ORDER APPROVING SEBRING'S PROPOSED RATE INCREASE

BY THE COMMISSION:

On March 30, 1989, Sebring Utilities Commission submitted its proposed rate increase to the Commission for approval. This current rate increase is one of several scheduled increases needed to meet debt service obligations on bonds issued in 1980-81 to finance power plant construction. The rate increase is allocated almost equally to all classes except lighting. The tariff, therefore, does not substantially change the existing rate structure.

In consideration of the foregoing, we find that Sebring Utilities Commission's proposed rate increase should be approved. Therefore, it is

ORDERED by the Florida Public Service Commission that the Sebring Utilities Commission's proposed rate increase is approved. It is further

ORDERED that this docket shall be closed after the time has run in which to file a petition for reconsideration or notice of appeal if such action is not taken.

By ORDER of the Florida Public Service Commission, this 6th day of JUNE, 1989.
