NOTICE OF PROPOSED AGENCY ACTIONORDER ESTABLISHING PRICE INDEX FOR APPLICATION FOR 1990

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding pursuant to Rule 25-22.029, Florida Administrative Code.

Each year, pursuant to Section 367.081(4)(a), Florida Statutes, and Rule 25-30.420, Florida Administrative Code, this Commission is required to establish a price increase or decrease index for major categories of operating costs incurred by water and wastewater utilities subject to its jurisdiction, reflecting the increase or decrease in such costs from the most recent 12-month historical data available.

We find that the index should be applied to all operation and maintenance costs, except for costs subject to pass-through adjustments pursuant to Section 367.081(4)(b), Florida Statutes, amortization of rate case expense, and adjustments or

disallowances from a utility's most recent rate proceeding. This is consistent with what we have done in prior years.

We have reviewed the results of various United States Government indicators, including the Gross National Product (GNP) Implicit Price Deflator Index, the Consumer Price Index, and several wholesale indexes, as well as other alternatives, and we find that the GNP Implicit Price Deflator Index is the most appropriate for use in determining the water and wastewater index. This, too, is consistent with what we have done in prior years. The 1990 GNP Price Deflator Index will not be available until the publication of the March, 1990, "Survey of Current Business" prepared by the United States Department of Commerce, Bureau of Economic Analysis. Since we are required by statute to finalize the index by March 31, we will issue this notice of proposed agency action now and incorporate the actual index amount in a subsequent order.

Pursuant to Rule 25-30.420(2)(f), Florida Administrative Code, annualized revenue figures must be used in the index calculation if there have been any changes in the utility's rates during or subsequent to the test year. Consistent with what we have done in prior years, we will provide each utility with a sample format for calculating annualized revenues as part of a packet to be attached to the subsequent order. This packet explains the index and pass-through rate adjustments and how to apply for each. Also to be attached to the final order are a form for the calculation of the 1990 price index adjustments, copies of the appropriate rules and statutes, sample affidavits, and sample notices to customers for both the price index and pass-through adjustments.

It is, therefore

ORDERED by the Florida Public Service Commission that a price increase index is hereby established for use in 1990 pursuant to Section 367.081(4)(a), Florida Statutes, as set out in the body of this Order, and as will be finalized in a subsequent order. It is further

ORDERED that the provisions of this Order, issued as proposed agency action, shall become final unless an appropriate petition, in the form provided by Rule 25-22.036, Florida Administrative Code, is received by the Director,
