BY THE COMMISSION:

Notice is hereby given by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for formal proceeding pursuant to Rule 25-22.029, Florida Administrative Code.

Metropolitan Fiber Systems Of Miami, Inc., (Metropolitan Fiber), filed an application for an interexchange certificate on June 29, 1989. The application contained the required background information and proposed tariff. It appears that the Company is technically capable of providing the proposed services. Therefore, we find that it is in the public interest to grant a certificate to Metropolitan Fiber subject to certain hereinafter mentioned restrictions, and it is our intention to grant the certificate as provided below.

The certificate granted to MFS will authorize it to operate as an interexchange telephone company for the provision of dedicated intrastate point-to-point service between and among the points of presence of other telephone companies,

including other interexchange companies, within the State of Florida. The authority will be statewide according to Commission statutes and rules pertaining to the services described herein.

Metropolitan Fiber shall not offer intrastate end-user-to-carrier or end-to-end service without first receiving express Commission authority.

The company may also participate in and will be subject to any restrictions, rules, or guidelines which are a result of the Alternate Access Vendor proceeding in Docket No. 890183-TL.

The provision of such service shall also be subject to the requirements of Order No. 16804, which requires interexchange telephone companies not to construct facilities to bypass a local exchange company without first demonstrating to this Commission that the local exchange company cannot offer the needed facilities at a competitive price in a timely manner. Therefore, Metropolitan Fiber shall not to bypass local exchange company facilities without first receiving express Commission authority.

As with all interexchange carriers, Metropolitan Fiber is subject to the provisions of Rules 25-24.455 through 25-24.495, Florida Administrative Code.

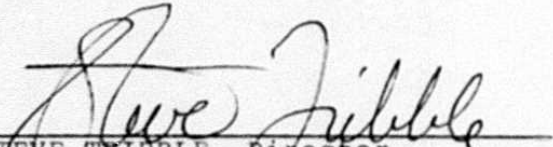

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the application of Metropolitan Fiber for a certificate to provide intrastate interexchange telecommunications service is granted to the extent set forth in the body of this order. It is further

ORDERED that the effective date of the certificate is the first working day following the date specified below, if there is no protest to the proposed agency action within the time frame set forth below.
