SYMBOLS SHEET

The following are the symbols used for the purposes indicated below:

D – Delete Or Discontinue

I – Change Resulting In An Increase to A Customer's Bill

M – Moved From Another Price List Location

N – New

R – Change Resulting In A Reduction To A Customer's Bill

T – Change in Text Or Regulation But No Change In Rate Or Charge

- A. Check Sheets** – When a price list filing is made with the FPSC, an updated check sheet accompanies the price list filing.
- B. Sheet Numbering and Revision Levels** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the price list. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between existing sheets 14 and 15 would be 14.1. Revision levels also appear in the upper right corner of each page. These levels are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised sheet 14 cancels the 3rd revised sheet 14.

Issued: December 12, 2002

Ed Hoffman, Director GRUCom
P.O. Box 147117, Station A136
Gainesville, Florida 32614

Effective: **JAN 1 8 2003**

SECTION 1 – TECHNICAL TERMS AND ABBREVIATIONS

Access Line – A transmission path between user terminal equipment and a switching center.

Central Office – A location where there is an assembly of equipment that establishes the connections between subscriber access lines, trunks, switched access circuits, private line facilities, and special access facilities with the rest of the telephone network.

Customer – The person, firm, corporation or other entity which orders service and is responsible for payment of charges due and compliance with the GRUCom's tariff regulations.

Exchange – The entire telephone plant and facilities used in providing telephone service to subscribers located in an exchange area.

Tandem - Pertaining to an arrangement or sequencing of networks, circuits, or links, in which the output terminals of one network, circuit, or link are connected directly to the input terminals of another network, circuit, or link.

Trunk - a line that carries multiple voice or data channels between two telephone exchange switching systems. In digital communications, a trunk is often a line in an E-carrier system or a T-carrier system.
