows:

Section 4

Fifth Revised Sheet 49
Second Revised Sheet 51.6

This filing introduces language limiting the monthly minutes of use for TCG PrimeXpres and PrimePlex PRI services. If you have any questions regarding this filing, please do not hesitate to give me a call.

Best regards,

Brian Musselwhite

SECTION 4.0 SERVICE DESCRIPTION NETWORK SERVICES (Cont'd.)

4.3 Calculation of Distance(continued)

FORMULA:
 (Take the Sq. Root of:)

$$\sqrt{(V1 - V2)^2 + (H1 - H2)^2}$$

4.4 Minimum Call Completion Rate

A customer can expect a call completion rate of not less than 99.01% during peak use periods for all FG D services ("1+" dialing).

4.5 PrimeXpress Network Service

PrimeXpress Network Service provides dedicated connections from an end user's premises to Business Calling Service, and to services provided by interexchange carriers that have interconnected to the Company's switch. PrimeXpress Network Service is delivered to the Customer premise at a DS1 (1.544 Mbps) rate. A PrimeXpress facility may be provided as a stand-alone service or provisioned over an existing or new AT&T ACCU-Ring or other transport facility. PrimeXpress Network Service is available on a 1, 2 or 3-year term commitment.

The Customer may opt to utilize PrimeXpress Network Service for outgoing calls only (DOD), incoming calls only (DID) or a combination of both inbound and outbound calls. When the Customer elects to utilize PrimeXpress Network Service for both inbound and outbound calls, they may choose Combo service which allows incoming calls to an attendant only or they can elect to utilize DID/DOD service which allows incoming calls to be terminated directly to an End User behind a PBX or capable Key System. When DID or DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

PrimeXpress Network Service trunks configured for Inbound and Outbound calling functionality that, upon detection by The Company, exceeds 200,000 MOU, and attains 100% utilization for inbound calling will be subject to the rates, terms and conditions for PrimeXpress High Volume Inbound Calling Option, PrimeConnect, listed below. All End User equipment connecting to PrimeXpress Network Service must meet F.C.C Part 68 requirements and be technically compatible with the parameters delineated herein. PrimeXpress Network Service is offered with the options of DTMF or MF signaling pulse and wink start or immediate start trunk signaling.

PrimeXpress Network Service is subject to a usage limit of 100,000 local outbound minutes per full T1/PRI per calendar month. The Company reserves the right to charge an additional monthly recurring flat-rate fee equivalent to the Customer's term plan commitment for each successive additional full T1/PRI that would be required to enforce the usage limit. The company reserves the right to audit customer's PrimeXpress usage for these conditions and impose such additional fees on a monthly basis as required.

Section 4 - SERVICE DESCRIPTION NETWORK SERVICES (cont'd.)

4.7 TCG PrimePlex PRI Service (cont'd.)

4.7.4 Conditions

This service is offered subject to the following conditions:

- a. PrimePlex PRI is only available from serving central offices equipped with the necessary facilities to provide PRI service. Feature availability and service capabilities are dependent on the facilities and digital technology providing the service.
- b. ISDN-compatible terminal equipment is required for operation. It is the customer's responsibility to power and obtain such equipment.
- c. PrimePlex PRI service does not preclude customers from originating or receiving circuit-switched voice calls from inside or outside either their serving central office or their Local Exchange Area. Where facilities are available, customers will be able to originate and receive circuit-switched data calls outside of their serving central offices.
- d. This tariff does not provide for the transmission of packet data on the B or D channels.
- e. Existing local usage or MTS rates apply to circuit-switched voice and data calls.
- f. All PRI Arrangement configurations must have at least one 23B+D PRI Arrangement for signaling and control functions. A 23B+Backup D PRI Arrangement is required whenever more than 47 B channels are controlled by a single D channel.
- g. When more than one TCG service is accessed over the same PrimePlex PRI Arrangement, Call-by-Call Service Selection may be required.
- h. Each line group is equipped with one telephone number. Additional numbers may be ordered in blocks of 20 as specified in Section 4.5 preceding. DID Trunk connection charges apply to DID numbers but not to Individual Telephone Numbers.
- i. Telephone numbers ordered from the Company may not be delivered on the same Simulated Facility Group or dedicated trunk group.
- j. The quantity of Individual Additional Telephone Numbers may not exceed the size of the trunk group or simulated facility group to which they are assigned.
- k. PrimePlex PRI Service is subject to a usage limit of 100,000 local outbound minutes per full T1/PRI per calendar month. The Company reserves the right to charge an additional monthly recurring flat-rate fee equivalent to the Customer's term plan commitment for each successive additional full T1/PRI that would be required to enforce the usage limit. The company reserves the right to audit customer's PrimePlex usage for these conditions and impose such additional fees on a monthly basis as required.
