ORDER APPROVING TARIFF

BY THE COMMISSION:

Southern Bell Telephone and Telegraph Company (Southern Bell) filed revisions to its General Subscriber Service Tariff on July 2, 1990, introducing Outgoing Only Service.

Outgoing Only Service is a local exchange service for both residential and business customers who want to originate calls, but not receive them. Outgoing Only Service will allow subscribers to originate calls on an outward line; however, when the terminating address attempts to return the call it would be intercepted at the central office with a message informing the caller that the number is not in service for incoming calls. This service is aimed at customers, such as physicians, who make confidential calls from their homes.

The Company will offer this service under the same rates, terms, and conditions as a comparable two-way exchange line. The one-way line is provisioned identically to a two-way line except that incoming calls are preprogrammed to divert to an automated message.

We believe that demand for this service will be dependent upon the resolution of the Company's Caller ID Service Tariff, Docket No. 891194-TL. However, since the customer impact will be small, and the Company's expected costs and revenues will be minimal, we believe it is appropriate to approve the tariff at this time.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the proposed tariff filing by Southern Bell Telephone and Telegraph Company introducing Outgoing Only Service to its General Subscriber Service Tariff is approved. It is further
