Beth Salak, Director
Telecommunications
Florida Public Service Commission
Attn: Tariff Section
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399-0850

Dear Ms. Salak:

TCG South Florida (TA032) hereby files the attached tariff page revising its Access Tariff.

Access Services Tariff

Section 3	2 nd Revised Page 14
Section 3	2 nd Revised Page 15
Section 3	2 nd Revised Page 16
Section 3	2 nd Revised Page 17
Section 3	2 nd Revised Page 18
Section 4	Original Page 1
Section 4	Original Page 2
Section 4	Original Page 3

This tariff is a clean up tariff for TCG's access tariff.

Acknowledgment, date of receipt and authority number of this filing are requested.

Your consideration and approval will be appreciated.

Yours very truly,

Greg Follensbee (slg)

Executive Director

4. SWITCHED ACCESS SERVICE

(M)

4.1 Switched Transport Rate Category

Switched transport provides the transmission facilities between the customer premises or collocated interconnection location and the Company's end-office switch(es) where the customer's traffic is switched to originate or terminate customer's communications.

4.2 Tandem Switched Transport Rate Category

Tandem Trunk Transport provides the transmission path from the SWC of the customer's premises to an end office utilizing tandem switching functions. Tandem Switched Transport consists of circuits dedicated to the use of a single customer from the customer's premises to the access tandem and circuits used in common by multiple customers. For Tandem Switched Transport the Company will determine the type of facilities from the SWC of the customer's premises to the end office based on the customer's order for service based on a busy hour minutes of capacity basis or on a per trunk basis.

The Tandem Switched Transport rate category is comprised of a Tandem Transport fixed MOU rate, Tandem Transport Per Mile/Per MOU rate, and a Tandem Switching MOU rate. The fixed rate provides the circuit equipment at the end of the interoffice transmission links. The per mile rate provides the transmission facilities, including intermediate transmission circuit equipment, between the end points of the interoffice circuits. For purposes of determining the per mile rate, mileage shall be measured as airline mileage between the tandem office and the end office using the V&H coordinates method for all of the customers usage at that specific tandem. The rate elements applicable to Tandem Switched transport facilities include the fixed and per mile Tandem Switched transport rate elements. The Tandem Switching rate element provides for the tandem switching functions.

In addition, the customer has the option to purchase direct trunks to the access tandem as specified above. If the customer chooses this option, the per mile/per MOU rate shall be measured between the tandem office and the end office (common traffic) using the V&H coordinates method for all of the customer's usage at that specific tandem. The tandem transport fixed per MOU and per mile rates will apply. In addition, the Tandem Switching rate will apply when the ILEC charges the Company for tandem switching for UNE-P and when the Company in a facilities-based environment provides tandem switching.

4. SWITCHED ACCESS SERVICE

(M)

4.3 End Office

The End Office rate category provides for the local switching and end user origination or termination functions necessary to complete the transmission of Switched Access Services to and from the end users served by the Company's end offices. The End Office rate category consists of the Switched Access rate element.

4.4 Switched Access Rate Element

The Switched Access rate element provides for the use of end office switching equipment, terminations for the end user lines terminating in the local end office, and for the termination of calls at a Company Intercept operator or recording when provided on Company switches.

4.5 800 Data Base Access Service

800 Data Base Access Service is an originating only trunk side service. When an 800+NXX+XXXX call is originated by an end user, The Company will perform customer identification based on screening of the full ten-digits of the 800 number to determine the location to which the call is to be routed.

800 Data Base Access Service calls will be delivered to the customer directly from a Company end office only when the end office is equipped with 800 Data Base Query functionality, i.e., the ability to query the 800 Data Base to perform ten-digit customer identification. When the end office does not have 800 Data Base query functionality, 800 calls will be blocked.

Switched Access rates and charges apply to 800 Data Base Access Services calls originated from the Company end offices. In addition to Switched Access usage charges, a basic query charge as specified hereinafter following applies to each 800 Data Base Access service call delivered to the customer. A basic query consists of customer identification {i.e., Carrier Identification Number (CIC), delivery of the ten-digit number, ANI, and the allowable area of service, designated by the customer, from which 800 calls can be received.

4. SWITCHED ACCESS SERVICE

(M)

4.6 800 Data Base Query Charge

The basic query charge is assessed the customer based on the query of the 800+NXX+XXXX number dialed and/or delivered to the customer in conjunction with 800 Data Base Access Service. 800+NXX+XXXX calls delivered to the customer are based on information derived via queries to the 800 Data Base.

4.7 Reciprocity

Notwithstanding any other provision of this tariff, with respect to any Customer that, on its own or through an Affiliate, provides services comparable to the services provided under this tariff to the Company within Florida, during any billing period, if the applicable rates and charges set forth in this tariff are lower than the rates and charges offered or charged anywhere within Florida by the Customer or its affiliate to the Company for such comparable services as of the last day prior to such billing period, ("Customer Price"), then for such Customer, the comparable rates and charges in this tariff may be increased by the Company to an amount equal to such Customer Price.
